Public Private Partnerships in International Construction Albert P. C. Chan,Esther Cheung,2014-01-23 Over the last ten years public private partnerships have become ever more popular worldwide, expanding the body of experience among construction professionals, government agencies, and industry. In these economically challenging times, PPP has emerged as a crucial framework for providing infrastructure, and also to boost construction industry activity, while shielding the taxpayer from some of the cost. Understanding the lessons learnt is essential to ensuring the success of future projects, and this timely book will prepare the reader to do just that. Starting by defining PPP itself, part one is designed to help the novice to get to grips with the basics of this topic. Part two tackles the practicalities of PPPs, including successful implementation, managing the risks involved, and how to assess the suitability of a project for the PPP route. Part three presents detailed case studies from Asia, Africa, and Australia to illustrate how PPPs should be managed, how problems emerge, and how

PPPs can differ across the world. Drawing on extensive internationally conducted research, from both industry and academia, the authors have written the essential PPP guide. Taking into consideration the perspectives of those in the public sector and the private sector, as well as built environment professionals, it is essential reading for anyone preparing to work on public private partnerships in construction.

Poetry of Belonging Ali Khan Mahmudabad, 2020-01-07 *Poetry of Belonging* is an exploration of north-Indian Muslim identity through poetry at a time when the Indian nation state did not exist. Between 1850 and 1950, when precolonial forms of cultural traditions, such as the musha'irah, were undergoing massive transformations to remain relevant, certain Muslim 'voices' configured, negotiated, and articulated their imaginings of what it meant to be Muslim. Using poetry as an archive, the book traces the history of the musha'irah, the site of poetic performance, as a way of understanding public spaces through the changing economic, social, political, and technological contexts of the time. It seeks to locate the changing ideas of watan (homeland) and hubb-e watani (patriotism) in order to offer new perspectives on how Muslim intellectuals, poets, political leaders, and journalists conceived of and expressed their relationship to India and to the transnational Muslim community. The

volume aims to spark a renegotiation of identity and belonging, especially at a time when Muslim loyalty to India has yet again emerged as a politically polarizing question.

The Disability Bioethics Reader Joel Michael Reynolds, Christine Wieseler, 2022-05-30 The Disability Bioethics Reader is the first introduction to the field of bioethics presented through the lens of critical disability studies and the philosophy of disability. Introductory and advanced textbooks in bioethics focus almost entirely on issues that disproportionately affect disabled people and that centrally deal with becoming or being disabled. However, such textbooks typically omit critical philosophical reflection on disability. Directly addressing this omission, this volume includes 36 chapters, most appearing here for the first time, that cover key areas pertaining to disability bioethics, such as: state-of-the-field analyses of modern medicine, bioethics, and disability theory health, disease, and the philosophy of medicine issues at the edge- and end-of-life, including physician-aid-in-dying, brain death, and minimally conscious states enhancement and biomedical technology invisible disabilities, chronic pain, and chronic illness implicit bias and epistemic injustice in health care disability, quality of life, and well-being race, disability, and healthcare justice connections between disability theory and aging, trans, and fat studies prenatal testing, abortion, and reproductive justice. The Disability Bioethics Reader, unlike traditional bioethics textbooks, also engages with decades of empirical and theoretical scholarship in disability studies--scholarship that spans the social sciences and humanities--and gives serious consideration to the history of disability activism.

Making and Unmaking Intellectual Property Mario Biagioli, Peter Jaszi, Martha Woodmansee,2015-07-31 Rules regulating access to knowledge are no longer the exclusive province of lawyers and policymakers and instead command the attention of anthropologists, economists, literary theorists, political scientists, artists, historians, and cultural critics. This burgeoning interdisciplinary interest in “intellectual property” has also expanded beyond the conventional categories of patent, copyright, and trademark to encompass a diverse array of topics ranging from traditional knowledge to international trade. Though recognition of the central role played by “knowledge economies” has increased, there is a special urgency associated with present-day inquiries into where rights to information come from, how they are justified, and the ways in which they are deployed. *Making and Unmaking Intellectual Property*, edited by Mario Biagioli, Peter Jaszi, and Martha Woodmansee, presents a range of diverse—and even conflicting—contemporary perspectives on intellectual property rights and the contested sources of authority associated with them. Examining fundamental concepts and challenging conventional narratives—including those centered around authorship, invention, and the public domain—this book provides a rich introduction to an important intersection of law, culture, and material production.

T(h)ing - þing or ðing Gunivortus Goos,2023-06-14 The historical term Thing refers to popular assemblies, open-air court sessions and parliaments. All three meanings are found in many examples in the book, including over 225 illustrations of which 182 in color. In addition 48 supporting maps are added. Thing as a juridical court session

occurs most frequently, such as in old descriptions like: In this judgment seat, on the border of the two parishes, the Thing or Dinc, that is, the assembly of the court participants, gathered to take the oath, and in: The Wood-Thing were held each time at this farmstead to redetermine the distribution of the march lands. The landlords and their heirs often came from far away to these Wood-Thing. Many a nobleman's carriage, many a high-wheeled cart, and many a peasant's covered wagon must have stood here. Thing, i.e. public meetings and court sessions, were preferably held under the leafy canopy of the linden tree, because it was believed that the scent of linden blossoms would make the disputants gentle and the judges benevolent. In addition, the linden tree was said to have a great protective effect. Very many of the presented Thingplaces have been preserved and many of them are impressive places to visit.
