Description: It's 2033, New Yorkers survive on scraps in a despoiled America. Brooklyn Gladiator is a tribute to the comics, films, and experiences that have inspired author Dan Fogler.

Gladiator Philip Wylie,2023-06-09 Gladiator, first published in 1930, tells the story of Hugo Danner, who is given superhuman speed, endurance, strength, and intelligence by his father as an experiment in creating a better human. We follow Hugo throughout his life viewed from his perspective, from childhood, when Hugo first discovers he's different from others, to adulthood, as Hugo tries to find a positive outlet for his abilities around the time of the first World War. Gladiator has been made into a 1938 comedy movie, and is thought to be the inspiration for the Superman comic books—though this has not been confirmed.

David Yarrow Photography David Yarrow, 2019-10-01 The must-have photography monograph of the year, this lavish oversized volume celebrates David Yarrow's unparalleled wildlife imagery. For more than two decades, legendary British photographer David Yarrow has been putting himself in harm's way to capture immersive and evocative photography of the world's most revered and endangered species. With his images heightening awareness of those species and also raising huge sums for charity and conservation, he is one of the most relevant photographers in the world today. Featuring Yarrow's 150 most iconic photographs, this book offers a truly unmatched view of some of the world's most compelling animals. The collection of stunning images, paired with Yarrow's first-person contextual narrative, offers insight into a man who will not accept second best in his relentless pursuit of excellence. David Yarrow Photography

offers a balanced retrospective of his spectacular work in the wild and his staged storytelling work, which has earned him wide acclaim in the fine-art market. Yarrow rarely just takes pictures--he almost always makes them. This approach sets him apart from others in the field. Yarrow's work will awaken our collective conscience, and--true to form--he plans to donate all the royalties from this book to conservation

Blood Debts Ashley Gardner,Jennifer Ashley,2017-07-10

Leonidas, freedman, once the most popular gladiator in Rome and champion of the games, now must fight for his life outside the arena. A man who owed him money was murdered, and Leonidas is a prime suspect. With the assistance of Cassia, daughter of a Greek scribe who was bestowed upon him as his slave, Leonidas fights for justice in the back lanes of Imperial Rome. Cassia has no idea how to cook and clean or mend and weave, but she is very good at finding things out and writing things down, able to work through a dozen mathematical problems by the time most people can think of a sentence. Knowing both intuitively and empirically that Leonidas is innocent of the murder, she resolves to help clear him of the crime. It's the least she can do for a man who has

proved to be far less brutal than his reputation and who protects all who come within his sphere. And if Leonidas loses, he faces a short, painful future back in the amphitheater, this time without hope of survival. A novella of the Leonidas the Gladiator mysteries.

Gladiator Dan Clark, 2023-07-06 Aggressive, explosive, and boasting awesome athletic ability, Dan Clark rose to tremendous fame as Nitro on American Gladiators. He quickly emerged as the most popular cast member and became a reality television superstar. But a twenty-year affair with steroids led to a life of pissing blood, smuggling drugs, destroying hotel rooms, getting arrested, growing breasts, and lying bloodied in the street after a vicious fight with his best friend. This is Clark's riveting, fiercely candid account of his life, career, and steroid addiction. From an upbringing defined by tragedy and a difficult search for identity to tales of performing center stage at Madison Square Garden and bedding Playboy Bunnies and porn stars, Clark explores the price of fame, the pressure of stardom, and how the whole steroid-fueled fantasy finally imploded. What began in high school as a way to speed up recovery from injury rapidly turned into an all-consuming addiction. With self-deprecating humor and a trove of incredible stories, Clark provides an eye-opening report on the dangers of

steroids both obvious and hidden—and offers his thoughts on why steroid use remains a persistent problem today. More than just a pulpy exposé, *Gladiator* is a triumphant story of self-discovery and redemption. “Clark played the character ‘Nitro’ on television series *American Gladiators*, and if you only read one book on vacation this year, this has to be it.”—Chuck Palahniuk, *Author of Fight Club*

“Dan Clark possesses the emotional honesty, humility, and depth together with the innate literary talent and stylistic sensibility to execute this memoir with stunning eloquence and power. His lean, muscular prose never wavers off course as it leads us through his unspeakable loss, overwhelming success, and ultimately into a kind of acceptance and redemption...”—Augusten Burroughs, *Running with Scissors*

“Enormously smart, brave-hearted, extremely personal. Filled with practical advice you can use right away. This book will help thousands of people.”—Myles Knapp, *Contra Costa Times*

“Aspirational. Transformed. Edgy. Self-effacing. Larger than life.”—Mike A. Snyder, MD, *Author of The Full Diet*

The Roman Gladiators Charles River, Charles River Charles River Editors, 2013-11 *Includes pictures of art depicting important people, places, and events. *Describes the different classes of

Roman gladiators and the armor and weaponry they used.

