Jean-Louis Cazaux, Rick Knowlton

Divine Contact 2 Losara,2014-11-07 In this age of endless debate over which scriptures contain the correct guidelines for living a righteous life, this book stands out as a breath of fresh air and intelligence. Based upon the universal laws, these answers to impossible questions rise above past misperceptions to reveal truth as it was meant to be understood: clear, pure, and wise. Presented here are some of the most controversial and poignant questions asked by man: –Is abortion a sin? –What causes cancer? –Who is right: the creationists or evolutionists? –Where is my soul mate? –Is there life on other planets? –Who was Jesus? –What is my purpose?

The Chess Attacker's Handbook Michael

Song,Razvan Preotu,2017-10-02 Life is too short to play boring chess! That's the mantra of the two young authors of this book, and as you read their energetic and insightful words, you may find yourself caught up in their enthusiasm for direct attacking play. Their over-the-board successes are not based on mere bravado or trickery, but on a profound understanding of the chessboard struggle and thought process. Song and Preotu consider the role of manoeuvring and prophylactic thought, and examine attacks in the endgame, as well as more standard topics such as play on colour complexes and when and how to launch the pawns in an all-out assault. And because life's too short to read a boring chess book, the text is packed with advice, study suggestions and anecdotes as well as quotes and references to philosophy and other 'real-

world' topics. Their examples are drawn from their own practice and their supergrandmaster trainer, as well as modern classics and older gems. Most of their material you will not have seen before; the rest you will not have seen explained this way before. The authors are the two highest-rated Canadian juniors. Razvan Preotu earned the Grandmaster title in 2016 at the age of 17. The most notable result during his meteoric rise was at the 2016 Calgary International, which he won outright ahead of a strong international field including five GMs. Michael Song became an International Master by winning the North American Under-18 Championship. He has represented Canada many times, winning a bronze medal at the 2011 World Youth Championship. His coach is super-grandmaster Evgeny Bareev.

**Some Considerations of the Consequences of the
Lowering of Interest, and Raising the Value of
Money** John Locke, 1692

A World of Chess Jean-Louis Cazaux, Rick
Knowlton, 2017-10-03 With more than 400
illustrations, and detailed maps, this immense and
deeply researched account of the history of chess
covers not only the modern international game,
derived from Persian and Arab roots, but a broad
spectrum of variants going back 1500 years, some
of which are still played in various parts of the
world. The evolution of strategic board games,
especially in India, China and Japan, is discussed
in detail. Many more recent chess variants (board
sizes, new pieces, 3-D, etc.) are fully covered.
Instructions for play are provided, with
historical context, for every game presented.

International Planned Languages Detlev
Blanke, 2019-01-05 The author of this book, the
German interlinguist and Esperanto researcher
Detlev Blanke (1941-2016), has influenced the
study of planned languages like no one else. It is
to a large extent due to his lifelong scholarly
devotion to this area of research that
Interlinguistics and Esperanto Studies
(Esperantology) have become serious subjects of

study in the academic world. In his publications, Blanke gives an overview of the history of language creation. He describes the most important planned language systems and presents various systems of classification. A special focus is put on Esperanto initiated by L.L. Zamenhof in 1887. (Sabine Fiedler) For Blanke, a planned language was essentially a tool: if it worked it was worthy of study and use; if it failed to work, he was interested in why, though at the same time careful to avoid value judgments. Blanke himself spoke a planned language, namely Esperanto, and recognised this language and language projects like it as arising out of a coherent theoretical base and addressing a recognisable problem. Essentially independently of the sociolinguistic school in the west, Blanke had reached a similar conclusion: if a language phenomenon exists, it is worthy of scholarly examination in itself. Blanke was particularly interested in how planned languages related to ethnic languages, how the 'artificiality' of, say, Esperanto extended to, indeed was synonymous with, the 'artfulness' of ethnic language, and how planned language could solve taxonomic and terminological problems. (Humphrey Tonkin)

Further Considerations Concerning Raising the Value of Money John Locke, 1695

Haydn, Mozart, and the Viennese School, 1740-1780 Daniel Heartz, 1995 Historians have long tried to place the music of Haydn and Mozart in the lineage of German Lutheran music. In this book, Daniel Heartz shows that the first Viennese school grew from a Catholic inheritance in Italian

music and from local tradition, with an admixture of French currents. The generation of composers led by Haydn no longer trained in Italy. By the time young Mozart joined the ranks of the Viennese school, its accomplishments towered above all others of the time. The author's approach can be compared to viewing a majestic mountain range in its totality: the highest peaks take on even greater majesty when seen in their natural context of foothills and lesser peaks. This is how Haydn and Mozart were viewed by their contemporaries, whose world of perception Hertz recreates, using, among other things, the visual art of the period. His focus is on music as a part of cultural history at a particular time and place. Stylistic terms and a priori periods matter less to him than the common denominators of geography, culture, and political history. Book jacket.

Anglo-Saxon England: Volume 38 Malcolm Godden,Simon Keynes,2010-11-18 Anglo-Saxon England was the first publication to consistently embrace all the main aspects of study of Anglo-Saxon history and culture - linguistic, literary, textual, palaeographic, religious, intellectual, historical, archaeological and artistic - and which promotes the more unusual interests - in music or medicine or education, for example. Articles in volume 38 include: The Passio Andreae and The Dream of the Rood by Thomas D. Hill, Beowulf off the Map by Alfred Hiatt, Numerical Composition and Beowulf: A Re-consideration by

Yvette Kisor, 'The Landed Endowment of the Anglo-Saxon Minster at Hanbury (Worcs.) by Steven Bassett, Scapegoating the Secular Clergy: The Hermeneutic Style as a Form of Monastic Self-Definition by Rebecca Stephenson, Understanding Numbers in MS London, British Library Harley by Daniel Anlezark, Tudor Antiquaries and the Vita 'dwardi Regis by Henry Summerso and Earl Godwine's Ship by Simon Keynes and Rosalind Love. A comprehensive bibliography concludes the volume, listing publications on Anglo-Saxon England during 2008.

Herding Donkeys Ari Berman, 2010-09-28 After the 2004 election, the Republican Party held the White House, both houses of Congress, twenty-eight governorships, and a majority of state legislatures. One-party rule, it seemed, was here to stay. Herding Donkeys tells the improbable tale of the grassroots resurgence that transformed the Democratic Party from a lonely minority to a sizable majority. It chronicles the inside story of Howard Dean's visionary yet deeply controversial fifty-state strategy, charting his unpredictable journey from insurgent presidential candidate, to front-running flameout, to chairman and conscience of the Democratic Party in an unexpected third act. Ari Berman reveals how the Obama campaign built upon Dean's strategy when others ridiculed it, expanding the ranks of the

party and ultimately laying the groundwork for Obama's historic electoral victory—but also sowing the seeds of dissent that would lead to legislative stalemate and intraparty strife. Revelatory and entertaining, in the vein of Timothy Crouse's *The Boys on the Bus* and Rick Perlstein's *Nixonland*, *Herding Donkeys* combines fresh reportage with a rich and colorful cast of characters. It captures the untold stories of the people and places that reshaped the electoral map, painting a vivid portrait of a shifting country while dissecting the possibility and peril of a new era in American politics.
