Reflections on / of Dickens Ewa Kujawska-Lis,Anna Krawczyk-Łaskarzewska,2014-07-24 This collection of new essays draws attention to the various and complex ways in which scholars and critics have reflected upon and reacted to Charles Dickens's texts, including his novels, short fiction and journalism. Subsequent to the initial publication of Dickens's works, writers, visual artists and filmmakers have re-imagined, transposed and transformed them from the mid-nineteenth century to the present. Although *Reflections on / of Dickens* recognizes the writer's importance as first and foremost a major figure in literature, it nevertheless offers a uniquely vast array of approaches to his literary output, ranging from intertextual and generic strategies, through gender studies, translation studies and comparative literary studies, to issues connected with reception, popular culture, visual culture and performing arts. The diverse thematic preoccupations present in this highly interdisciplinary volume attest to Dickens's central position in the British canon and his global appeal, while at the same time narrowing the gap between traditional textual analysis and more contextualised readings of his oeuvre, taking into account the socio-cultural and historical circumstances thanks to which his literary reputation continues to flourish.
