**A Tolkien Tapestry** Cor Blok, 2011 Fifty years ago, shortly after *The Lord of the Rings* was first published, Cor Blok read the trilogy and was completely captivated by its invention and epic storytelling. The breadth of imagination and powerful imagery inspired the young Dutch artist, and this spark of enthusiasm, coupled with his desire to create art that resembled a historical artefact in its own right, led to the creation of more than 100 paintings. Following an exhibition at the Hague in 1961, JRR Tolkien's publisher, Rayner Unwin, sent him five pictures. Tolkien was so taken with them that he met and corresponded with the artist and even bought some paintings for himself. The series bears comparison with the Bayeux Tapestry, in which each tells an epic and complex story in deceptively simple style, but beneath this simplicity lies a compelling and powerful language of form that becomes more effective as the sequence of paintings unfolds. The full-colour paintings in this new book are presented in story order so that the reader can enjoy them as the artist intended. They are accompanied by extracts from *The Lord of the Rings* and the artist also provides an extensive introduction illuminating the creation of the series and notes to accompany some of the major compositions. Many of the paintings appear for the very first time. Readers will find Cor Blok's work refreshing, provocative, charming and wholly memorable - the bold and expressive style that he created stands as a unique achievement in the history of fantasy illustration. Rarely has an artist captured the essence of a writer's work in such singular fashion; the author found much to admire in Cor Blok's work, and what higher accolade is there?

**Dictators and Autocrats** Klaus Larres, 2021-10-31 In order to truly understand the emergence, endurance, and legacy of autocracy, this volume of engaging essays explores how autocratic power is acquired, exercised, and transferred or abruptly ended through the careers and politics of influential figures in more than 20 countries and six regions. The book looks at both traditional hard dictators, such as Hitler, Stalin, and Mao, and more modern soft or populist autocrats, who are in the process of transforming once fully democratic countries into autocratic states, including Recep Tayyip Erdoğan in Turkey, Brazilian leader Jair Bolsonaro, Rodrigo Duterte in the Philippines, Narendra Modi in India, and Viktor Orbán in Hungary. The authors touch on a wide range of autocratic and dictatorial figures in the past and present, including present-day autocrats, such as Vladimir Putin and Xi Jinping, military leaders, and democratic leaders with authoritarian aspirations. They analyze the transition of selected autocrats from democratic or benign semi-democratic systems to harsher forms of autocracy, with either quite disastrous or more successful outcomes. An ideal reader for students and scholars, as well as the general public, interested in international affairs, leadership studies, contemporary history and politics, global studies, security studies, economics, psychology, and behavioral studies.

*Ships of the Line* Michael Okuda, Doug Drexler, 2014-12-02 Traces the influence of early ocean vessels on Starfleet ships and incorporates more than seventy-five additional images featured in the Star Trek: Ships of the Line calendar series.

*Living the Lunar Calendar* Wayne Horowitz, John M. Steele, 2012 Lunar calendars suffer from an inherent uncertainty in the length of each month and the number of months in the year. Variable atmospheric conditions, weather and the acuity of the eye of an observer mean that the first sighting of the new moon crescent can never be known in advance. Calendars which rely on such observations to define the beginning of a new month therefore suffer from this lack of certainty as to whether a month will begin on a given day or the next. The papers in this volume address the question of how ancient and medieval societies lived with the uncertainties of a lunar calendar. How did lack of foreknowledge of the beginning of the month impact upon administration, the planning of festivals, and historical record keeping? Did societies replace the observation of the new moon crescent with schematic calendars or calendars based upon astronomical calculations and what were the ideological and practical consequences of such a change? The contributors to this volume address these topics from the perspectives of a variety of Ancient Near Eastern, Jewish, Ancient and Medieval European, Asian and American cultures.

*Mayan Calendar Prophecies: Predictions for 2012-2052* Gary C.

