The Art of the Fold Hedi Kyle, Ulla Warchol, 2018-10-02 The influential artist Hedi Kyle and renowned architecture graduate Ulla Warchol shows you how to create their unique designs using folding techniques. From creating flag books and fishbones, to blizzards and nesting boxes, you'll gain an invaluable insight into the work of two skilled artists with this fun read! With the help of their thorough instructions and simple illustrations, you'll be on your way to becoming a pro paper crafter in no time at all - Sew magazine A wonderful insight into the work of a truly skilled artist - PaperCrafter The renowned and influential book artist Hedi Kyle shows you step-by-step how to create her unique designs using folding techniques in *The Art of the Fold*. Bookbinding and paper craft projects include flag books, blizzard books, the fishbone fold, and nesting boxes. Written by the doyenne of artists' books, Hedi Kyle, *The Art of the Fold* is a wonderful insight into the work of a truly skilled artist. Hedi will show you how to bind a book and fold paper to create over 35 of her cut-fold book designs. The book is beautifully illustrated with Hedi's finished works of art. An excerpt from the book: 'I can still remember the thrill I experienced when my first folded book structure emerged from my fingers - how eager I was to explore its possibilities and to share it with whoever was interested. The Flag Book, as I now call it, is a simple accordion and has interlocking pages oriented in opposite directions. Little did I know that this simple structure would have legs and be the catalyst for the next forty-plus years of thinking about and making books. The common perception of the book today is fairly straightforward: a series of pages organized around a spine and protected on either side by two covers. This format allows for easy access, storage and retrieval of information. Yet what happens when the book is stripped away of centuries of preconceptions and is allowed to reveal something else: playfulness, utility, invention? Expanding the notion of the book is what the structures in the following chapters of *The Art of the Fold* attempt to do. Exploring its tactile, sculptural form, primarily through folding methods, the book as a structural object is celebrated while content is considered in a new and unconventional way. My range in this medium has always been broad. In part this is due to my introduction to the world of bookbinding and some chance encounters. In the 1970s in New York City, the art and craft of hand bookbinding and papermaking were experiencing an unprecedented revival. I was fortunate to arrive in the city at just this moment. With an art-school background and an impulse to make things, I was naturally drawn to pursue this new opportunity. The Center for Book Arts, the famous forerunner of so many centers yet to come, was located in a small storefront just down the street from where I lived on the Lower East Side of Manhattan. Under the direction of founder Richard Minsky, it had a radical mission: to push concept, materials, printing and making of artist books in a new direction. When Richard dared me to teach at the Center one evening a week, I was hooked. My career as a book conservator and a book artist has now spanned over 45 years. As head conservator at the American Philosophical Society in Philadelphia, I've had the opportunity to handle some of the rarest volumes and manuscripts in the world. I have also dealt with decrepit books, torn maps and countless curiosities discovered in stacks and archives. All were endless sources for ideas and provided a springboard for a departure from tradition. Leading book-arts workshops around the world and a 25 year tenure teaching in the graduate program for Book Arts and Printmaking at the University of the Arts in Philadelphia have shown me, in retrospect, that the more I taught, t

Cut and Assemble Frank Lloyd Wright's Robie House Edmund V. Gillon, Jr., 1987-01-01 Designed in 1908 as a suburban residence for a Chicago businessman, the Robie House embodied the full spirit of Frank Lloyd Wright's pioneering prairie school of design. Today, this masterpiece of modern architecture remains a classic example of the builder's ideas and ideals.

Long, low, streamlined and exemplary of the prairie's spaciousness, the Robie House profoundly influenced the course of American architecture – so much so that a model of Wright's innovative structure has long been on display at the Museum of Modern Art in Manhattan. Now model builders as well as lovers of fine architecture can construct an accurate three-dimensional model of the Robie House, and thereby discover for themselves the harmonious interrelationships of parts and numerous other design details that make this home a world-famous architectural masterpiece. Printed in full color on sturdy card stock, the model comes complete with step-by-step instructions and exploded diagrams. A series of multi-level horizontal planes includes balconies, platforms, a porch and entrance court, while easy-to-follow directions clearly explain how to cut, fold and glue walls, doorways, windows, roof and other features. Students of architecture, miniaturists and paper engineers will delight in recreating an outstanding example of American residential architecture, which, in Wright's own words, has become a source of worldwide inspiration.

Cut & Assemble Haunted House Matt Bergstrom, 2018-08-15 One side of this easy-to-make model features the exterior of a Victorian mansion; the other reveals a busy interior with a basement lab and haunted attic, populated by ghosts, zombies, and other ghouls. Simple instructions.

Hokusai Matthi Forrer, 1991 Hokusai, one of Japan's most famous artists, has left a body of work comprising almost 30,000 items. This volume, designed as a catalog to accompany an exhibition in London, gives us an overview of 13 drawings and 151 woodblock prints representing landscapes, amorous couplings, kabuki actors, and scenes of daily life in 18th-century Japan.

