Fisheries and Aquaculture - Volume III Patrick Safran, 2009-10-27 Fisheries and Aquaculture theme is a component of Encyclopedia of Food and Agricultural Sciences, Engineering and Technology Resources in the global Encyclopedia of Life Support Systems (EOLSS), which is an integrated compendium of twenty one Encyclopedias. Fisheries are a major life support system and the main purpose of this theme on Fisheries and Aquaculture is to provide baseline information and latest knowledge at the dawn of this century to facilitate vital fisheries recovery before their irreparable collapse. This Theme on Fisheries and Aquaculture is divided into five topics. It starts with discussions on major issues and challenges in “Harvesting the Seas”, with emphasis on the role and importance of the fisheries sector and its environment, and introduces trends and perspectives in marine fisheries, including allocation of use rights, subsidies, and port management. The next two topics present an in-depth and detailed knowledge on fish and other aquatic living resources that are commercially exploited and/or farmed. The third topic on Inland Fisheries presents salmonid fish, eels, shad, whitefish and smelt, carp, perch, pike and bass, tilapia, frog, and crustaceans. The fourth topic presents a comprehensive review of trends and perspectives in Aquaculture: Principles and Prospects. The fifth topic on Economics of Fisheries and Aquaculture reviews the latest views and concepts useful to apprehend the fisheries management regime, including a comparative static economic theory and a dynamic theory of fishery, spatial bioeconomic dynamics and role of international law in the management of marine fisheries, rights-based and community fisheries management, aquaculture economics, and game theory and fisheries. These five volumes are aimed at the following five major target audiences: University and College Students Educators, Professional Practitioners, Research Personnel and Policy Analysts, Managers, and Decision Makers, NGOs and GOs.

The Hour of Decision Oswald Spengler,2022-03-04 Reprint Edition. First published in 1934, the majority of this book was developed just prior to the Nazi seizure of power, with additional material which reflects on its aftermath. It assessed the decline of European power and the crisis of Western civilization in the face of conflict between the ruling class and the lower classes, arguing that only by adherence to their inherited 'Prussianism' would Germany have the solidity to be able to combat these dangers. Despite the influence of his previous writings on key Nazi figures, his criticisms of National Socialism led to the book being banned, although not before it had been widely distributed throughout Germany. Congress Declares War Roland H. Worth, Jr.,2010-06-28 The dramatic events of the Pearl Harbor attack have been covered in detail from a wide variety of approaches. What came next--the American declaration of war, the intervention of Germany and Italy and the U.S. proclaiming war against them as well--has been given considerably less attention. This detailed volume fills that gap with careful analysis of how the public and Congress reacted to the attack and how it began to modify their past

attitudes toward foreign war. Excerpts from the Congressional Record of 1941 support the author's discussion of the debates leading to the decision to declare war. The book explores the rationales defending past conduct by those who had been of both interventionist and anti-interventionist sentiments, as well as their collective effort to forge a national consensus that would support a multi-year international conflict. Emphasis is also placed on the reasoning behind war not being immediately declared on Germany as well as Japan and the motivations behind Germany's decision to enter the conflict on its own initiative. Lengthy attention is given to Jeanette Rankin, the only House member to vote against the war.

Italy at War Henry Hitch Adams, 1982

French Sand Catherine Broughton, 2012-04-26 How would you cope if your husband suddenly - and totally inexplicably - left you and your young child in a foreign country at the other side of the world ? Set on the South Pacific island of New Caledonia in the 1960s, French Sand incorporates a true event which occurred while the author lived there, and tells of how Melanie, a young Englishwoman, copes when she finds herself and her child abandoned for reasons she cannot possibly understand. Warmly and crisply told, this book takes us to a far-flung corner of the earth.
