Geschichte des Kölner Verkehrs Winfried Reinhardt, 2017-04-28 Dieses Buch stellt die Entwicklung des Verkehrs im Rheinland seit der Besiedlung des Rheinlands dar, ausgehend vom Fußverkehr und mit der Weiterentwicklung des Wagenverkehrs durch die römische Besiedlung mit dem Siedlungsschwerpunkt Köln. Der Verkehr im mittelalterlichen Köln wird betrachtet, u.a. mit den gewaltigen Pilgerströmen und auch der Einzug der Neuzeit mit der Entstehung des Postwesens ist ein Thema. Die Entwicklung der Eisenbahnstrecken wird ebenso erörtert wie die in Köln durch die Erfindung des Otto-Motors gestartete weltweite Motorisierung. Auch das Flugwesen zu Beginn des 20. Jahrhunderts ist ein Thema wie auch die Entwicklung des städtischen Bus- und Bahnnetzes. Die Zerstörung und der Wiederaufbau der Kölner Verkehrswege wird beschrieben; ein kurzer Ausblick auf zukünftige Verkehrserfordernisse im Rheinland bildet den Abschluss des Buches.

Graf Zeppelin Jürgen Prommersberger, 2017-03-05 GRAF ZEPPELIN - THE ONLY GERMAN AIRCRAFT CARRIER The German aircraft carrier Graf Zeppelin was the lead ship in a class of two carriers of the same name ordered by the Kriegsmarine. She was the only aircraft carrier launched by Germany and represented part of the Kriegsmarine's attempt to create a well-balanced oceangoing fleet, capable of projecting German naval power far beyond the narrow confines of the Baltic and North Seas. Construction on Graf Zeppelin began on 28 December 1936, when her keel was laid down at the Deutsche Werke shipyard in Kiel. Named in honor of Graf (Count) Ferdinand von Zeppelin, the ship was launched on 8 December 1938, and was 85% complete by the outbreak of World War II in September 1939. Graf Zeppelin was not completed and was never operational due to shifting construction priorities necessitated by the war. This book describes the history of Graf Zeppelin and includes many pictures from the different construction stages. You can join us for a walk below the deck as well and you can see the fitting out of a major warship there.

Red Litten World K. M. Alexander, 2015-10-06 The city of Lovat is dying. It just doesn't know it yet. Trapped behind blockades, its citizens starve. Only the wealthiest can afford to snatch up what food does slip through, leaving the poor jostling for scraps. But money only goes so far. Inside their gleaming towers, the well-fed elevated are being killed off one-by-one. Caravan Master Waldo Bell—only a few months removed from the harrowing events along the Broken Road—just wants to keep his head down and be left alone while he waits for the blockades to break. But when familiar symbols written in blood appear at a crime scene and an old debt comes calling, Wal finds himself thrust into chaos. Now, forced onto Lovat's blood-soaked upper levels, Wal faces his most dangerous challenge yet: within a city on the verge of self-destruction, he must fight to save not only his own life—but the life of every Lovatine struggling below.

The Stars Were Right K. M. Alexander, 2013-10-01 Caravan Master Waldo Bell didn't expect to return home a criminal. He just wanted a relaxing month off

between jobs so he could explore the city of Lovat, enjoy a soft bed and a few decent meals. Instead, he's arrested—accused of killing old friends and hacking off body parts. Escaping custody and on the run, Wal becomes a citywide fugitive fighting to clear his name. As the body count rises, a shadowy assassin emerges as the true killer, and the trail begins to grow more and more bizarre. The Stars Were Right combines mystery and monsters, chases and cults, and an ancient evil in a world that is similar but not quite like our own.

Gleam Upon the Waves K. M. Alexander, 2021-03-30 In the lower depths of the city of Lovat, a King Tide rises. On the mantle of this aberration rides a vile stench that permeates the city from root to crown. When a job comes along for Caravan Master Waldo Bell and his crew offering a chance to slip away, it's easy to be interested. When it comes from the city's newly elected mayor, it's impossible to ignore. Outward bound on an enormous floating casino Wal finds himself out of his element. This won't be routine caravan work. This job is more diplomacy than delivery, taking Bell Caravans out of the shadowed warrens and off dusty trails to the canals of Empress, the mysterious capital of the hermit-nation Victory. But, things are never simple in the Territories. As the situation grows increasingly complicated and sinister forces begin to circle, Wal will discover darkness runs deeper than he ever thought possible; reality is not what it seems, and a new apocalypse is closer than anyone predicted.

Aircraft Carrier Siegfried Breyer, 1997-01-07 This book presents an account of the use and actions of the aircraft carrier Graf Zeppelin, one of the primary pieces of the German navy in WWII.

Old Broken Road K. M. Alexander, 2014-10-14 It's called the Broken Road. A long abandoned route veiled in rumor, only spoken of in whispers. Some claim that bandits stalk its overgrown path, while others speak of a city of cannibals. Stories tell of dark apparitions, bizarre monsters, and ancient evils. One thing is certain: no one goes near it. Caravan Master Waldo Bell has had his fill of trouble. But when faced with a stubborn client, a lousy deal demanding delivery on any terms, and military action that closes major caravan routes, Wal and his company find themselves forced on to that vast stretch of trail. While strange events plague the caravan, Wal must confront the horrors of his recent past, as he's thrown into the middle of a deadly conflict that feels far too familiar. On this road, chaos awaits...

The German Aircraft Carrier Graf Zeppelin Carlo Cestra, 2017-03-19 The 1930s was the period of extensive growth of military aviation throughout the world, including carrier-based aviation. The world's greatest navies began extensive efforts to produce aircraft carriers. The German Navy, rebuilding its potential after the First World War, also had the ambition to possess carriers. The first of them was the Graf Zeppelin, but it was never to enter service.

The Battleship Scharnhorst Stefan Draminski, 2021-01-19 A highly detailed study of the World War II German battleship that sparred with the British Royal Navy from 1939-43. The Kriegsmarine's Scharnhorst was a German capital ship, described either as a battleship or battlecruiser, and the lead ship of her class, which included one other ship, Gneisenau. She was launched on 3 October 1936 and completed in January 1939, armed with nine 28cm C/34 guns in three triple turrets. She operated with Gneisenau for much of the early portion of World War II, including sorties into the Atlantic to raid British merchant shipping. They took part in Operation Weserübung (April-June 1940), the German invasion of Norway during which they sank the aircraft carrier HMS Glorious and her escort destroyers Acasta and Ardent. Scharnhorst also sank HMS Rawalpindi in November 1939. In early 1943, Scharnhorst joined the Tirpitz in Norway to intercept Allied convoys to the Soviet Union. On a sortie from Norway to attack a convoy, the German force was intercepted by British ships and during the Battle of the North Cape (26 December 1943), HMS Duke of York and her escorts sank Scharnhorst and most of her crew was lost.

This is the most comprehensive examination of Scharnhorst ever published, drawing on new research and technology to tell the full story of the ship. It includes a complete set of detailed line drawings with fully descriptive keys and full-color artwork, supported by technical details, photographs, and text on the building of the ship, as well as a record of her service history.

Energy from the Desert Kosuke Kurokawa, 2012-05-04 The world's deserts are sufficiently large that, in theory, covering a fraction of their landmass with PV systems could generate many times the current primary global energy supply. In three parts, this study details the background and concept of VLS-PV, maps out a development path towards the realization of VLS-PV systems and provides firm recommendations to achieve long-term targets. This represents the first study to provide a concrete set of answers to the questions that must be addressed in order to secure and exploit the potential for VLS-PV technology and its global benefits.