Daniels,2012-11-01 Take a look at the science behind the Mayan calendar, prophecies and mythology. The Maya believed multiple cycles governed civilization. They created various calendars to track these cycles. Their short count calendar tracked a 256-year cycle believed to control epidemics, famines, warfare and more. Scientists have found a 250-year solar cycle that also appears to affect epidemics, famines, warfare and more. Their long count calendar tracked a 5000-year cycle related to natural disasters and cosmic catastrophes. Scientists have also discovered that the Earth is subjected to periodic bombardment by comets and asteroids that plunges the world into long periods of darkness and cold. Mayan mythology appears to record such events and in some instances even the exact dates on which these catastrophes occurred in the past. By comparing these dates with ice core records, sedimentary records, and climate records, this book reveals the truth about civilization's darkest days. And what may lie ahead in the future.

**Revelation** ,1999-01-01 The final book of the Bible, Revelation prophesies the ultimate judgement of mankind in a series of allegorical visions, grisly images and numerological predictions. According to these, empires will fall, the Beast will be destroyed and Christ will rule a new Jerusalem. With an introduction by Will Self.

The 100th Human Chris Fenwick,2006-05 "the 100th human" tracks the life-or-death, heroic quest of three unforgettable characters as they navigate the epic challenges facing the earth and her inhabitants. In this novel, Chris Fenwick successfully explains such complex scientific theories as critical mass, zero point, wave functions and punctuated equilibrium, making them accessible and even important to our daily lives.This fast-paced journey melds the teachings of the Kabbalah, the Vedas and Christ, fusing the universal concepts of purpose, gratitude, consciousness and love into one compelling story of hope, but also of responsibility.

Christ & The Maya Calendar Robert Powell,Kevin Dann,2009-03-01 In The Book of Chilam Balam of Chumayel, it is said: Katun 11 Ahau is set upon the mat, set upon the throne, when their ruler is set up.... The heavenly fan, the heavenly wreath and the heavenly bouquet shall descend. The drum and rattle of the lord of 11 Ahau shall resound, when flint knives are set into his mantle.... Ahau 11 is the beginning of the count, because this was the katun when the foreigners arrived. They came from the east when they arrived. Then Christianity also began. The fulfillment of its prophecy is [ascribed] to the east.... This is a record of the things which they did. After it had all passed, they told of it in their [own] words, but its meaning is not plain. Despite the explosion of books, videos and TV shows that claim to penetrate the mystery of 2012--the numerical shorthand for the completion on December 21, 2012, of the thirteenth B'ak'tun cycle in the Long Count of the Maya calendar--consensus about its meaning seems to remain elusive. The discussion about the significance of 2012 falls generally into two distinct camps: New Age authors who see this date as marking the advent of an imminent, universally accelerated psychic/spiritual evolution and professional astronomers and ethnologists who generally discount such metaphysical claims. Christ and the Maya Calendar approaches the significance of 2012 by spiritually penetrating phenomena of today. Drawing on the book of Revelation--which provides an archetype for understanding spiritual history, as well as Rudolf Steiner's Apocalyptic indications--a completely new context for grasping the end date of the Maya calendar emerges. In a November 1919

lecture, Steiner made a stunning remark: Ahriman skilfully prepares his goal beforehand...[and] will find an important instrument for preparing his incarnation. His incarnation is undoubtedly coming, and this lack of insight will enable him to prepare it triumphantly. The subtitle of this book--2012 and the Coming of the Antichrist--refers to this coming incarnation of Ahriman. In fact, Steiner narrowed the timeline for Ahriman's incarnation, saying it would come before only a part of the third millennium has run its course. Just after Christmas 1919, Steiner revealed more about the impending incarnation of Ahriman, saying almost offhandedly that Ahriman's name might be John William Smith. With this remark, he clearly pointed to the incarnation occurring in the English-speaking West, while other remarks made it is certain Steiner meant that the incarnation would take place in America. In addition to penetrating the spiritual background of our time in relation to the coming of the Antichrist (the incarnation of Ahriman), the authors explore the significance of the Mexican mysteries and present a wealth of new research with the intention of helping the reader to navigate the Apocalyptic scenario currently shaping up, with the global financial crisis as one important expression. Most important, the authors refer to the Second Coming of Christ as the true event of our time; the incarnation of Satan/Ahriman is its shadow. The authors also show the significance of Divine Sophia as the antidote to negative consequences of Ahriman's incarnation. Finally, as a positive manifestation of the world of spirit in our time, the book discusses the significance of the young anthroposophist, Judith von Halle, who since Easter 2004 has born the stigmata, the visible signs of the wounds of Christ.

