Slingshot Dragsters of the 1960s Photo Archive Lou Hart,2005-10-16 In the early 60s, front-engine dragsters, or slingshots, featured tubular built chassis powered by a variety of power plants, consisting of small-block Chevrolets, Chrysler Hemi's, Ford, Pontiac, Cadillac, Oldsmobile, and Lincoln motors either fueled on Nitro Methane or pump gas. Wheelbases varied from 110 inches in 1962 to over 200 inches in 1969. During the early sixties, racing legend Big Daddy Don Garlits ran a series of Swamp Rat dragsters which not only dominated the quarter-mile, but many of his creations were made by using experimental aerodynamic parts to give better traction and faster speeds. During a fuel ban from the late 50s to the early 60s, many chassis builders utilized a two-engine power plant to gain more power that was lost due to running pump gas instead of fuel. One of the most popular twin-engine dragsters was the Fright Train, powered by twin small-block Chevrolets. The dragster was driven by 16-year-old Bob Muraviez who used the alias name of Floyd Lippencott, Jr. to fool his parents who did not approve of his racing. Near the end of the 60s, the Chrysler Hemi came to dominate Top-fuel racing, as it produced tremendous torque and horsepower. These dragsters were the quickest accelerating vehicles in motorsports. Elapsed times in the quarter-mile were ranging from the 8-second bracket in the early 60s to the low 7's late in the decade with speeds over 200 mph. In 1970 at the AHRA Nationals at Lion's Dragstrip (Long Beach, CA), Don Garlits experienced a violent clutch explosion that cut his dragster in two and severed a portion of Don's right foot. After being sidelined for several months, Don returned to racing with an innovative rear-engine, top-fuel dragster, which would eventually spell demise for the front-engine dragsters. Relive the 60s era of the front-engine dragster, nicknamed the slingshot for it's aerodynamic design in crisp high quality color and black and white photos. Enjoy memorable moments from some of the famed drivers that are highlighted throughout this book.

Top Fuel Dragsters of the 1970s Photo Archive Howard V. Koby,2004-11-11 The early '70s were a pivotal time for rear engine dragsters. Slingshots were front engine fire-breathing diggers where the driver sat just three feet behind the motor. This set-up proved to be very dangerous, so in 1970 at Lions Drag Strip Big Daddy Don Garlits vowed, after a horrific transmission explosion in his slingshot Wynns Charger, that he would formulate a design that would put the fuel motor behind him. The emergence of the rear-engine dragster rekindled the interest in Top Fuel Eliminator class. Legendary championship drivers like TV Tommy Ivo, Tony Nancy, Gary Beck, Don Prudhomme, Jerry Ruth, Carl Olson, Tom McEwen, Shirley Muldowney, James Warren, Jeb Allen, Herm Peterson, Steve Carbone and many more, are all portrayed in sensational fire-and-smoke belching action at the race track.

Drag Racing Gassers Photo Archive Lou Hart,2007-05-01 One of drag racing's very popular classes formed was the Gassers. During the '50s, Model A and 1932-'34 Fords were considered the hot set-up for these gas classes. Using Ford V-8 flatheads and later overhead valve engines, Gas Coupe and Sedan classes had to maintain stock wheelbases and the engine relocation was limited. By the mid-60s, it was rare to find an upper classed gasser with any other body make than Willys, Studebaker, Austin or Anglia. They were the stoutest full-bodied cars on strips nationwide. Touring teams ran four to six times every week, often traveling several hundred miles day and night to make their next dates. This was old school racing! However, interest waned as fliptop funny cars took over in popularity. The battles in A/GS (later AA/GS) ranks created many heroes and villains who etched their marks into drag racing history. Gassers shared with fans of the quarter mile one of the most thrilling overall racecar types, and for an era that was all too short, they were literally the Kings of the Sport. Enjoy this photo book that takes you back to that time.

Dragsters Thomas K. Adamson,2019-01-01 A dragster can finish a race by the time you finish reading this sentence. These speed demons are the fastest accelerating vehicles in the world! Readers will get a rush learning about these powerful vehicles and their incredible capabilities in this exciting title.

Don "The Snake" Prudhomme: My Life Beyond the 1320 Elana Scherr,Don Prudhomme,2020-10-16 Don The Snake Prudhomme reveals for the first time ever his incredible life and career on and off of the drag strip.

