Hungry and Frozen Laura Vincent, 2013 I've been a food blogger since 2007 and I love to create my own recipes. I named my blog Hungry and Frozen after a quote from a Broadway musical, because cold student flats were constants at the time. Things have improved significantly since, but the title stuck - and now here I am with my first cookbook. I love delicious yet relaxed food and I'm all about writing recipes that will make you want to rush into the kitchen and cook something. Whether you're looking for a brunch idea, a weeknight meal (or a late-night quick-fix), a feast for your friends, a weekend project or something sugary-sweet, I'll have the dish for you. From fast to fancy, these are recipes for comfort food at any time of the day or night - because it's always the right time to eat food that makes the world feel like a better place. Laura Vincent

Pregnancy with Type 1 Diabetes Jennifer Smith Cde, Ginger Vieira, Jennifer Smith, 2017-03-07 Managing type 1 diabetes during pregnancy is an incredibly overwhelming yet rewarding pursuit. It's about so much more than just counting your carbs and getting exercise. Due to constantly increasing hormones during pregnancy, your insulin needs constantly change, too. While no two women's pregnancies will be alike, the timing of those anticipated insulin adjustments will be similar. In this book, Ginger Vieira and Jennifer Smith, CDE & RD, guide you through preparing for pregnancy, from conception to birth, and through the challenges of managing your blood sugars during postpartum. **REVIEWS:** Wow, there's so much information! The first part of the book, Preparing for Pregnancy, is presented quite well. It gives a WWT1D all the information she needs to prepare for pregnancy. But, I have to say, having lived vicariously through three pregnancies I think the Month-To-Month guide is brilliant. It should be read twice. First, all at once, to help a woman plan and prepare for the different stages of pregnancy. Then, slowly, as each phase opens and each experience becomes as emotional as it is physical. A wonderful guide. The personal testimonials that close out the book are a very nice touch. -Victor Van Beuren, Senior Acquisitions Director of ADA Books If you have type 1 diabetes and are contemplating having a baby, before you do anything-and that means anything at all-make sure you grab a copy of *Pregnancy With Type 1 Diabetes* by Ginger Vieira, CHC, CPT and Jennifer C. Smith, RD, CDE. The book is subtitled 'Your Month-to-Month Guide to Blood Sugar Management,' but it's so much more, it will likely be referred to as 'the Type 1 pregnancy bible' before long. -Nancy Kaneshiro, DiabeticLifestyle.com Ginger and co-author Jennifer Smith wanted to create a guide specifically designed to help women with type 1 diabetes meet those challenges. As mothers with diabetes themselves, they know what it's like to feel the fear of being pregnant while managing diabetes. Ginger has lived with type 1 diabetes and celiac disease since 1999, has written several books about diabetes, and is part of the editorial team at DiabetesDaily.com. Jenny, a Certified Diabetes Educator and Registered Dietitian, has lived with type 1 diabetes since 1990 and works as a diabetes coach for people across the globe. They will both soon be mothers of two children (Ginger is expecting her second child in May!). Their book *Pregnancy with Type 1 Diabetes* is not just an informative tool and resource, but is also a source of personal support, encouragement, and inspiration for all mothers-to-be with type 1 diabetes. -Amelia Dmowska, diaTribe.org

Secret Aerospace Projects of the U. S. Navy Jared A. Zichek, 2009 This is the comprehensive story of some of the most radical attack aircraft ever designed to operate from an aircraft carrier. These incredible projects were developed in 1948 to equip the USS United States, an immense 65,000-ton supercarrier that was to have been the core of the Navy's nascent strategic nuclear bombardment capability. Legendary aerospace companies such as Convair, Curtiss-Wright, Douglas, Fairchild, Lockheed, Martin, North American, Northrop, and Republic would each submit proposals to the competitions. Varying widely in appearance, these studies ranged from Douglas's relatively small and modern Model 593 to their unconventional Model 1186 series, which was inspired by the X-3 Stiletto and featured a small parasite aircraft mounted atop a gigantic missile. Recently declassified, details of these fascinating projects are presented here for the first time. ILLUSTRATIONS 200 b/w images

