A Human Document William Hurrell Mallock,1892

A Veil of Vines Tillie Cole,2016-11-27 To most people, princes, princesses, counts and dukes are found only in the pages of the most famous of fairytales. Crowns, priceless jewels and gilded thrones belong only in childhood dreams. But for some, these frivolous fancies are truth. For some, they are real life. On Manhattan's Upper East Side, people have always treated me as someone special. All because of my ancestral name and legacy. All because of a connection I share to our home country's most important family of all. I am Caresa Acardi, the Duchessa di Parma. A blue blood of Italy. I was born to marry well. And now the marriage date is set. I am to marry into House Savona. The family that would have been the royals had Italy not abolished the monarchy in 1946. But to the aristocrats of my home, the abolition means nothing at all. The Savonas still hold power where it counts most. In our tight-knit world of money, status and masked balls, they are everything and more. And I am soon to become one of them. I am soon to become Prince Zeno Savona's wife..... or at least I was, until I met Achille. And everything changed.

Potential History Ariella Aïsha Azoulay,2019-11-19 A passionately urgent call for all of us to unlearn imperialism and repair the violent world we share, from one of our most compelling political theorists In this theoretical tour-de-force, renowned scholar Ariella Aïsha Azoulay calls on us to recognize the imperial foundations of knowledge and to refuse its strictures and its many violences. Azoulay argues that the institutions that make our world, from archives and museums to ideas of sovereignty and human rights to history itself, are all dependent on imperial modes of thinking. Imperialism has segmented populations into differentially governed groups, continually emphasized the possibility of progress while it tries to destroy

what came before, and voraciously seeks out the new by sealing the past away in dusty archival boxes and the glass vitrines of museums. By practicing what she calls potential history, Azoulay argues that we can still refuse the original imperial violence that shattered communities, lives, and worlds, from native peoples in the Americas at the moment of conquest to the Congo ruled by Belgium's brutal King Léopold II, from dispossessed Palestinians in 1948 to displaced refugees in our own day. In *Potential History*, Azoulay travels alongside historical companions—an old Palestinian man who refused to leave his village in 1948, an anonymous woman in war-ravaged Berlin, looted objects and documents torn from their worlds and now housed in archives and museums—to chart the ways imperialism has sought to order time, space, and politics. Rather than looking for a new future, Azoulay calls upon us to rewind history and unlearn our imperial rights, to continue to refuse imperial violence by making present what was invented as “past” and making the repair of torn worlds the substance of politics.

The Myth of Wu Tao-tzu Sven Lindqvist, 2012-08-02 'During the Tang dynasty, the Chinese artist Wu Tao-tzu was one day standing looking at a mural he had just completed. Suddenly, he clapped his hands and the temple gate opened. He went into his work and the gates closed behind him.' Thus begins Sven Lindqvist's profound meditation on art and its relationship with life, first published in 1967, and a classic in his home country - it has never been out of print. As a young man, Sven Lindqvist was fascinated by the myth of Wu Tao-tzu, and by the possibility of entering a work of art and making it a way of life. He was drawn to artists and writers who shared this vision, especially Hermann Hesse, in his novel *Glass Bead Game*. Partly inspired by Hesse's work, Lindqvist lived in China for two years, learning classical calligraphy from a master teacher. There he was drawn deeper into the idea of a life of artistic perfectionism and retreat from the world. But when he left China for India and then Afghanistan, and

saw the grotesque effects of poverty and extreme inequality, Lindqvist suffered a crisis of confidence and started to question his ideas about complete immersion in art at the expense of a proper engagement with life. The Myth of Wu Tao-tzu takes us on a fascinating journey through a young man's moral awakening and his grappling with profound questions of aesthetics. It contains the bracing moral anger, and poetic, intensely atmospheric travel writing Lindqvist's readers have come to love.

Love That Moves the Sun Linda Cardillo, 2023-12-15 In 1534, Michelangelo is no longer safe in Florence. Pope Clement VII, his childhood friend, summons him to Rome not only to protect him from his enemies but also to demand he paint a masterpiece that will be the Medici Pope's legacy—the Last Judgment, a fresco for the altar wall of the Sistine Chapel. At the same moment, fate brings the celebrated but reclusive poet Vittoria Colonna to Rome to petition the pope as a favor to a dear friend. The two encounter each other briefly in the Vatican, and Michelangelo sketches from memory the enigmatic beauty of the poet's face. When she sees the drawing, she recognizes in the artist the kindred spirit she has found elusive throughout the course of her turbulent life. This fleeting moment is the foundation of a profound relationship between the two artists that feeds both their creativity and their need for connection in the midst of war-torn 16th century Italy.

