Silly Alien Time Travel Stories for really Big Kids Denis Hayes,2013-09-26 Do other superior beings really exist outside of Earth? Of course they do and in this book they are very active all over the Universe but not always in a serious way. The Sramians, Sunevians and Otulpians are from three identical planets in the same orbit around the same sun in a very old galaxy on the far side of the universe that has no sides. They come from a Galaxy so old that its name has been forgotten and so is just called "The Oldest Galaxy." The "Creator" has made them the Caretakers, Custodians and the Commissioners of the Universe as the Creator is very busy creating. This third book in the series centres around the Human hero who saved the Universe and his attempts to get back to where and who he was when he originally left Earth. He finds that two or three years in Space Time is ten thousand years in Earth Time so he sneaks a peak into the future and meets future human beings. He gets a lot of shocks and surprises, not all good, before the Aliens find a way to return him to his origins. He discovers that the future Humans have read his books that he hasn't written yet so that is the reason why the author is writing the books now so that future Humans can read about themselves from the past!??

Silly Alien Stories for Bigger Kids Denis Hayes,2014-04 Do other superior beings really exist outside of Earth? Of course they do and in this book they are very active all over the Universe but not always in a serious way. The Sramians, Sunevians and Otulpians are from three identical planets in the same orbit around the same sun in a very old galaxy on the far side of the Universe that has no sides. They come from a galaxy so old that it has forgotten its name and so is just called The Oldest Galaxy. The Creator has made them the Caretakers, Custodians, and the Commissioners of the Universe as the Creator is very busy creating. This first book in the series centres around their activities and relationships with a rather primitive planet they call Earth which they observe and sometimes interfere with as though it were a Zoo. They revue and alter the Earthlets knowledge of Gods, Science, Technology, Sport, Climate, Environment and everything else sometimes successfully and sometimes disastrously but always with an impish sense of mischief. This is the Universe that will make scientists and others sit up and think again. Well that is the hope of the Aliens at least!

Strange Planet Nathan W. Pyle,2019-11-19 Straight from the mind of New York Times bestselling author Nathan W. Pyle, *Strange Planet* is an adorable and profound universe in pink, blue, green, and purple, based on the phenomenally popular Instagram of the same name! *Strange Planet* covers a full life cycle of the planet's inhabitants, including milestones such as: The Emergence Day Being Gains a Sibling The Being Family Attains a Beast The Formal Education of a Being Celebration of Special Days Being Begins a Vocation The Beings at Home Health Status of a Being The Hobbies of a Being The Extended Family of the Being The Being Reflects on Life While Watching the Planet Rotate With dozens of never-before-seen illustrations in addition to old favorites, this fixed-format e-book offers a sweet and hilarious look at a distant world not all that unlike our own. I feel more attractive. Honestly, you are. It's the star damage. I CRAVE STAR DAMAGE.

Letters from an Alien Schoolboy Ros Asquith,2013-04-22 When Flowkwee goes to planet Earth on a mission, he has to stay disguised—as a small Earthling called Nigel, with only one head and four appendages! But that's not all: His personal mission is to go to a school every day to collect Earthlings to improve. Nigel knows he has to act dumb around the Earthlings, so in math class he pretends he only knows his times table up until two million and six times nine, and in literacy class he pretends to read like a newborn Faathing baby. A lot of Earthling life is totally weird to Nigel—the odd removable skins Earthlings wear called clothes and the funny paint on his mom's face called makeup—but in some ways Earth is even better than planet Faa. Earth is full of cool sounds made up of all different pitches and noises called music, and Earthlings get gifts every year on their birthdays, just for being alive! But while Nigel starts to embrace his Earthling self, in the background lurks a coming invasion that his dad keeps talking about. And why are they so interested in a substance called spinach? *Letters from an Alien Schoolboy* is sure to delight even the most reluctant readers as Earthling kids giggle their way through Nigel's gaffes and escapades. This is a fantastic gift for girls and boys eight and up!

COMING CLEAN ON UFOs & EXTRATERRESTRIALS PART 2 Lou Baldin,2012-01-05 Comments, questions, and answers concerning extraterrestrials and UFOs from the thread COMING CLEAN ON EXTRATERRESTRIAL on ATS.

