Web Site Design Made Easy: Learn HTML, XHTML, and CSS Dennis Gaskill,2008-01-01 Web Site Design Made Easy teaches the basics of web design. While it does assume that students spend at least some time viewing web pages on the Internet and have basic computer skills, it assumes no other knowledge on their part. Not only will they learn to plan and create a working website, but they will discover many of the tricks that take a website from basic to cool and useful. Web design is a broad area that can encompass many things: coding knowledge, graphic design, copywriting, page layout, and more-even server software programming. One book cannot teach it all. This book mainly focuses on teaching HTML coding and formatting using CSS, utilizing both IBM Windows and Macintosh. Other areas are touched upon, but these basic skills will carry your student a long way toward their goal of website design. This book is a complete rewrite from previous editions. It has been updated to the latest versions HTML (version 4.01) and CSS (version 2.1). The lessons teach web design that is XHTML compliant, and students can learn how to make a purely XHTML web page. CSS, cascading style sheets, has been given an extremely thorough treatment with three chapters dedicated to the subject, along with it being referenced throughout the book.Dennis Gaskill, a.k.a. Boogie Jack, is one of the most popular web page designers on the web. Students will enjoy his humor and they will love his book! Boogie Jack has received thousands of testimonials from his monthly Almost a Newsletter subscribers, confirming what a great job he does instructing them to create web sites.

Extraterrestrial Avi Loeb,2021 Harvard's top astronomer lays out his controversial theory that our solar system was recently visited by advanced alien technology from a distant star

UFOs Aliens and Sacred Places Nick Daniel Huntley,2021-07-08 It seems that the entire world is talking about UFOs lately. Global leaders, shadow governments, the illuminati and even the Vatican have great knowledge about aliens far beyond the common man and all the little people that share this global order. Could aliens already rule the world, pull all of the strings and tell the world leaders what to do? Project Blue Book and the Majestic 12 both represent committees set up by US authorities to ascertain for once and for all that UFOs are real and whether they pose a threat to national security. My book is packed with detailed pictures and takes the reader on a mind-blowing journey into the dark world of aliens, UFOs, abductions and we begin to realize that the Earth-ruling reptilians are shape-shifting aliens who live among us-ruling over many of the people in this world. Taking on human form in order to blend in better. My book asks why has it taken so long for the pentagon and the Air Force to admit that aliens have always existed? Other countries have. Was President Donald Trump's new Space Force created to take on and fight alien creatures that may be a threat to our world? Non-believers in aliens? Many people uninterested in UFOS and aliens confuse Area 51 and Roswell, believing that Roswell was where the aliens supposedly crashed, well, my book will set you straight and provide the reader with truth, separate the fiction and fantasy, and provide the facts, all the facts about UFOs and abductions.

Alien Encounters Peter Hepplewhite,Neil Tonge,1998-03 Profiles five reported UFO sightings, discussing the circumstances of the

encounters and presenting possible explanations for each phenomenon.

Breaking News: Alien Alert David Biedrzycki,2018-04-03 Bears in space! The bears from Breaking News: Bear Alert and Bears to the Rescue are back, and this time they're extraterrestrial. When a UFO beams up Baby Bear and abducts the family, the human world goes crazy. Hilarity and chaos ensue as scouts, scientists, street vendors, and the mayor try to put their own spin on the story. Intrepid but bumbling reporter Chad Newsworthy covers it all, searching for the truth: Why did aliens snatch up these animals? (Hint: It's someone special's birthday!)

A Quantum City Ludger Hovestadt,Vera Bühlmann,2015-06-16 We know the specific strengths of various cities, are aware of their ranking, are able to discuss their density and growth. But what do all cities have in common, what do we know about the “lowest common denominator”? The “city as a species”, the “primal genetic material of the city”: this is the subject of A Quantum City. This colossal work is a love letter to the city and intellectual culture. We follow the fictional narrative figure, Orlando, beginning in 320 BC, on his odyssey through the Western world up to the present time. The book is divided into four interrelated chapters and can be read page by page in a discursive manner, however randomly browsing through the book also offers new and multi-faceted interpretations. Great intellectual achievements are compared with obscure and mundane events. A Quantum City offers an inspiring view of the city that is in us and around us.

Ancient Aliens on Mars Mike Bara,2013-10-02 New York Times best-selling author and Secret Space Program researcher Mike Bara brings us this lavishly illustrated volume on alien structures on Mars. Was there once a vast, technologically advanced civilization on Mars, and did it leave evidence of its existence behind for humans to find eons later? Did these advanced extraterrestrials vanish in a solar system-wide cataclysm of their own making, only to make their way to Earth and start anew? Was Mars once as lush and green as the Earth, and teeming with life? Did Mars once orbit a missing member of the solar system, a “Super Earth” that vanished in a disaster that devastated life on Earth and Venus and left us only the asteroid belt as evidence of its once grand existence? Did the survivors of this catastrophe leave monuments and temples behind, arranged in a mathematical precision designed to teach us the Secret of a new physics that could lift us back to the stars? Does the planet have an automated defense shield that swallows up robotic probes if they wander into the wrong areas? And are the lights still on down there, deep below the sands of Mars, just waiting for us to uncover them? Mike Bara examines all these questions and more in this astounding book, full of fascinating information on the following topics: Mars as the Abode of Life What Happened to Mars? The True Colors of Mars The Message of Cydonia The Politics of Mars The Pathfinder Sphinx Mars Global Surveyor Discoveries Face it, It’s a Face Tons More!

Alien\$ Richard Bliss,2004-02 ALIEN\$ are only here for the money, we think, and Dr. John Mack changed the alien field forever when he said abductees were suffering trauma, not delusions. We hope they (the aliens) may be altruistic and friendly, except for the pesky Grays. The shooting script for upcoming motion picture Saucer Season will provide much brain food for thoughtful folk. Not of this World Mark Carlotto,2021-02 Is Elon Musk's vision of humankind becoming a multi-planetary species the next stage in human evolution? Are there aliens out there waiting to detect a warp signature or some other indication that we have reached an advanced stage of technological development and are ready to join them in a galactic federation as in Star Trek? Or is reality something completely different?The development of radio astronomy in the 1930s provided a means of searching for evidence of intelligent life beyond earth. After more than six decades, SETI has yet to detect an extraterrestrial signal of intelligent origin. Over this same period, thousands of UFO sightings were reported. Until recently, the lack of government transparency on UFOs has led many to believe in cover-ups and conspiracies to keep their existence from the public. This seemed to change with the official release of three videos by the US Navy in April 2020, confirming earlier unofficial reports of military pilots encountering unidentified aerial phenomena (UAP). In *Not of this World*, independent researcher Mark Carlotto examines the most compelling UFO cases on record, including the Gulf Breeze sightings, Space Shuttle videos, videos of crop circles and UFOs, Tic Tacs and other UAP, and a UFO over the Dome of the Rock in Jerusalem. Dr. Carlotto's findings that UFOs and UAPs are likely real, appear to defy the laws of physics as currently understood, apparently exceed known aerospace capabilities, and might not be extraterrestrial in origin, suggest that reality may be completely different from what we think it is.