Getting Even Avril Tremayne, 2018-11-01 Want. Need. Lust. Just one more night! For book editor Veronica Johnson, it's sheer hell seeing her ex Rafael Velez again. He's the man she thought she'd be with for a lifetime, and here he is at her best friend's wedding! How she hates him still! But he has an outrageous proposition: just one more night together! It's foolish—but achingly tempting. Especially if she walks away without a backward glance, just as he did to her... "Dare is Harlequin's hottest line yet. Every book should come with a free fan. I dare you to try them!" —Tiffany Reisz, international bestselling author

In a Veil of Mist Donald S Murray, 2022-09-06 A haunting exploration of the Cold War arms race that tells the story of a true, covered-up germ warfare incident in a remote part of Scotland, involving the US, Canadian, and UK governments. NOMINATED FOR THE 2021 HIGHLAND BOOK PRIZE Operation Cauldron, 1952: Top-secret germ warfare experiments on monkeys and guinea pigs are taking place aboard a vessel moored off the Isle of Lewis. Local villagers Jessie and Duncan encounter strange sights on the deserted beach nearby and suspect the worst. And one government scientist wrestles with his own inner anguish over the testing, struggling to navigate the moral arguments for and against such dangerous testing and extreme deterrent weapons. When a noxious cloud of plague bacteria is released into the path of a passing trawler, disaster threatens. Will a deadly pandemic be inevitable? A haunting exploration of the costs and fallout of warmongering, Donald S Murray follows his prize-winning first novel with an equally moving exploration of another little-known incident in the Outer Hebridean island where he grew up.

Cognition and Decision Making in Complex Adaptive Systems Meghan Carmody-Bubb, 2023-06-23 This book explains the role of

human behavior research, from both a historical and modern perspective, in improving objective, measurable performance outcomes to include safety, strategic decision making, and organizational performance. The book builds upon empirically supported foundations of human cognition, but with a focus on applying this knowledge in a manner that can improve human decision-making to enhance safety and performance. It includes explanations of how the human mind processes information, including differences in novice versus expert information processing, and tools to combat various cognitive biases. Explained within the framework of complex adaptive systems, this book builds upon resources developed through the author's years of combined applied research and graduate teaching and includes chapters on the roles of uncertainty and complexity within scientific research. Finally, the book offers tools that are rooted in empirical research and demonstrated within the context of contemporary, real-world scenarios, with a focus on improving organizational effectiveness through improved strategic decision making and the development of learning cultures within organizations.

Steve McQueen Marshall Terrill, 1995 During his lifetime, Steve McQueen embodied the rebel image. Rough around the edges, driven with a passion not found in ordinary men, he was at once a loner and a leader. When McQueen arrived in Hollywood, even the biggest names had to learn fast that McQueen's hard edge was no mere act, and before long then troubled street kid from Indianapolis was among the highest-paid movie stars in the world. The man many called crazy, who raced motorcycles and lived every day as if it were his last, was also deeply respected by his fellow artists. Edward G. Robinson, Paul Newman and Dustin Hoffman, among others, ranked him among the best actors in film history. Steve McQueen was an original and a natural. *Steve McQueen: Portrait of an American Rebel* chronicles the life and times of a man whose power both on- and off-camera is

legendary. From the list of his female friends to the love of his life, actress Ali McGraw, McQueen seemed to have it all. Marshall Terrill relates vivid, first-hand acco

The Making of Lay Religion in Southern France, C. 1000-1350

John H Arnold,2024-07-18 A rich study of what medieval Christianity meant for ordinary people, and how it changed across the middle ages, arguably as profound as changes in the Reformation period, providing a wider context for medieval Christianity by focusing on southern France in a period mainly known for heresy and for the Church's attack upon heresy.

Blood Theology Eugene F. Rogers, Jr,2021-03-25 The unsettling language of blood has been invoked throughout the history of Christianity. But until now there has been no truly sustained treatment of how Christians use blood to think with. Eugene F. Rogers Jr. discusses in his much-anticipated new book the sheer, surprising strangeness of Christian blood-talk, exploring the many and varied ways in which it offers a language where Christians cooperate, sacrifice, grow and disagree. He asks too how it is that blood-talk dominates when other explanations would do, and how blood seeps into places where it seems hardly to belong. Reaching beyond academic disputes, to consider how religious debates fuel civil ones, he shows that it is not only theologians or clergy who engage in blood-talk, but also lawmakers, judges, generals, doctors and voters at large. Religious arguments have significant societal consequences, Rogers contends; and for that reason secular citizens must do their best to understand them.