Stronghold Tucker Malarkey, 2019-07-23 PNBA BESTSELLER • “A powerful and inspiring story. Guido Rahr’s mission to save the wild Pacific salmon leads him into adventures that make for a breathtakingly exciting read.”—Ian Frazier, author of *Travels in Siberia* Editors’ Choice: The New York Times Book Review • Outside Magazine • National Book Review • Forbes In the tradition of *Mountains Beyond Mountains* and *The Orchid Thief*, **Stronghold** is Tucker Malarkey’s eye-opening account of one of the world’s greatest fly fishermen and his crusade to protect the world’s last bastion of wild salmon. From a young age, Guido Rahr was a misfit among his family and classmates, preferring to spend his time in the natural world. When the salmon runs of the Pacific Northwest began to decline, Guido was one of the few who understood why. As dams, industry, and climate change degraded the homes of these magnificent fish, Rahr saw that the salmon of the Pacific Rim were destined to go the way of their Atlantic brethren: near extinction. An improbable and inspiring story, **Stronghold** takes us on a wild adventure, from Oregon to Alaska to one of the world’s last remaining salmon strongholds in the Russian Far East, a landscape of ecological richness and diversity that is rapidly being developed for oil, gas, minerals, and timber. Along the way, Rahr contends with scientists, conservationists, Russian oligarchs, corrupt officials, and unexpected allies in an attempt to secure a stronghold for the endangered salmon, an extraordinary keystone species whose demise would reverberate across the planet. Tucker Malarkey, who joins Rahr in the Russian wilderness, has written a clarion call for a sustainable future, a remarkable work of natural history, and a riveting account of a species whose future is closely linked to our own. Praise for **Stronghold** “This book isn’t just about fish, it’s about life itself and the fragile unseen threads that connect all creatures across this beleaguered orb we call home. Guido Rahr’s quest to save the world’s wild salmon should serve as an inspiration—and a provocation—for us all, and Tucker Malarkey’s exquisite book captures Rahr’s weird and wonderful story with poignancy, humor, and grace.”—Hampton Sides, author of *In the Kingdom of Ice* and *Blood and Thunder* “A crazy-good, intensely lived book that reads like an international thriller—only it’s our beloved salmon playing the part of diamonds or oil or gold.”—David James Duncan, author of *The River Why* and *The Brothers K*

Lost Ancient Technology Of Peru And Bolivia Brien Foerster,

Elongated Skulls of Peru and Bolivia Brien Foerster, 2015-03-28 Elongated human skulls have been found in the archaeological record on every inhabited continent, and most commonly these people existed about 2000 years ago. The vast majority were elite members of various societies and artificial cranial deformation was performed on them as infants in order to achieve a specific look so as to differentiate them from the general public. Nowhere was this more commonplace than in Peru and Bolivia, and this book sets out to figure out where these societies lived, when, and how they may have been related. The most mysterious aspect is that some of the ancient people of Peru and Bolivia may have in fact been born with elongated skulls. Should this turn out through medical examination to be true, the history of humanity many have to be re-written.--Supplied by publisher

David Monn ,2016-10-25 For twelve years, David Monn's magical way of seeing the world has been available only to a privileged group of clients through his event-planning firm in New York City. A state dinner at the White House, openings of the Tiffany flagship store and the Fontainebleau Hotel, the Metropolitan Museum of Art Costume Institute Gala, countless large-scale birthdays and weddings and other celebrations--every lucky guest knows that there is no party like a Monn party. Building on one telling detail of a client's life--for a bride, it might be a favorite candy; for Frank Gehry, it might be cardboard--Monn creates a few unforgettable, carefully choreographed hours using scent, sound, sight, touch, and taste to create what he calls one simple truth. It has to be shared, lived, and felt by everyone there. In this volume Monn introduces us to the people and places that have inspired him and taught him to see; he draws from his personal archive of 20,000 event photographs to show us how he puts his ideas to work; and he lets us into the private world of his spectacular Manhattan loft--which has never been published before--