*Describes gladiatorial combat and the myths and misconceptions about the fight. *Includes footnotes and a bibliography for further reading. "He vows to endure to be burned, to be bound, to be beaten, and to be killed by the sword. - The gladiator's oath, according to Petronius in the *Satyricon*. Gladiators are somewhat synonymous with ancient Rome, and even thousands of years after they performed on the sands, when people are asked about Roman culture, many think about and refer to the bloody spectacles of men fighting to the death in the arena. Gladiatorial combat is often regarded as barbaric, and most find it very difficult to comprehend how people could have enjoyed watching something so violent, but nevertheless, the spectacle still intrigues and fascinates people today, whether in movies like *Gladiator* or television shows about *Spartacus*. Gladiatorial combat traces its origins back to the early Republican period from the 5th-3rd century B.C., but it's still unclear where these combats first appeared. Credit has been given to both the Etruscans in northern Italy and the Campanians in southern Italy, though the first recorded gladiatorial combat occurred in the 3rd century B.C. at the funeral of D. Junius Brutus Pera. His sons organized a combat

between three different pairs of gladiators who fought at their father's grave, but exactly what these first gladiatorial combats were supposed to represent remains unclear. Some believe that the spilling of human blood was a way of offering a sacrifice to the dead, while others suggest that the contests themselves were a funeral offering in honor of the dead. Gladiatorial combat began in the Republican period and was associated with death and burial, but due to its popularity it became an organized form of entertainment in the Imperial Age, and even as the gladiators were considered low class, they were also admired, leading to some Roman men and women volunteering to become gladiators. Whatever the original role of gladiatorial combats, they thrilled Roman audiences for many centuries. Each match usually pitted one type of gladiator against a different type of gladiator, with each having their own kind of armor, weaponry and fighting style. For example, the retiarius was a gladiator that used a net, dagger and trident as his offensive weapons, while only wearing a protective guard over his left arm for protection. The retiarius would typically fight against the secutor, a gladiator armed with a sword, large shield, helmet and protective covering on his right arm and left leg. Therefore, a retiarius sacrificed armor for quickness in battle, while

the secutor did the opposite. Although people often think of gladiators fighting to the death, the outcome of gladiatorial combats was not always fatal for one of the participants. If a gladiator fought well, the sponsor of the show could spare him, particularly if the crowd desired it. The fact that the outcome of matches was never the same and the crowd could help determine the result of the match certainly added to the Roman public's pleasure, making it a lot less surprising that such an abhorrent spectacle still fascinated the modern world. The Roman Gladiators: The History and Legacy of Ancient Rome's Most Famous Warriors examines the history of the gladiators and the games they participated in, explaining what life and death was like for the men who fought in Rome's most famous form of entertainment. Along with pictures depicting important people, places, and events, you will learn about gladiators like you never have before.

Gladiator Ridley Scott,Walter Parkes,Sharon Black,Diana Landau,David Franzoni,2000 The official illustrated companion book to the winner of five Academy Awards, including Best Picture, Best Actor (Russell Crowe), Costume Design, Sound, and Visual Effects. Director Ridley Scott (Blade Runner, Thelma and Louise, Alien) brings the glorious battles of the ancient Roman arena back to the big screen. Set against the splendor and barbarity of the Roman Empire in AD 180, *Gladiator* tells an epic story of courage and revenge: The great Roman general Maximus (Russell Crowe) has been forced into exile and slavery by the jealous heir to the throne, Commodus (Joaquin Phoenix). Trained as a gladiator, Maximus returns to Rome, intent on avenging the murder of his family by Commodus, now emperor. The one power stronger than that of the emperor is the will of the people, and Maximus knows he can attain his revenge only by becoming the greatest hero in all the Empire. Russell Crowe heads up an international cast that includes Joaquin Phoenix, Connie Nielson, Oliver Reed, Derek Jacobi, Djimon Hounsou, and Richard Harris. Directed by Ridley

Scott from a script by David Franzoni and John Logan, Gladiator is produced by Franzoni, Douglas Wick, and Branko Lustig, with Walter F. Parkes serving as executive producer. This is the official full-color companion book, featuring excerpts from the screenplay, historical sidebars and illustrations, details on period costumes and epic set designs, behind-the-scenes photographs from the location filming, and interviews with the screenwriters, actors, and director.