Shakespeare Jubilees: 1769-2014 Christa Jansohn,Dieter Mehl,2015 This volume contains a collection of essays on Shakespeare Jubilees around the world, from 1769 to 2014. The contributions range from the elaborate celebrations in Shakespeare's hometown to more modest festivities elsewhere; and from ambitious, theatrical, and politically loaded demonstrations to nationally colored, culturally distinct, and

idiosyncratic commemorations. The variety of ways in which geographically distant countries have remembered Shakespeare has never before been the object of a comparative study. The book's essays will throw new light on Shakespeare as a shared international heritage. Weaving in Stones: Garments and Their Accessories in the Mosaic Art of Eretz Israel in Late Antiquity Aliza

Steinberg, 2020-02-07 This book, copiously illustrated throughout, studies the garments and their accessories worn by some 245 figures represented on approximately 41 mosaic floors (some only partially preserved) that once decorated both public and private structures within the historical-geographical area of Eretz Israel in Late Antiquity.

Ethiopian Highlands, 2014-09 Across the sands of time, Ethiopia has embodied fantasy and intrigue. The richly storied country has been a supporter of Christianity for the Crusaders in the Middle Ages, a symbol of resistance to European colonization in the late 19th century, and, most recently, a recipient of aid due to its extreme poverty. Ethiopian Highlands offers a striking look into this world of contrasts. These vibrant, intimate images captured by Lizy Manola, whose Greek nationality connects her implicitly to Ethiopia's past, bring us to the very heart of this ancient land, seen by many as the birthplace of humanity.

1 Corinthians Luise Schottroff, Claudia Janssen, 2021-11-17 1
Corinthian gives us an example how Paul interprets the Tora for Christians from the nations: He tells concretely, sensitively, close to their daily life about the hope against the death. He writes down prayers and songs from the messianic communities of his times. And he contradicts himself - especially in his dealing with women compared to his ideas about how they should be. Luise Schottroff (1934-2015) guides her readers to discover Pauls from anew, digging to his original thoughts through traditional

missinterpretations, appropriation, and monopolization. The English version is based on the German 2nd edition. It was translated by Everett R. Kalin, Professor Emeritus for New Testament at Pacific Lutheran Theological Seminary at Berkely/CA.

Persepolis Marjane Satrapi, 2008 Wise, often funny, sometimes heartbreaking, *Persepolis: The Story of a Childhood* / It tells the story of Marjane Satrapi's life in Tehran from the ages of six to fourteen, years that saw the overthrow of the Shah's regime, the triumph of the Islamic Revolution and the devastating effects of war with Iraq.

The Hindu Traditions Mark W. Muesse, Renowned lecturer from The Teaching Company, Mark W. Muesse brings readers into an encounter with the world's oldest living religious tradition, known as Hinduism. Muesse's brief survey, challenges the perception of Hinduism as one religious tradition, showing how wonderfully rich and diverse this 5,000-year old story truly is. He traces the vast history and practices of classic and diverse traditions, moving from the origins in the Indus Valley up through classic and contemporary periods. Muesse exhibits a keen sense of the myriad spiritualities associated with Hinduism, demonstrating how the religious tradition is both monotheistic and polytheistic.

Jewish Women Katharina Galor, 2023-12-15 *Jewish Women: Between Conformity and Agency* examines the concepts of gender and sexuality through the primary lens of visual and material culture from antiquity through to the present day. The backbone of this transhistorical and transcontextual study is the question of Jewish women's agency in four different geographical, chronological, and methodological contexts, beginning with women's dress codes in Roman-Byzantine Syro-Palestine, continuing with rituals of purity in medieval Ashkenaz, worship in papal Avignon and the Comtat Venaissin, and ending with marriage and divorce in Israeli film. Each of these explorations is

interested in creating a dialogue between the patriarchal legacy of the traditional texts and the chronologically corresponding visual and material culture. The author challenges traditional approaches to the study of Jewish culture by employing tools from art history, archaeology, and film and media studies. In each of these different contexts, there is ample evidence that women—despite persistent overall structural discrimination—have found ways to challenge male constructs of gender norms. Ultimately, these examples from past and present times highlight women’s eminence in shaping Jewish history and culture. Bringing a new interdisciplinary lens to the study of the history of gender and sexuality, the book will be of interest to students and researchers of Jewish history and culture, art history, archaeology, and film studies.