Indie Horrors! The Not-To-Be-Missed, The Acceptable, and The Forgettable Barry Atkinson, Welcome to the wonderful world of the independent, cut-price horror, science fiction and fantasy movie. Movies where most of the aliens are, well, for want of a better word, Alien rip-offs; where the leading men and women display all the emotions of cardboard cut-outs; where decent music is more or less non-existent; where direction veers from the truly sublime to the utterly ridiculous; where plots are ruthlessly plagiarized from other, more high-profile productions; where special effects aren't all that special; where the level of gore has to be seen to be believed; where the hero is good-looking but wooden and the heroine a blonde/brunette bimbo; where the dialogue is stilted and shored up with stock phrases; and where the cheapo ethics immortalized by Edward D. Wood, Jr., Jerry Warren and their ilk are still being kept alive and well by courtesy of Nu Image, Asylum, American World Pictures, North American Pictures, RHI Entertainment, UFO, Castel Film Romania, Cinetel Films, PM Entertainment and a host of other small film companies specializing in low-budget fare. But before we all pronounce sentence, start to sneer, utter hoots of derision and sweep this lot under the carpet, let's pause for a second and take stock of these fascinatingly guilty delights alongside top-rate (but still classed as independent) movies.

Stoned Jo Wood,2019-10-31 These images are great and have been tucked away for years RONNIE WOOD The REAL Rolling Stones... Consider this your AAA pass to touring with Mick 'n' Keith 'n' co. THE SUNDAY TELEGRAPH Take a look inside rock 'n' roll history with over 500 never-before-seen photographs, notes, artworks, diary entries and mementoes from life behind the scenes of the Rolling Stones. Married to legendary Stones guitarist Ronnie Wood for 30 years, Jo Wood lived the rock star life. Her incredible collection of treasures from that time is a once-in-a-lifetime look inside the biggest band in the world. Accompanied by personal memories and behind the scenes anecdotes from Jo, Stoned is a love letter to the rock 'n' roll life and a truly unique window into the eye of the Rolling Stones hurricane.

Alien Mate Eve Langlais,2016 Plump Diana is ironing her underwear when the hottest blue babe in all of the galaxy appears in her living room. Did she forget to mention he was naked too? Abducted, decontaminated and dressed like a harem girl, she's been chosen to become the hunky alien's mate. Kor asked his ancestors to find him a biddable, docile mate, instead they found him Diana—a curvy, argumentative earthling who sets his pulse pounding and his loins on fire. He might be an alien who doesn't understand the meaning of love, but he sure knows what he feels is more than lust.

The Three Little Aliens and the Big Bad Robot Margaret McNamara,2011-09-27 Introduce kids to the planets and solar system in this fractured fairy tale retelling of the classic The Three Little Pigs. Parents and children alike will adore this out-of-this-world story, which is set in outer space! GREEP BOINK MEEP! The three little aliens are happily settling into their new homes when the Big Bad Robot flies in to crack and smack and whack their houses down! A chase across the solar system follows in this humorous and visually stunning book from Margaret McNamara (How Many Seeds in a Pumpkin?) and Mark Fearing (The Book that Eats People). The endpapers even include a labeled diagram of all the planets.

Aliens Vs Predator Vs the Terminator Mark Schultz,Mel Rubi,2001 It is the year 2032, and the human resistance forces are waging all-out war on the evil super-computer Skynet. Sensing defeat, Skynet goes into hiding, and years later re-emerges with its ultimate doomsday plan, an alien/terminator hybrid.

Caveman Alien's Ransom Calista Skye,2017-09-13 Being abducted by aliens was never on my bucket list. But I guess the aliens didn't get that memo, because one night I was beamed aboard a UFO. It dumped me and a bunch of other girls on an alien planet.A jurassic planet where giant, murderous dinosaurs walk around and everything wants to kill me.My only hope of surviving is the first man I met here. His name is Jax'zan, and he's an alien. And a caveman. As in, the hottest super-alpha caveman who ever lived. He's big and strong and doesn't talk much, but he's saved my life so

many times now that I've lost count. My insides turn to hot mush whenever he fixes his smouldering eyes on me, and the scandalously sexy and unusual features his sensationally muscular body is rocking totally make me forget time and place. There's only one problem: He's holding me for ransom. And he wants to repopulate his woman-less planet. With me ... Expect steamy scenes, mysterious aliens with features like adult toys, deadly planets and the love story between a BBW from Earth and a sensationally hot alien warrior. Full-length romance novel with no cliffhangers and a happy-ever-after ending!