**A Note on the Title** The word Antichrist is used in the title and throughout this book, and there are at least two ways in which this word may be understood. The more general use of the word is found in the Bible and in Christian tradition, in which the Antichrist is understood to be the human being who bears the incarnated Satan (also called Ahriman in Persian tradition and, in Revelation 13 in the Bible, The Beast). This is how the word Antichrist is used in this book. However, this general meaning should be distinguished from another, more specialized use of the word, as found in the spiritual science of Anthroposophy, which often uses the word Antichrist to designate the Sun Demon, known as Sorath in the Hebrew tradition, referred to as the Beast whose number is 666, and as the two-horned Beast in Revelation 13. In this connection, Rudolf Steiner refers to the False Prophet who represents the teachings of The Beast. The authors of this book discuss the significance of Sorath in chapters 7 and 8.

**Authors' Note** Rudolf Steiner's large body of spiritual research has paved the way for further research encompassing thousands of volumes and numerous projects and social endeavors around the world. This book focuses upon Steiner's indications about the return of Christ, on the one hand, and the coming of the Antichrist, on the other hand. Both events, according to Steiner, are taking place, or will take place, in our time. Our endeavor is to provide a context in which the reader can find help to be able to grasp the larger picture as to the nature of the time in which we live. The purpose of the book is to draw attention to Christ's return in the realm of life forces known as the etheric, as well as to the impending physical incarnation of Ahriman as the Antichrist. The book is carefully written in the spirit of the age of the clear, critical consciousness of modern humanity to allow people to draw their own conclusions. Thus, it is not a matter of pointing the finger and pronouncing

slogan-like statements. Rather, it is a matter of providing a context for the reader to arrive at a deeper grasp of what is taking place in the world at the present time, which can be attained only by way of hard study and the honest endeavor to attain a higher level of cognition. The main point is that the coming of the Antichrist is actually the shadow side of the much greater event of Christ's coming in the etheric realm, whereby Divine Sophia is actively working to help humanity to become aware of this greatest event of our time. Central to Rudolf Steiner's impulse is the development of intuitive faculties, which he named Imagination, Inspiration, and Intuition. This means that, when research is presented, people--through the exercise of their intuitive faculties--come to their own cognition of the truth and do not depend simply upon what is said by those presenting the research. The goal is--and must be--to arrive at truth for oneself, not based upon anyone else's statements. Although, of course, the statements of others can be taken as a starting point for arriving at the truth. However, cognition of the truth depends upon the development of intuitive faculties going beyond intellectual speculation. Since the publication of this book, various pronouncements--many of a speculative nature--have been made concerning the content of the book. The authors fully support the expression of freedom of thought and freedom of speech underlying statements about the book but obviously cannot be held responsible for the conclusions drawn by others from the research presented in this book. Their concern is truth--in the spirit of the words: You shall know the truth, and the truth shall make you free (John 8:32). In relation to the Antichrist, called the Beast in chapter 13 of the Book of Revelation, his way (Revelation 13) is prepared by the Prophet of the Beast. Nowhere in this book are statements made identifying specific individuals as the Beast (Antichrist) or as the Prophet of the Beast. Yet, in this age of the Internet, all kinds of pro

