It's Better to Be Feared: The New England Patriots Dynasty and the Pursuit of Greatness Seth Wickersham,2021-10-12 NOW WITH A NEW EPILOGUE ON THE 2021 SEASON AND TOM BRADY'S BRIEF RETIREMENT NEW YORK

TIMES BESTSELLER SPORTS ILLUSTRATED • NONFICTION BOOK OF THE YEAR National Sports Media Association • Book of the Year Kirkus Reviews • Best Nonfiction of the Year "Seth Wickersham has managed to do the impossible: he has pulled off the definitive document of the Belichick/Brady dynasty." —Bill Simmons, The Ringer The explosive, long-awaited account of the making of the greatest dynasty in football history—from the acclaimed ESPN reporter who has been there from the very beginning. Over two unbelievable decades, the New England Patriots were not only the NFL's most dominant team, but also—and by far—the most secretive. How did they achieve and sustain greatness—and what were the costs? In It's Better to Be Feared, Seth Wickersham, one of the country's finest long form and investigative sportswriters, tells the full, behind-the-scenes story of the Patriots, capturing the brilliance, ambition, and vanity that powered and ultimately unraveled them. Based on hundreds of interviews conducted since 2001, Wickersham's chronicle is packed with revelations, taking us deep into Bill Belichick's tactical ingenuity and Tom Brady's unique mentality while also reporting on their divergent paths in 2020, including Brady's run to the Super Bowl with the Tampa Bay Buccaneers. Raucous, unvarnished, and definitive, It's Better to Be Feared is an instant classic of American sportswriting in the tradition of Michael Lewis, David Maraniss, and David Halberstam.

   Chicago Richard Cahan,Michael Williams,2017-05-09 Chicago has never had a photo book of its own. Until now. The city has produced some of the most important photographers of our time -- Harry Callahan, Aaron Siskind, Vivian Maier, Art Shay -- but has never before possessed a book packed with their most timeless work. This is the finest collection of its kind -- 100 stunning images by the city's most revered photographers that show the enduring and endearing aspects of Chicago and its landscape from the Loop to the city's vast array of neighborhoods. Richard Cahan and Michael Williams, the foremost picture editors of the city, curate the book. Here they have chosen photos going back more than a

century to show a city that is both well-known and surprising. This is a book for people who love Chicago and for visitors who want something special to remember her by. It is filled with classic photographs that defy time -- timeless pictures of a changing city.

Here Richard McGuire,2020-06-16 From one of the great comic innovators, the long-awaited fulfillment of a pioneering comic vision: the story of a corner of a room and of the events that have occurred in that space over the course of hundreds of thousands of years. "A book like this comes along once a decade, if not a century.... I guarantee that you'll remember exactly where you are, or were, when you first read it." —Chris Ware, The Guardian In Here McGuire has introduced a third dimension to the flat page. He can poke holes in the space-time continuum simply by imposing frames that act as transtemporal windows into the larger frame that stands for the provisional now. Here is the comic-book equivalent of a scientific breakthrough. It is also a lovely evocation of the spirit of place, a family drama under the gaze of eternity and a ghost story in which all of us are enlisted to haunt and be haunted in turn." —The New York Times Book Review With full-color illustrations throughout.

Who Says Women Can't Be Computer Programmers? Tanya Lee Stone,2018-02-20 A picture book biography of Ada Lovelace, the woman recognized today as history's first computer programmer—she imagined them 100 years before they existed! In the early nineteenth century lived Ada Byron: a young girl with a wild and wonderful imagination. The daughter of internationally acclaimed poet Lord Byron, Ada was tutored in science and mathematics from a very early age. But Ada's imagination was never meant to be tamed and, armed with the fundamentals of

math and engineering, she came into her own as a woman of ideas—equal parts mathematician and philosopher. From her whimsical beginnings as a gifted child to her most sophisticated notes on Charles Babbage's Analytical Engine, this book celebrates the woman recognized today as the first computer programmer. The tributes spoke to his legacy: That the world is much smaller than we imagine and people are more alike than they are different. Anthony Bourdain Remembered brings together memories and anecdotes from fans reminiscing about Bourdain's unique achievements and his enduring effect on their lives as well as comments from chefs, journalists, filmmakers, musicians, and writers inspired by Tony including Barack Obama, Eric Ripert, Jill Filipovic, Ken Burns, Questlove, and José Andrés, among many others.     <u>Factfulness</u> Hans Rosling,Anna Rosling Rönnlund,Ola Rosling,2018-04-03 INSTANT NEW YORK TIMES BESTSELLER "One of the most important books I've ever read—an indispensable guide to thinking clearly about the world." – Bill Gates "Hans

Rosling tells the story of 'the secret silent miracle of human progress' as only he can. But Factfulness does much more than that. It also explains why progress is so often secret and silent and teaches readers how to see it clearly." —Melinda Gates Factfulness by Hans Rosling, an outstanding international public health expert, is a hopeful book about the potential for human progress when we work off facts rather than our inherent biases. - Former U.S. President Barack Obama Factfulness: The stress-reducing habit of only carrying opinions for which you have strong supporting facts. When asked simple questions about global trends—what percentage of the world's population live in poverty; why the world's population is increasing; how many girls finish school—we systematically get the answers wrong. So wrong that a chimpanzee choosing answers at random will consistently outguess teachers, journalists, Nobel laureates, and investment bankers. In Factfulness, Professor of International Health and global TED phenomenon Hans Rosling, together with his two long-time collaborators, Anna and Ola, offers a radical new explanation of why this happens. They reveal the ten instincts that distort our perspective—from our tendency to divide the world into two camps (usually some version of us and them) to the way we consume media (where fear rules) to how we perceive progress (believing that most things are getting worse). Our problem is that we don't know what we don't know, and even our guesses are informed by unconscious and predictable biases. It turns out that the world, for all its imperfections, is in a much better state than we might think. That doesn't mean there aren't real concerns. But when we worry about everything all the time instead of embracing a worldview based on facts, we can lose our ability to focus on the things that threaten us most. Inspiring and revelatory, filled with lively anecdotes and moving stories, Factfulness is an urgent and essential book that will change the way you see the world and empower you to respond to the crises and opportunities of the future. --- "This book is my last battle in my life-long mission to

fight devastating ignorance...Previously I armed myself with huge data sets, eye-opening software, an energetic learning style and a Swedish bayonet for sword-swallowing. It wasn't enough. But I hope this book will be." Hans Rosling, February 2017.
