Women of Letters Marieke Hardy, Michaela McGuire, 2011-09-28 In a world of the short and swift, of texts and Twitter, there's something of special value about a carefully composed letter. In homage to this most civilised of

activities, Marieke Hardy and Michaela McGuire created the literary afternoons of Women of Letters. Some of Australia's finest dames of stage, screen and page have delivered missives on a series of themes, collected here for the first time. Claudia Karvan sends 'A love letter' to love itself, Helen Garner contacts ghosts of her past in 'The letter I wish I'd written', Noni Hazlehurst dispatches a stinging rebuke 'To my first boss', and Megan Washington pays tribute to her city and community as she writes 'To the best present I ever received'. And some gentlemen correspondents - including Paul Kelly, Eddie Perfect and Bob Ellis - have been invited to put pen to paper in a letter 'To the woman who changed my life'. By turns hilarious, moving and outrageous, this is a diverse and captivating tribute to the art of letter writing. All royalties for this book will go to Edgar's Mission animal rescue shelter.

Blues for New Orleans Roger Abrahams, 2010-11-24 In the aftermath of Hurricane Katrina, as the citizens of New Orleans regroup and put down roots elsewhere, many wonder what will become of one of the nation's most complex creole cultures. New Orleans emerged like Atlantis from under the sea, as the city in which some of the most important American vernacular arts took shape. Creativity fostered jazz music, made of old parts and put together in utterly new ways; architecture that commingled Norman rooflines, West African floor plans, and native materials of mud and moss; food that simmered African ingredients in French sauces with Native American delicacies. There is no more powerful celebration of this happy gumbo of life in New Orleans than Mardi Gras. In Carnival, music is celebrated along the city's spiderweb grid of streets, as all classes and cultures gather for a festival that is organized and chaotic, individual and collective, accepted and licentious, sacred and profane. The authors, distinguished writers who have long engaged with pluralized forms of American culture, begin and end in New Orleans—the city that was, the city that is, and the city that will be—but traverse geographically to Mardi Gras in the Louisiana Parishes, the Carnival in the West Indies and beyond, to Rio, Buenos Aires, even Philadelphia and Albany. Mardi Gras, they argue, must be understood in terms of the Black Atlantic complex, demonstrating how the music, dance, and festive displays of Carnival in the Greater Caribbean follow the same patterns of performance through conflict, resistance, as well as open celebration. After the deluge and the finger pointing, how will Carnival be changed? Will the groups decamp to other Gulf Coast or Deep South locations? Or will they use the occasion to return to and express a revival of community life in New Orleans? Two things are certain: Katrina is sure to be satirized as villainess, bimbo, or symbol of mythological flood, and political leaders at all levels will undoubtedly be taken to task. The authors argue that the return of Mardi Gras will be a powerful symbol of the region's return to vitality and its ability to express and celebrate itself.

1945 - the Last Recruits Leonard Alfred Watkins, 2020-09-11 This book is the journey of one of New Zealand's last recruits to leave for service overseas as WW2 was nearing its end. Uniquely presented are the letters Len sent home with notes from his personal diary and photos from his 35mm camera. With the digital enhancement used, these photos have really come alive to a new generation. Also included are a few letters from New Zealand to Len describing what was happening back home. Philip, Len's son-in-law, has created 28 humorous caricatures of Len, depicting various situations he encountered on his trip. While Len writes to his family he is challenged with strong restrictions on what he was able to say about the army movements etc, never-the-less this is a snapshot of war history and travel from a down to earth kiwi perspective. We hope this book is enjoyed by all who get to read it.

The Communitarian Constitution Beau Breslin, 2006-09-21 Bowling Alone, the title of Robert Putnam's 1995 article (later a bestselling book) perfectly captured a sense of national unease: Somewhere along the way, America had

become a nation divided by apathy, and the bonds that held together civil society were disappearing. But while the phrase resonated with our growing sense of atomization, it didn't describe a new phenomenon. The fear that isolation has eroded our social bonds had simmered for at least two decades, when communitarianism first emerged as a cogent political philosophy. Communitarianism, as explained in the works of Michael Sandel, Alasdair MacIntyre, Amitai Etzioni, and others, elevates the idea of communal good over the rights of individuals. Throughout the 1980s and 1990s, communitarianism gained popular and political ground. The Clintons touted its principles in the '90s, and the two presidents Bush make frequent references to its central tenets. In its short life, the philosophy has generated plenty of books, both pro and con. Beau Breslin's authoritative and original examination, *The Communitarian Constitution*, contributes to the debate from a wholly original standpoint. Existing critiques focus on the debate between liberalism and communitarianism—in other words, the conflict between individual rights and the communal good. Breslin takes an entirely different stance, examining the pragmatic question of whether or not communitarian policies are truly practicable in a constitutional society. In tackling this question, Breslin traces the evolution of American communitarianism. He examines Lincoln's unconstitutional Civil War suspension of habeas corpus and draws on Federalist and Anti-Federalist arguments, pegging the Anti-Federalists as communitarians' intellectual forebearers. He also grounds his arguments in the real world, examining the constitutions of Germany and Israel, which offer further insight into the relationship between constitutionalism and communitarianism. At a moment when American politicians and citizenry are struggling to balance competing needs, such as civil rights and homeland security, *The Communitarian Constitution* is vital reading for anyone interested in the evolving tensions between individual rights and the good of the community.