**Zombies: A Record of the Year of Infection** Don Roff, 2010-07-01 Experience the zombie apocalypse with this illustrated survivor's journal full of chilling tales of terror. The year is 2012, and what starts as a pervasive and inexplicable illness ends up as a zombie infestation that devastates the world's population. Taking the form of a biologist's illustrated journal found in the aftermath of the attack, this pulse-pounding, suspenseful tale of zombie apocalypse follows the narrator as he flees from city to countryside and heads north to Canada, where he hopes the undead will be slowed by the colder climate. Encountering scattered humans and scores of the infected along the way, he fills his notebook with graphic drawings of the zombies and careful observations of their behavior, along with terrifying tales of survival that will keep readers on the edge of their seats right up to the very end. Praise for *Zombies* "Influenced by Richard Matheson's *I Am Legend*, *Zombies* is a genuinely chilling and logical look at a zombie invasion. The matter-of-fact descriptions of the symptoms and effects, coupled with the detailed drawings of both victims and scenarios make it a creepy read . . . . A tremendous addition to any zombie book collection." --Sfcrowsnest

**2012 Mayan Year of Destiny** Adrian Gilbert, 2006-10 Join Adrian Gilbert on an exciting look at the Mayan Calendar and the many mysteries it holds. Discover why the year 2012 is predicted to be a year of exciting and extreme changes and the reasoning behind these changes. Learn why and how the ancient Maya, a people of exceptional astronomical skill and understanding, invented a

calendar so accurate that it ends exactly when the Sun enters a specific portion of the Milky Way as it rises on the Winter Solstice, December 21, 2012, marking the shift to a New Age. Look at the possibility that we are, according to those ancient people, actually living through the "end times." Gilbert explores theories in this well-written, informative book. Includes lots of color photos.

**Stahlbau-Kalender 2021** Ulrike Kuhlmann, 2021-05-14 Die Schwerpunktthemen des Stahlbau-Kalender 2021 sind der Brückenbau und die neue Eurocode-Generation. Brücken aus Stahl zeichnen sich durch eine hohe Lebensdauer und eine hervorragende Tragfähigkeit aus. Durch Kombination mit anderen Materialien sind den Möglichkeiten im Stahlbrückenbau, einschließlich der architektonisch anspruchsvollen Gestaltung, keine Grenzen gesetzt. Brückenneubauten oder Ersatzneubauten unter laufendem Verkehr erfordern innovative Lösungen mit Fokus auf kurzen Bauzeiten bei gleichzeitiger Ressourcenschonung. Dafür eignen sich besonders Brückentypen mit hohem Vorfertigungsgrad und in Modulbauweise, wie z. B. Stahlverbundbrücken mit Fertigteilen. Dank der großen Spannweiten, die sich mit dem Baustoff Stahl erreichen lassen, können Kosten und Aufwendungen für die Mittelstütze und beengende Verkehrsführungen eingespart werden. Den vielfältigen Planungsaufgaben beim Entwurf von Stahl- und Stahlverbundbrücken wird in dieser Ausgabe des Stahlbau-Kalender mit Beiträgen über Richtzeichnungen, Vorplanung, Fertigung und Montage, Brückenseile, Brückenlager, Fahrbahnübergänge und Ermüdungsfestigkeit Rechnung getragen. Als ein grundlegendes Thema des Stahlbaus wird das Beulverhalten und die Optimierung schlanker Stahlkonstruktionen in einem ausführlichen Beitrag aktuell behandelt. Der Stahlbau-Kalender dokumentiert verlässlich und aus erster Hand den aktuellen Stand der Stahlbau-Regelwerke. In dieser Ausgabe werden neben der Aktualisierung von Teil 1-8 Bemessung von Anschlüssen auch Erläuterungen zur Neubewertung des Kerbfallkatalogs nach DIN EN 1993-1-9 - Ermüdung - Ausgabe August 2020 und zur DASt-Richtlinie über die Ermüdungsbemessung bei Anwendung höhenfrequenter Hämmerverfahren gegeben.
