If It Bleeds, It Leads Matthew Robert Kerbel, 2018-03-08 You've been watching television news forever. You're intimately familiar with the friendly faces and soothing voices that nightly tell you what's wrong with the world. You think you know everything there is to know about them. You're wrong. If It Bleeds, It Leads takes us minute-by-minute through two-and-one-half real hours of syndicated, local, and network information programming to uncover the truth behind what passes as news. Why is the only real difference between Jerry Springer and Dan Rather that Dan's guests usually don't need medical attention? How did a load of baking powder spark two minutes of high-strung local news coverage? It's all here: the personal revelations of talk show guests; the dangers lurking in your neighborhood; sports; sex; celebrity; power; and weather updates every ten minutes--all real material taken from real broadcasts designed to keep viewers glued to the screen.

Indianapolis Then and Now® Nelson Price, 2016-02-01 Putting archive and contemporary photographs of the same landmark side-by-side, Indianapolis Then and Now® provides a visual chronicle of the city's past. The development of Indianapolis has taken more unexpected turns than a driver at its world-famous Speedway. Roaring to life after a rather inauspicious start, Indianapolis became known as the Crossroads of America during the early 1900s, with a bustling Union Station train terminal as well as a flourishing literary and artistic scene of nationally renowned poets, painters, and playwrights. Mansions were built along the showplace thoroughfare of North Meridian Street, pharmaceutical and automobile industries employed thousands, and jazz music was played into the night. Teenagers at Shortridge High School produced the nation's first high school daily newspaper, and many went on to become novelists and politicians, including Booth Tarkington and Richard Lugar. The Hoosier capital occasionally veered off track; from the 1950s to the 1970s it was referred to as Naptown and India-NO-place. Indianapolis has picked up speed since the 1990s and is once again a vibrant city, warmly nicknamed Indy, with a spectacularly rejuvenated downtown. Residents have taken extraordinary care to preserve the best of the past, and have supported the development of new sports stadiums and retail outlets. Indianapolis Then and Now® features historic places such as the Indiana Statehouse, the Soldiers' and Sailors' Monument, Lockerbie Square, and the Federal Building, as well as modern areas of interest such as the Monon Trail and Circle Centre, all showing the mixture of preservation and change in this historic city.

Insect and Hydroponic Farming in Africa Dorte Verner, Nanna Roos, Afton Halloran, Glenn Surabian, Maximillian Ashwill, Saleema Vellani, Yasuo Konishi, 2021-12-16 Interestingly, some relief from today's woes may come from ancient human practices. While current agri-food production models rely on abundant supplies of water, energy, and arable land and generate significant greenhouse gas emissions in addition to forest and biodiversity loss, past practices point toward more affordable and sustainable paths. Different forms of insect farming and soilless crop farming, or hydroponics, have existed for centuries. In this report the authors make a persuasive case that frontier agriculture, particularly insect and hydroponic farming, can complement conventional agriculture. Both technologies reuse society's agricultural and organic industrial waste to produce nutritious food and animal feed without continuing to deplete the planet's land and water resources, thereby converting the world's wasteful linear food economy into a sustainable, circular food economy. As the report shows, insect and hydroponic farming can create jobs, diversify livelihoods, improve nutrition, and provide many other benefits in African and fragile, conflict-affected countries. Together with other investments in climate-smart agriculture, such as trees on farms,

alternate wetting and drying rice systems, conservation agriculture, and sustainable livestock, these technologies are part of a promising menu of solutions that can help countries move their land, food, water, and agriculture systems toward greater sustainability and reduced emissions. This is a key consideration as the World Bank renews its commitment to support countries' climate action plans. This book is the Bank's first attempt to look at insect and hydroponic farming as possible solutions to the world's climate and food and nutrition security crisis and may represent a new chapter in the Bank's evolving efforts to help feed and sustain the planet.

Hullo, Bu-Bye, Koko, Come In Koleka Putuma, 2021-04-29 The title of the book is inspired by a South African phrase made famous by the legendary musician Brenda Fassie in her 1992 song, Istraight lendaba. Like the legend who inspired the book title and the song from which the name of this poetry collection was selected, Putuma wanted to build on the themes she explored in her first book, *Collective Amnesia*, and go straight to the heart of tackling the legacies of black femme erasure from society as well as in the arts. The success of *Collective Amnesia*, a bestseller that has sold over 6000 copies and been translated into eight languages around the world, saw Putuma perform for audiences across the continent as well as in Europe. "In writing *Hullo, Bu-bye, Koko, Come in*, I wanted to reflect on my personal experiences of travelling and performing outside of South Africa and more specifically, Europe. I wanted to understand different aesthetics and forms of memory, documentation, performance, hyper-visibility and erasure. I wanted to look at how those things frame our understanding of women in the archive, legacies of archiving, celebration, fame, culture and black women on and off the stage," Putuma says. The book is divided into four chapters dealing with subjects

related to history, the erasure of black women from the archive and more personal poems where Putuma resuscitates the stories of women in her lineage who have had an influence on her life. "I wanted these excerpts to serve as a conversation between the poems and an archive of sorts - an archive of black women (living and dead) who are looked at, celebrated, uncited, erased and exploited. I wanted to make visible the words of black women who have had to navigate the complexities of a constant gaze that often renders the "looked at" invisible. In my quest, I wanted to further understand and challenge my own methods of citation, documentation and seeing - and in doing that - invite others to do the same," she says.
