Ada and the Number-Crunching Machine Zoë Tucker, 2019-09-03 This is Ada. Although she might look like an ordinary little girl, she's about to change the world. Augusta Ada Byron, better known as Ada Lovelace, is an inquisitive child. Like her clever mother, she loves solving problems—big problems, little problems, and tricky, complicated problems. Ada invents crazy contraptions and reads all the books in the library of her father, the poet Lord Byron; but most of all she loves to solve mathematical problems. Together with her teacher, the mathematician Charles Babbage, Ada invents the world's first computer program. Her achievements made her a pioneer for women in the sciences. Zoë Tucker's words capture the adventurous life of Ada succinctly, and debut picture book illustrator Rachel Katstaller's art infuses Victorian London with humor.

Mesopotamian Protective Spirits F. A. M. Wiggermann, 1992 Wiggerman's study of Mesopotamian monsters bridges the gap between text and image. Wooden and clay figures of monstrous spirits such as Hairy-One (lahmu), Bison-Bull (kusarikku), and Furious-Snake (mushussu) stand guard at the entrances to buildings to protect the inhabitants from demonic intruders. Deriving his information from the ritual texts that describe the production and installation of these figures, the author identifies the monsters of the texts with objects from the archaeological record and presents a detailed discussion of the identities and histories of a variety of Mesopotamian monsters.

Greta and the Giants Zoë Tucker, 2019-11-19 This inspiring picture book retells the story of Nobel Peace Prize nominee Greta Thunberg—the Swedish teenager who has led a global movement to raise awareness about the world's climate crisis—using allegory to make this important topic accessible to young children. Greta is a little girl who lives in a beautiful forest threatened by Giants. When the Giants first came to the forest, they chopped down trees to make houses. Then they chopped down more trees and made even bigger homes. The houses grew into towns and the towns grew into cities, until now there is hardly any forest left. Greta knows she has to help the animals who live in the forest, but how? Luckily, Greta has an idea... A section at the back explains that, in reality, the fight against the “giants” isn't over and explains how you can help Greta in her fight. Myths & Legends of Babylonia & Assyria Lewis Spence, 1920 A collection of Babylonian and Assyrian myths and legends, including various analogues of the biblical flood story and discussions of the history of Babylon and Assyria, and descriptions of various forms of Babylonian worship, Assyrian cults, and archaeological excavation of Babylonian and Assyrian sites.

Lectures on the Origin and Growth of Religion as Illustrated by the Religion of the Ancient Babylonians Archibald Henry Sayce, 1888 Excerpt from *Lectures on the Origin and Growth of Religion: As Illustrated by the Religion of the Ancient Babylonians* A word of apology is needed for the numerous repetitions in the following chapters, which are due to the fact that the chapters were written and delivered in the form of Lectures. I cannot guarantee the exactness of every word in the translations of the cuneiform texts given in them. The meaning of individual words may at times be more precisely defined by the discovery of fuller materials, even where it has been supposed that their signification has been fixed with certainty. The same fate has befallen the interpretation of the Hebrew Scriptures, and is still more likely to befall a progressive study like Assyrian. Adapa and the South Wind Shlomo Izre'el, 2001-06-23 The scholarly world first became aware of the myth of Adapa and the South Wind when it was discovered on a tablet from the El-Amarna archive in 1887. We now have at our disposal six fragments of the myth. The largest and most important fragment, from Amarna, is dated to the 14th century B.C.E. This fragment of the Adapa myth has red-tinted points applied on the tablet at specific intervals. Izre'el draws attention to a few of these points that were missed in previous publications by Knudtzon and Schroeder. Five other fragments were part of the Assurbanipal library and are representative of this myth as it was known in Assyria about seven centuries later. The discovery of the myth of Adapa and the South Wind immediately attracted wide attention. Its ideology and its correspondence to the intellectual heritage of Western religions precipitated flourishing studies of this myth, both philological and substantive. Many translations have appeared during the past century, shedding light on various aspects of the myth and its characters. Izre'el unveils the myth of Adapa and the South Wind as mythos, as story. To do this, he analyzes the underlying concepts through extensive treatment of form. He offers an edition of the extant fragments of the myth, including the transliterated Akkadian text, a translation, and a philological commentary. The analysis of poetic form that follows leads to understanding the myth as a piece of literature and to uncovering its meanings. This study therefore marks a new phase in the long, extensive research into this Mesopotamian myth.

Of Isis and Osiris Plutarch, 2011-12-03 And therefore the desire of truth, especially in what relates to the Gods, is a sort of grasping after divinity, it using learning and enquiry for a kind of resumption of things sacred, a work doubtless of more religion than any ritual purgation or charge of temples whatever, and especially most acceptable to the Goddess you serve, since she is more eminently wise and speculative, and since knowledge and science (as her very name seems to import) appertain more peculiarly to her than any other thing. For the name of Isis is Greek, and so is that of her adversary Typhon, who, being puffed up through ignorance and mistake, pulls in pieces and destroys that holy doctrine, which she on the contrary collects, compiles, and delivers down to such as are regularly advanced unto the deified state; which, by constancy of sober diet, and abstaining from sundry meats and the use of women, both restrains the intemperate and voluptuous part, and habituates them to austere and hard services in the temples, the end of which is the knowledge of the original, supreme, and mental being, which the Goddess would have them enquire for, as near to herself and as dwelling with her.