Doug Pratt's DVD Douglas Pratt, 2005 Doug Pratt is the leading reviewer of DVDs, a contributor to Rolling Stone, and editor and publisher of The DVD-Laserdisc Newsletter. Choice says, Pratt's writing is amusing, comprehensive and informative. Rolling Stone calls this two-volume set, the gold standard on all things DVD. The set is unique in giving space to non-feature-film DVDs, the fastest growing area of the market. Not just a reference book, it's also good reading.

Aliens Love Dinopants Claire Freedman, 2016-05-17 It's an out of this world underpants war in this laugh-out-loud picture book from the team that brought you Monsters Love Underpants, Dinosaurs Love Underpants, and Pirates Love Underpants. When aliens crash-land in the jungle, they have no idea that they are about to stumble into the biggest stash of underwear ever. Their happiness knows no bounds since all aliens share a love for zany underpants! But what will happen when the prehistoric owners of the oversized stash turn up?

Black Art of Visual Basic Game Programming Mark Pruett, 1995 The first part of this book covers playing-field design, creating and moving objects using the Windows BitBlt API, detecting collisions, and adding sound, with example code given with each topic. Part 2 covers in-depth everything that game developers should know to create addicting action games. Part 3 contains several game projects.

Alien: Out of the Shadows (Novel #1) Tim Lebbon, 2014-01-28 THE FIRST IN AN ALL NEW, OFFICIAL TRILOGY SET IN THE ALIEN UNIVERSE! Featuring the iconic Ellen Ripley in a terrifying new adventure that bridges the gap between Alien and Aliens. Officially sanctioned and true to the Alien cannon, Alien: Out of the Shadows expands upon the well-loved mythos and is a must for all Alien fans.

Thomas Eakins (1844-1916) and the Heart of American Life Thomas Eakins, John Wilmerding, 1993

Speed Bump Dave Coverly, 2020-07-01 This silver anniversary edition of Dave Coverly's Reuben award-winning Speed Bump collects 300 of his best cartoons into one full-color book. 25 years of ideas. 25 years of drawings. 25 years of coffee. Man, that's a lot of coffee. Coverly's work has appeared in over 400 newspapers, including the Washington Post, the Los Angeles Times, and the Detroit Free Press, as well as in Parade magazine, textbooks, greeting cards, and even on that internet thingy. Dry and gentle not only describes Dave's hands, but his sense of humor as well. And while there are no guarantees in life, this new collection of Speed Bump cartoons hopes to make you think, smile, snort awkwardly, rethink, pause for a bathroom break, maybe get a second cup of coffee, and return to read a few more before realizing you really should be doing something a little more productive.

Idiolects ,

Space Tripping Patrick Edwards, 2017-03-07 Chuck never thought too deeply about whether aliens existed — not until Jopp, an intergalactic transport pilot, drunkenly crashed on Earth and tried to steal his truck. Now, Chuck finds himself unwittingly roped into helping Jopp work off a debt to the universe's most powerful corporation, the Prime Partners Intergalactic Consortium. Through a series of mishaps and misfortune, the duo finds themselves in possession of a mysterious black case. In order to survive, they must fend off murderous marauders, an interplanetary police force, a peculiar crime boss, and escape a backwater planet inhabited by alien hillbillies. It's a big and scary universe out there, and Chuck and Jopp will be damned if they're going to face it sober.

Alien Abduction for Beginners Skye MacKinnon, 2020-12-12 Not all aliens are good at abducting humans. Havel, Matar and Xil have failed too many times to count. Luckily, there's help available for failed kidnappers: a diploma offered by the Intergalactic University. To complete their course, these three sexy aliens need to abduct a human female - and they're graded on it. The problem is, the

human female has no intentions of being abducted, not even to help them get the universe's most recognised abduction qualification. A hilarious sci-fi reverse harem with clueless aliens and the human woman they're trying to seduce (and probe). Beware, these aliens have fangs and tails and are ready to put them to good use.