Imagine spending a year with Don The Snake Prudhomme, having coffee together and talking about his life, his racing, his friends, and his family. He'd tell you about how he rose from being a high school drop-out who was painting cars to a respected Top Fuel dragster driver and successful businessman. You'd hear how he toured the country with Tommy Ivo and The Hawaiian Roland Leong, racing all the legends from Big Daddy Don Garlits to The Golden Greek [Chris] Karamesines. He'd say how he met Tom McEwen and recall how they became the Snake and the Mongoose, leading to a career in Funny Cars that netted him four championships in a row. He'd talk about the thrill of first wins and owning his own teams but also the struggles of bad seasons, crashes and fires, broken parts, and broken contracts. Along the way, he'd speak about the people in his life, such as engine-builder Keith Black and NHRA president Wally Parks, and those who were killed in the wild and unpredictable sport of nitro racing. It wouldn't be only racing, though. Prudhomme would share lessons he learned about business and life from such varied sources as a neighbor in Granada Hills to Ford GT40 driver Dan Gurney. He also would talk about the importance of family: how his wife, Lynn, and daughter, Donna, changed his world and how finding out about his African-American roots opened his eyes to a culture and inheritance he'd always wanted. This is the experience you'll get in Don The Snake Prudhomme: My Life Beyond the 1320.

Drag Racing in the 1960s Doug Boyce,2021-03-15 The 1960s were a fascinating decade on the race scene. Relive the memories today through this wonderful new book. Drag racing has a long and storied history. Many have said that the first drag race happened shortly after the second car was made. While that may or may not be true, racing prior to World War II was mostly centered around dry-lake activities and top-speed runs. After the war, drag racing became organized with the formation of the NHRA, and during the 1950s, many tracks were built across America to accommodate the racers. Technology in the 1950s centered on the manufacturers updating old flathead designs into newer overhead-valve designs, and the horsepower race really started to heat up. In many forms of racing, the 1960s brought technological evolution. The decade began with big engines in even bigger stock chassis and ended with purpose-built race-only chassis, fiberglass bodies, fuel injection, nitro methane, and blowers. Quarter-mile times that were in the 13-second range in the beginning of the decade were in the 7-second range by the end. New classes were formed, dedicated cars were built for them, and many racers themselves became recognized names in the sports landscape. In Drag Racing in the 60s: The Evolution in Race Car Technology, veteran author Doug Boyce takes you on a ride through the entire decade from a technological point of view rather than a

results-based one. Covered are all the classes, including Super Stocks, Altered Wheelbase cars (which led to Funny Cars), Top Fuelers, Gassers, and more.

Bonneville Louise Ann Noeth,2002-05 Describes the history and tradition of the Bonneville salt flats and the speed records that have made history.

Slingshot Spectacular Steve Reyes,2007 Follow the history of the front-engine dragster in Slingshot Spectacular: The Front-Engine Dragster Era, with over 400 vintage photos and personal stories to help you smell the nitro and feel the horsepower of the good ole days of front-engine, top-fuel racing.

Drag Racing Funny Cars of the 1970s Wallace A Wyss,Louis Hart,2002-06-10 See the cars raced by many of the legendary names in drag racing, including Don Prudhomme, Tom McEuen and Jim Dunn. The authors include action shots, as well as clear, detailed in the pits under-the-shell shots. Photographs show various makes and models of cars that have been reconstructed as funny cars, plus everything from stock to modified Camaros, Mustangs, Javelins, Dodge Chargers, and Firebirds, to oddball exhibition cars like the backwards pickup.

Chevy Drag Racing 1955-1980: A Celebration of Bowtie's Success at the Drag Strip Doug Boyce,2020-03-15 Relive the glorious first 25 years of Chevy drag racing in this comprehensive and nostalgic history. With the introduction of Chevy's OHV V-8 in 1955, the brand's domination on the drag strip immediately snowballed. Drag racers loved the compact V-8. It was lightweight, revved high, and responded like no other engine previously produced to modification. Chevy saw a record year in sales in 1955, thanks to a combination of a restyled body and the new mill. It was the age of ingenuity, and those who could get their hands on the new engine were swapping it into engine bays that once housed other weaker mills. Ford's flathead, one that had dominated for so long, was rendered obsolete almost overnight. Chevy had a winner and dominated the sales charts for years to come. Aftermarket manufacturers got on board and offered up all the go-fast goodies needed to make Chevy a winner, no matter what category they ran. From Dragsters to Stock, Chevy's success was immediate. And it was a long-term success, thanks to a combination of years of great styling and a vast array of driveline combinations. Accomplished racing author Dour Boyce takes a celebratory look at those years of success, with a focus on the first 25 years (1955 through 1980). Chevrolets gave rise to such stars as Bill "Grumpy" Jenkins, "Jungle Jim" Liberman, "Sneaky Pete" Robinson, "Dyno" Don Nicholson, Sox & Martin, Dick Harrell, Dave Strickler, and many more. World champs and fan favorites all drove Chevys. The success showed in the record books. No brand has won more races and events or has set more national records than Chevrolet. And unlike the other manufacturers, Ford and Chrysler, it was done with little to no factory support. Whether you are a hardcore Chevy fan or just love catching up on the history of drag racing during the golden age, this nostalgic look at Chevy racing history is sure to entertain for hours on end.

