Bashō Matsuo

Basho Bashō Matsuo, 2008 Matsuo Basho stands today as Japan's most renowned writer, and one of the most revered. Yet despite his stature, Basho's complete haiku have never been collected under one cover. Until now. To render the writer's full body of work in English, Jane Reichhold, an American haiku poet and translator, dedicated over ten years to the present compilation. In *Barbo: The Complete Haiku* she accomplishes the feat with distinction. Dividing the poet's creative output into seven periods of development, Reichhold frames each period with a decisive biographical sketch of the poet's travels, creative influences, and personal triumphs and defeats. Supplementary material includes two hundred pages of scrupulously researched notes, which also contain a literal translation of the poem, the original Japanese, and a Romanized reading. A glossary, chronology, index of first lines, and explanation of Basho's haiku techniques provide additional background information. Finally in the spirit of Basho, elegant semi-e ink drawings by well-known Japanese artist Shiro Tsujimura front each chapter.

**The Book of Indian Crafts & Indian Lore** Julian Harris Salomon, 1928 Tells how various articles connected with Indian life were made and used. Some subjects included are Indian music, games, dances, and food. Grades 6-8.

*Preparing for Incident Command*, 1984

Genre - text - interpretation Kaarina Koski, Frog, Ulla Savolainen, 2016-01-01 This book presents current discussions on the concept of genre. It introduces innovative, multidisciplinary approaches to contemporary and historical genres, their roles in cultural discourse, how they change, and their relations to each other. The reader is guided into the discussion surrounding this key concept and its history through a general introduction, followed by

eighteen chapters that represent a variety of discursive practices as well as analytic methods from several scholarly traditions. This volume will have wide appeal to several academic audiences within the humanities, both in Finland and abroad, and will especially be of interest to scholars of folklore, language and cultural expression.

**Foreign Language Teaching in Romanian Higher Education** Lucia-Mihaela Grosu-Rădulescu, 2019-09-10 This volume gathers recent research findings in the field of foreign language (FL) teaching in Romanian higher education dwelling on both methodology and students' learning outcomes. The book satisfies the need for an up-to-date overview of FL teaching in Romanian universities in the European context as well as from a global international perspective. This book confers visibility to Romanian foreign language scholars' research and it opens new paths for debate and collaboration worldwide. The scholars included in this volume have extensive expertise in the field of foreign language teaching and research in higher education which is supported by their international recognition as specialists in their specific areas. The contributing authors approach their respective chapters relying on both qualitative and quantitative research. Their experience and conclusions will prove helpful for any foreign language professional working in tertiary education.

*Bashō's Journey* Matsuo Bashō, 2010-03-29 Offers the most comprehensive collection of Bashō's prose available, beautifully translated into English.

**Japanese Horror and the Transnational Cinema of Sensations** Steven T. Brown, 2018-02-05 Japanese Horror and the Transnational Cinema of Sensations undertakes a critical reassessment of Japanese horror cinema by attending to its intermediality and transnational hybridity in relation to world horror

cinema. Neither a conventional film history nor a thematic survey of Japanese horror cinema, this study offers a transnational analysis of selected films from new angles that shed light on previously ignored aspects of the genre, including sound design, framing techniques, and lighting, as well as the slow attack and long release times of J-horror's slow-burn style, which have contributed significantly to the development of its dread-filled cinema of sensations.

**Diffusion of Distances** Wai-Lim Yip, 2023-11-03 In this collection of passionately argued essays, the internationally acclaimed poet and critic Wai-lim Yip calls Western scholarship to account for its treacherous representation of non-Western literature. Yip moves from Plato to Hans-Georg Gadamer, from Chuang-tzu to Mao Tse-tung, from John Donne to Robert Creeley, as he attempts to create a double consciousness that includes the state of mind of the original author and the expressive potentials of the target language. He aims, first, to expose the types of distortions that have occurred in the process of translation from one language to another and, second, to propose guidelines that will prevent this kind of linguistic violence in the future.

**Santal Folk Tales: Stories about jackals. Stories about women** Paul Olaf Bodding, 1925

**Songs & Poems** Robert Burns, 1913

**Ritual Ground** Douglas C. Comer, 1996-12-23 From about 1830 to 1849, Bent's Old Fort, located in present-day Colorado on the Mountain Branch of the Santa Fe Trail, was the largest trading post in the Southwest and the mountain-plains region. Although the raw enterprise and improvisation that characterized the American westward movement seem to have little to do with

ritual, Douglas Comer argues that the fort grew and prospered because of ritual and that ritual shaped the subsequent history of the region to an astonishing extent. At Bent's Old Fort, rituals of trade, feasting, gaming, marriage, secret societies, and war, as well as the calcified ritual provided by the fort itself, brought together and restructured Anglo, Hispanic, and American Indian cultures. Comer sheds new light on this heretofore poorly understood period in American history, building at the same time a powerfully convincing case to demonstrate that the human world is made through ritual. Comer gives his narrative an anthropological and philosophical framework; the events at Bent's Old Fort provide a compelling example not only of world formation but of a world's tragic collapse, culminating in the Sand Creek massacre. He also calls attention to the reconstructed Bent's Old Fort on the site of the original. Here visitors reenact history, staff work out personal identities, and groups lobby for special versions of history by ritual recasting of the past as the present.

*Retail Market Study 2012* Marc-Christian Riebe, 2012-02-01 The first Worldwide Retail Market Study carried out by the Location Group examined the 65 most noteworthy international fashion capitals, together with Switzerland, Germany and Austria on 500 pages. As part of this study, 850 retailers, 600 High Streets and 450 shopping centres were put under the microscope. 53 newcomers to Zurich's Bahnhofstrasse were described in the 10-year report.

**A Santal Dictionary** P. O. Bodding, 1998-03 Santali, or the language of the Santhals, is spoken by the sons of the soil in a large territory spread over Bihar, West Bengal, Orissa and North-Eastern India. Apart from Santhals several other tribes also use Santali as their dialect. Though several dictionaries on the Santali language have been compiled by earlier Christian

missionaries to spread the message of Bible in the local idiom, Bodding's remains the most exhaustive, most elaborate and most acceptable of all the lexicons. The entries carry not only the meaning and usage but also ethnological description. The reason is to help all readers who use the dictionary for clearer understanding of what each word stands for or refers to. With parantheses at the end of each article some etymological matter has been added. Foreign words which have been assimilated into Santali are included. In all, the dictionary is the only complete and authoritative reference work for those who want to use Santali either as mother tongue or neighbouring or foreign language.

*Japanese/English Code-switching* Miwa Nishimura, 1997 Code-switching, the use of two or more languages in discourse, is the norm in many bilingual and multilingual communities. This book examines Japanese/English code-switching from a syntactic and a functional perspective, using data obtained from the Niseis, second generation Japanese Canadians in the Toronto Japanese community. Previous researchers have postulated that code-switching could not occur between two languages with different word order, but this book shows that this is not the case. The functions of the Niseis' code-switching in conversation is also explored.
