Jennifer Yerkes

Joseph, widely regarded as New York's top real estate photographer, has spent nearly three decades shooting the city's greatest tourist destinations and most coveted real estate, including the penthouses and homes of Sting and Trudie Styler, Rupert Murdoch, Jon Bon Jovi, Alex Rodriguez, Sean P. Diddy Combs, and many others. The book includes brief descriptions by Joseph about his process for getting the perfect shot, including death-defying shots from the exterior of a helicopter.

The Secret Horsepower Race: Western Front Fighter Engine Development - Special Edition Merlin Calum E. Douglas, 2021-04-25 The piston engines that powered Second World War fighters, the men who designed them, and the secret intelligence work carried out by both Britain and Germany would determine the outcome of the first global air war. Advanced jet engines may have been in development but every militarily significant air battle was fought by piston-engined fighters. Whoever designed the most powerful piston engines would win air superiority and with it the ability to dictate the course of the war as a whole. This is the never before told story of a high-tech race, hidden behind the closed doors of design offices and intelligence agencies, to create the war's best fighter engine. Using the fruits of extensive research in archives around the world together with the previously unpublished memoirs of fighter engine designers, author Calum E. Douglas tells the story of a desperate contest between the world's best engineers - the Secret Horsepower Race.

A Perfect Day Jennifer Yerkes, 2021-10-19 One bright, sunny morning, the pond's creatures prepare to perform a symphony. The birds begin with their calls; the frogs join in with their croaks; the fox barks, and the bees buzz. At last the clouds arrive with their thunderous percussion... Acclaimed author-illustrator Jennifer Yerkes presents the sights and sounds of an ecosystem in motion. Told with bold, vibrant art and playful onomatopoeia, *A Perfect Day* is a spectacular reminder to stop and listen to nature.

Multispecies Households in the Saian Mountains Alex Oehler, Anna Varfolomeeva, 2019-12-16 *Multispecies Households in the Saian Mountains* brings together new ethnographic insights from the mountains of Southern Siberia and Mongolia. Contributors to this edited collection examine Indigenous ideas of what it means to make a home alongside animals and spirits in changing alpine and subalpine environments. Set in the Eastern Saian Mountain Region of South Central Siberia and northern Mongolia, this book covers an area famous for its claim as the birthplace of Eurasian reindeer domestication. Going beyond reindeer, the contributors explore the less known roles of yaks, horses, wolves, fish, as well as spirits of place and many other sentient beings, all of which co-constitute local notions of "home places." The contributors extend their analysis beyond conventional categories of wild and tame in a region that is increasingly hostile toward its own inhabitants due to global efforts to create protected nature reserves. Using ethnographic nuance, the contributors highlight the many connections between humans and other species, stressing the networks of relationships that transcend idioms of dominance or mutualism. This book is recommended for students and scholars of anthropology, environmental studies, and Asian studies.