Drag Racing's Exhibition Attractions Lou Hart,Cory Lee,2008-05-15 This book showcases photographically the wide variety of cars and drivers that fit into the exhibition theme: the jets, wheelstanders, rockets and other exhibition vehicles which have thrilled millions of spectators. Their entire basis was who had the fastest vehicle. But in 1959 complaints from other competitors and Detroit automakers got all aircraft-powered dragsters banned, so they became the sideshow attached to the legitimate circus that is drag racing. The Green Monster became the first exhibition car exceeding 200 mph everywhere it ran. Wanting even more, Walt Arfons debuted the first jet-powered dragster which became the desire of every fan and promoter throughout the country. At virtually the same instant, Tom Ivo had Kent Fuller build a four-engine dragster and although it was too heavy to be competitive, the tire-smoke show became arguably the most famous exhibition car in history. See Bill "Maverick" Golden and the Little Red Wagon, "Wild Bill" Shrewsberry's and the Hurst Hemi Under Glass, LA Dart and Knott's Berry Wagon, Chuck Poole and his Chuckwagon, Doug Rose and The Green Mamba, plus many more.

Harley-Davidson Drag Racing Scooter Grubb,2010-05-15 There is nothing like the sound of two Harley-Davidsons leaving the line to get your adrenaline pumping. Harley-Davidson Drag Racing uses over 300 color photos and 144 pages to capture that same raw energy of unleashed V-twin power. From your neighbor's Sportster to the Top Fuel machines, the bikes are all here. Each chapter describes one of sixteen classes, with pictures of the bikes and an explanation of the rules that make that class unique. Sidebars scattered throughout the book take the action inside the pits. Meet the riders capable of turning a 6 second quarter mile, the mechanics that keep it all running at 200 miles per hour, and the track officials who make each event possible. With an abundance of color photos, Harley-Davidson Drag Racing is a visual feast. Whether you just want to drink in the action or learn more about the bikes and the classes, this book is sure to satisfy that need for speed.

Junior Dragster Racing - a Beginners Guide Richard Crichton,2018-04-23 When you are starting out, or even just considering junior dragster racing, you may look through articles on the internet and talk to people who are already racing. But there doesn't seem to be a real book or manual on how you go about it, what you need to know, what to do, what to buy etc. It can be pretty frustrating trying to find out anything and what you do learn often seems confusing. After a productive career in UK Junior Dragster racing, some event wins, lots of round wins and experiences both good and bad, I have written this book to at least pass on the basics to anyone thinking of starting out. This is an unashamedly real view of the class and how to get along in it.

Fuel Altered's Forever Steve Reyes,2008 What type of drag car makes strong men shudder, women shriek, and kids cheer? A 200 mph, 7-second, 96-inch wheelbased AA/Fuel Altered, that's what! These supercharged, 2,000-horsepower cars from the bygone days of drag racing demanded the utmost respect , as did the racers who piloted them. Most contemporary Top Fuel and Funny Car drivers would quake at the thought of driving one of these short, ill-handling beasts. It took a rare (or slightly crazy) breed of drag racer to slide behind the wheel of one of these exciting nitro-burning drag cars. Author Steve Reyes has included more than 350 of his favorite pictures of his favorite class: Fuel Altered's. Never-before-heard stories bring the action right to you. Relive drag racing's glory days through photos of rarely seen cars, first-hand accounts and stories of racers and their cars.

Drag Racing Timothy Miller,2009 Looks at the history of drag racing, pioneers and personalities of the sport, and the different types of car classes.

Kings of the Quarter-Mile Lou Hart,2009-06-15 When our young heroes began returning from World War II, they applied the knowledge gained from Uncle Sam towards the fledgling hot rod movement. While speeds increased, rodders learned the hard way just how dangerous it was to "drag it out" on the city streets. In the mid '50s, organized drag racing gave hot rodders a safe place to race. Cars evolved from pre-war coupes and sedans to crude "rail jobs," which were stripped and narrowed frame rails with nothing more than an engine, driveline, seat, and steering gear. As hot rodders were the true Mothers of Invention, the cars later became hand-made, finely crafted "Slingshot Dragsters." Dubbed the "Kings of the Sport," these supercharged, fuel-injected Slingshots burned exotic fuels and captured the attention of every young enthusiast from coast to coast. The cars dazzled with gleaming chrome, Candy Apple, Pearlescent, and Metalflake® paint jobs, while the nitromethane fuel produced an unforgettable thunderous sound. This new volume contains all the stars that waged war on quarter-mile strips of asphalt from California to Maine. It's a vivid pictorial display that captures the true essence of extreme acceleration in all its glory.
