**The Prom** Sandra Mitchell,Bob Martin,Chad Beguelin,Matthew Sklar,2020-12-08 Based on the musical that inspired the Netflix film starring Meryl Streep, Nicole Kidman, Kerry Washington, Keegan-Michael Key, James Corden, Andrew Rannells, and Ariana DeBose! Emma Nolan and Alyssa Greene share the same goal: debut as a couple at their senior prom. Only a few things stand in their way—okay, maybe more than a few. For one, Alyssa hasn’t come out yet. It’s not that she doesn’t want to, but with a mother on the PTA who will stop at nothing to prevent same-sex couples from attending prom, it’s not a conversation she’s eager to have—with good reason. Before long, Mrs. Greene has the entire town backing her up, and it’s starting to look as though Emma and Alyssa won’t get their happily-ever-after. Then, out of the blue, two Broadway stars arrive on the scene to fight on the girls’ behalf (and get a little publicity along the way). But when their good intentions fall flat, it’s up to Emma and Alyssa to take matters into their own hands and show their small Indiana town—and the world—that love is love is love. **ENGLISH DESCRIPTION** Based on the musical that inspired the Netflix film starring Meryl Streep, Nicole Kidman, Kerry Washington, Keegan-Michael Key, James Corden, Andrew Rannells, and Ariana DeBose! **Smuggler's Cove** Martin Cate,Rebecca Cate,2016-06-07 Martin and Rebecca Cate, founders and owners of Smuggler’s Cove (the most acclaimed tiki bar of the modern era) take you on a colorful journey into the lore and legend of tiki: its birth as an escapist fantasy for Depression-era Americans; how exotic cocktails were invented, stolen, and re-invented; Hollywood starlets and scandals; and tiki’s modern-day revival, in this James Beard Award-winning cocktail book. Featuring more than 100 delicious recipes (original and historic), plus a groundbreaking new approach to understanding rum, Smuggler’s Cove is the magnum opus of the contemporary tiki renaissance. Whether you’re looking for a new favorite cocktail, tips on how to trick out your home tiki grotto, help stocking your bar with great rums, or inspiration for your next tiki party, Smuggler’s Cove has everything you need to transform your world into a Polynesian Pop fantasia. Make yourself a Mai Tai, put your favorite exotica record on the hi-fi, and prepare to lose yourself in the fantastical world of tiki, one of the most alluring—and often misunderstood—movements in American cultural history.

**Dreaming in Code** Scott Rosenberg,2008-02-26 Our civilization runs on software. Yet the art of creating it continues to be a dark mystery, even to the experts. To find out why it’s so hard to bend computers to our will, Scott Rosenberg spent three years following a team of maverick software developers—led by Lotus 1-2-3 creator Mitch Kapor—designing a novel personal information manager meant to challenge market leader Microsoft Outlook. Their story takes us through a maze of abrupt dead ends and exhilarating breakthroughs as they wrestle not only with the abstraction of code, but with the unpredictability of human behavior— especially their own.

**The Software Craftsman** Sandro Mancuso,2014-12-14 In *The Software Craftsman*, Sandro Mancuso explains what craftsmanship means to the developer and his or her organization, and shows how to live it every day in your real-world development environment. Mancuso shows how software craftsmanship fits with and helps students improve upon best-practice technical disciplines such as agile and lean, taking all development projects to the next level. Readers will learn how to change the disastrous perception that software developers are the same as factory workers, and that software projects can be run like factories.

**Logical Reasoning** Bradley Harris Dowden,1993 This book is designed to engage students' interest and promote their writing abilities while teaching them to think critically and creatively. Dowden takes an activist stance on critical thinking, asking students to create and revise arguments rather than simply recognizing and criticizing them. His book emphasizes inductive reasoning and the analysis of individual claims in the beginning, leaving deductive arguments for consideration later in the course.

**Silent Sentinels** George Newton,2005-09-19 Artillery played an important and perhaps decisive role at the July 1863 Battle of Gettysburg. Although many hundreds of books have been published on the battle, few have focused on the artillery. *Silent Sentinels* fills this flaring gap in the literature. This well-written and illustrated study was designed for both the casual battlefield visitor and the serious scholar. The former will use *Silent Sentinels* to tour the battlefield, browse existing guns, ponder the many photographs, and learn more about artillery in general; the latter will find the extensive primary sources, diagrams, appendices of numbers and losses, and informative discussion of organization and tactics an indispensable reference resource. *Silent Sentinels* discusses in detail every gun-type used at Gettysburg, the equipment needed to operate the guns, their organization, and the

tactics employed by both Union and Confederate artillery men. In addition to a history of the artillery and how it was used, the author includes chapters on the park's collection of 436 guns, the pieces on display at the field today, how to identify the different types of cannon, and how to identify the date and place of manufacture. Silent Sentinels concludes with a driving tour of the battlefield, specially designed with the artillery in mind. This lovely historical guide, complete with detailed endnotes and bibliography, will be a welcomed addition to the growing Gettysburg titles.

**Along Navajo Trails** Will Evans,2020-03-30 A piece of Navajo history otherwise forgotten: the first-hand observations of a Mormon trader on the culture and art of his Navajo contemporaries The overwhelming interest of Will Evans, proprietor of the Shiprock Trading Company, in Navajo culture spanned a half century. He shared his enthusiasm through frequent publication of portraits, vignettes, and essays; he also compiled much of his writing into a book manuscript. His subjects were his customers, friends, and neighbors, their stories of historic events such as the Long Walk, and their life as he understood it. Evans's writings were colored by his uncommon friendship and familiarity with Navajo people but also by who he was: a trader, folk artist, and Mormon. Inspired by sand paintings, Evans appropriated their sacred images for his own paintings of murals and everyday objects. In his writing, he preserved unique records of Navajo history and of individuals about whom little biographical information otherwise remains. Much of that was based on what he heard from his Navajo acquaintances, but it also drew on his direct observations and particular beliefs about the people, their culture, and their history. Evans's granddaughter Susan E. Woods collaborated with historian Robert S. McPherson, author of numerous books on Navajo and Four Corners history, to prepare and publish Will Evans's manuscript, which is illustrated with a remarkable and rare selection of photos from the collections of Evans and his colleagues.

Blink Malcolm Gladwell,2007-04-03 From the #1 bestselling author of The Bomber Mafia, the landmark book that has revolutionized the way we understand leadership and decision making. In his breakthrough bestseller The Tipping Point, Malcolm Gladwell redefined how we understand the world around us. Now, in Blink, he revolutionizes the way we understand the world within. Blink is a book about how we think without thinking, about choices that seem to be made in an instant--in the blink of an eye--that actually aren't as simple as they seem. Why are some people brilliant decision makers, while others are consistently inept? Why do some people follow their instincts and win, while others end up stumbling into error? How do our brains really work--in the office, in the classroom, in the kitchen, and in the bedroom? And why are the best decisions often those that are impossible to explain to others? In Blink we meet the psychologist who has learned to predict whether a marriage will last, based on a few minutes of observing a couple; the tennis coach who knows when a player will double-fault before the racket even makes contact with the ball; the antiquities experts who recognize a fake at a glance. Here, too, are great failures of blink: the election of Warren Harding; New Coke; and the shooting of Amadou Diallo by police. Blink reveals that great decision makers aren't those who process the most information or spend the most time deliberating, but those who have perfected the art of thin-slicing--filtering the very few factors that matter from an overwhelming number of variables.
