Set in the prewar Indochina of Marguerite Duras's childhood, this is the haunting tale of a tumultuous affair between an adolescent French girl and her Chinese lover. Stone Mattress Margaret Atwood, 2014-09-16 From the bestselling author of *The Handmaid's Tale* and *The Testaments*—a thrilling, funny, and thought-provoking collection of stories that affirms Atwood as our greatest creator of worlds—and as an incisive chronicler of our darkest impulses. “Alphinland,” the first of three loosely linked tales, introduces us to a fantasy writer who is guided through a stormy winter evening by the voice of her late husband. In “Lusus Naturae,” a young woman, monstrously transformed by a genetic defect, is mistaken for a vampire. And in the title story, a woman who has killed four husbands discovers an opportunity to exact vengeance on the first man who ever wronged her. *Stone Mattress* is a collection of unforgettable tales that reveal the grotesque, delightfully wicked facets of humanity.

Determined to discover if she really is the last survivor on earth, she sets off on an extraordinary adventure, with only an abandoned golden retriever named Lucky for company. Design, Evaluation, and Translation of Nursing Interventions Souraya Sidani, Carrie Jo Braden, 2011-10-11 Nurse-led intervention research is a core component of the global initiative to improve quality of care. Though research in this area has already contributed much to the advancement of patient care, future strides depend on the dissemination of practical, how-to instruction on this important area of research. *Design, Evaluation, and Translation of Nursing Interventions* aids in this endeavour by presenting both general approaches and specific methods for developing nursing interventions. Logically organized to facilitate ease of use, the book is divided into four sections. The introduction provides a firm grounding in intervention science by situating it within the broader topics of evidence-based practice, client-centred care, and quality of care. Section Two describes each step of intervention design, including correct identification of the health issue or problem, clarification of the elements comprising an intervention, and application of theory. Section Three is centred on implementation, highlighting such topics as development of the intervention manual, training interventionists, and intervention fidelity. The book concludes with methods to evaluate interventions enacted and suggestions for their translation into practice. *Design, Evaluation, and Translation of Nursing Interventions* distills the authors' years of expertise in intervention research into comprehensive, easy-to-follow chapters. It is a must-have resource for students, researchers and healthcare professionals wishing to impact the future of patient care.

To be a Nurse Evelyn Adam, 1991 This text explains the fundamental concepts of nursing, as developed throughout the years and looks at where nursing may be going in the future.

American Journal of Nursing, 2008 How different is nursing today from 1900? A reproduction of the first issue of the *American Journal of Nursing* (AJN), the world's oldest and highest circulation nursing journal, will show you. Published in October of 1900 with Sophia Palmer as editor, this journal was the first to be owned and managed by nurses and for nurses. It was the official publication of the Associated Alumnae of Trained Nurses of the United States, the precursor to the American Nurses Association. Its contents include discussions of important topics of the day written by some of nursing's legends: what nurses could expect from the law, written by Lavinia Dock; specialties in nursing by Katherine De Witt, hospital economics by Isabel Hampton Robb; the work of nurses at the Henry Street Settlement House by Lillian Wald; a nurse's experience on the ship, *The Maine*, on its journey to South Africa to provide support during the second Boer War; and *The Relation of Bacteriology to Preventive Medicine and Infant Feeding* by physicians. You'll find news of hospitals and their alumnae associations, proceedings of the third convention of the Associated Alumnae, and fascinating ads for things such as the female urinal, nurses' uniforms, and even champagne. This historic treasure provides a fascinating glimpse of nursing as it was more than a century ago, leaving today's readers reflecting on how much things change--or stay the same.

Migrant Longing Miroslava Chávez-García, 2018-03-22 Drawing upon a personal collection of more than 300 letters exchanged between her parents and other family members across the U.S.-Mexico border, Miroslava Chavez-Garcia recreates and gives meaning to the hope, fear, and longing migrants experienced in their everyday lives both here and there (aqui y alla). As private sources of communication hidden from public consumption and historical research, the letters provide a rare glimpse into the deeply emotional, personal, and social lives of ordinary Mexican men and women as recorded in their immediate, firsthand accounts. Chavez-Garcia demonstrates not only how migrants struggled to maintain their sense of humanity in el norte but also how those remaining at home made sense of their changing identities in response to the loss of loved ones who sometimes left for weeks, months, or years at a time, or simply never returned. With this richly detailed account, ranging from the Mexican Revolution of the 1910s to the emergence of Silicon Valley in the late 1960s, Chavez-Garcia opens a new window onto the social, economic, political, and cultural developments of the day and recovers the human agency of much maligned migrants in our society today.

Bengali Harlem and the Lost Histories of South Asian America Vivek Bald, 2013-01-07 Winner of the Theodore Saloutos Memorial Book Award Winner of the Association for Asian American Studies Book Award for History A Times Literary Supplement Book of the Year A Saveur "Essential Food Books That Define New York City" Selection In the final years of the nineteenth century, small groups of Muslim peddlers arrived at Ellis Island every summer, bags heavy with embroidered silks from their home villages in Bengal. The American demand for "Oriental goods" took these migrants on a curious path, from New Jersey's beach boardwalks into the heart of the segregated South. Two decades later, hundreds of Indian Muslim seamen began jumping ship in New York and Baltimore, escaping the engine rooms of British steamers to find less brutal work onshore. As factory owners sought their labor and anti-Asian immigration laws closed in around them, these men built clandestine networks that stretched from the northeastern waterfront across the industrial Midwest. The stories of these early working-class migrants vividly contrast with our typical understanding of immigration. Vivek Bald's meticulous reconstruction reveals a lost history of South Asian sojourning and life-making in the United States. At a time when Asian immigrants were vilified and criminalized, Bengali Muslims quietly became part of some of America's most iconic neighborhoods of color, from Tremé in New Orleans to Detroit's Black Bottom, from West Baltimore to Harlem. Many started families with Creole, Puerto Rican, and African American women. As steel and auto workers in the Midwest, as traders in the South, and as halal hot dog vendors on 125th Street, these immigrants created lives as remarkable as they are unknown. Their stories of ingenuity and intermixture challenge assumptions about assimilation and reveal cross-racial affinities beneath the surface of early twentieth-century America.

Pursuing this aim here, chapter 1 addresses the relevance of the study of code switching for education and schooling, focusing on ways in which a misunderstanding of code switching may lead to tacit tracking effects for language-minority children.

Tales of a Traveller Washington Irving,1825

The Human Cost of Food Charles D. Thompson, Jr.,Melinda F. Wiggins,2009-01-27 Finding fresh fruits and vegetables is as easy as going to the grocery store for most Americans—which makes it all too easy to forget that our food is cultivated, harvested, and packaged by farmworkers who labor for less pay, fewer benefits, and under more dangerous conditions than workers in almost any other sector of the U.S. economy. Seeking to end the public's ignorance and improve workers' living and working conditions, this book addresses the major factors that affect farmworkers' lives while offering practical strategies for action on farmworker issues. The contributors to this book are all farmworker advocates—student and community activists and farmworkers themselves. Focusing on workers in the Southeast United States, a previously understudied region, they cover a range of issues, from labor organizing, to the rise of agribusiness, to current health, educational, and legal challenges faced by farmworkers. The authors blend coverage of each issue with practical suggestions for working with farmworkers and other advocates to achieve justice in our food system both regionally and nationally.