Mind-Blowing Modular Origami Byriah Loper, 2016-10-11 Modular origami is the latest craze in paper folding! These three-dimensional models are created from a number of small pieces of paper that are easily folded and then cleverly fit together to form a spectacular shape. They range from paper

polyhedra to bristling buckyballs that are reminiscent of sea urchins—to ornate flower-like spheres. Each piece of paper is held by the tension of the other papers—demonstrating the remarkable hidden properties of paper, which is at the same time flexible but also strong! Author Byriah Loper has been creating modular origami sculptures for just five years, but in that time, he's pushed the upper limits of the art form with some of the largest, most complex geometric paper constructions ever assembled. While many geo-modular origami artists focus on creating dense floral spheres, Byriah has pioneered the open, linear wire frame approach, which results in a very complex-looking model that reveals the interior of its form. He exhibits his sculptures annually at the Origami USA convention in New York, and was recently a featured artist at the Surface to Structure exhibition at the Cooper Union gallery in the East Village. A great way to learn origami, the easy-to-follow diagrams and step-by-step instructions in this book show you how to fold the paper components and then assemble them to create 22 incredible models. Each model is a new challenge, and the paper sculptures you create look fantastic on your desk or shelf!

Maybe... Chris Haughton, 2021-11-30 A trio of misbehaving, mango-loving monkeys have a close call as the creator of *Don't Worry, Little Crab* gives readers a taste of vicarious mischief. Three little monkeys and their big monkey are sitting high on a branch in the forest canopy. "OK, monkeys! I'm off," says the big monkey. "Remember . . . Whatever you do, do NOT go down to the mango tree. There are tigers down there." Mmm . . . mangoes! think the little monkeys. They LOVE mangoes. Hmm . . . Maybe . . . maybe they could just look at the mangoes. That would be OK, right? With vivid colors, bold shapes, and his trademark visual humor, Chris Haughton is back with a deliciously suspenseful cautionary tale about pushing boundaries—and indulging your more impish side (when nobody is looking).

Dolly Dingle Paper Dolls Grace G. Drayton, 1978-01-01 Paper dolls, with costumes representative of the clothes, pets, and toys for the Dingle Dell characters between 1913-1925 and clothes from other countries for Dolly Dingle.

Don't Worry, Little Crab Chris Haughton, 2020-04-07 From the award-winning creator of *Shh! We Have a Plan* comes a vibrantly colorful story about mustering the courage to try something new. Little Crab and Very Big Crab live in a tiny rock pool near the sea. Today they're going for a dip in the big ocean. "This is going to be so great," says Little Crab, splish-splashing and squelch-squelching along, all the way to the very edge. Then comes a first glance down at the waves. WHOOSH! Maybe it's better if they don't go in? With vivid colors, bold shapes, and his trademark visual humor, Chris Haughton shows that sometimes a gentle "don't worry, I'm here" can keep tentative little crabs sidestepping ahead – and help them discover the brilliant worlds that await when they take the plunge.

The Strange Case of Origami Yoda (Origami Yoda #1) Tom Angleberger, 2012-08-07 In this funny, uncannily wise portrait of the dynamics of a sixth-grade class and of the greatness that sometimes comes in unlikely packages, Dwight, a loser, talks to his classmates via an origami finger puppet of Yoda. If that weren't strange enough, the puppet is uncannily wise and prescient. Origami Yoda predicts the date of a pop quiz, guesses who stole the classroom Shakespeare bust, and saves a classmate from popularity-crushing embarrassment with some well-timed advice. Dwight's classmate Tommy wonders how Yoda can be so smart when Dwight himself is so clueless. With contributions from his puzzled classmates, Tommy assembles this first case file in the blockbuster bestselling Origami Yoda series, written by Tom Angleberger, author of *Star Wars: Return of the Jedi: Beware the Power of the Dark Side*, and hailed by *School Library Journal* as "honest, funny, and immensely entertaining." Bolt Action: Campaign: Market Garden Warlord Games, 2018-02-22 Market Garden was a bold plan, designed to capture the Rhine crossings along the Dutch-German border and establish a foothold for an advance into Germany. A massive combined arms operation involving airborne landings and an armoured thrust, it was one of the most dramatic and controversial operations of the war. This new Campaign Book for Bolt Action allows players to command the forces facing each other across the Rhine, fighting key battles and attempting to change the course of history. New, linked scenarios, rules, troop types and Theatre Selectors provide plenty of options for novice and veteran players alike.

Goodnight Everyone Chris Haughton, 2021-07-06 From the creator of Shh! We Have a Plan comes a mesmerizing bedtime tale of a forest settling into slumber and one little bear trying to stay awake. The sun is setting, and everyone in the forest is getting sleepy. The mice, rabbits, and deer all give great big yawns as they snuggle up with their families for the night. But someone isn't sleepy just yet. Little Bear thinks he can stay awake a bit longer. Can he do it? Chris Haughton's bold and vibrant illustrations will captivate little ones eager to stay up just a teeny bit longer, while sweet depictions of animals cozying up in their beds for the night will soon have them yawning off to a dreamland of their own.

The Day of the Mountain Timothy Neat, Anne Michaels, 2016 Since entering his eighth decade Neat has concentrated his wide-ranging creativity on the act of drawing, in sketchbooks. His prime subject is people - the common man, writers, artists, travellers, prisoners: he also addresses war, landscape, and the ancient past with visionary understanding. Of the four hundred drawings being published, only three have been publicly seen. In this book Neat, the artist, can be seen for the first time - championed by the great art critic John Berger and renowned writer Anne Michaels: these drawings are revelatory. This special signed edition, produced to the highest specification, is limited to 150 copies and is guaranteed to appeal to collectors of fine art and belle-lettres in Scotland and across Europe. Neat's books include The Summer Walkers, Part Seen Part Imagined, a two volume biography of Hamish Henderson and, most recently, These Faces, a collection of photographs and drawings (2013).
