Mick Suzanne Falkiner,2016 Randolph Stow was one of the great Australian writers of his generation. His novel To the Islands - written in his early twenties after living on a remote Aboriginal mission - won the Miles Franklin Award for 1958. In later life, after publishing seven remarkable novels and several collections of poetry, Stow's literary output slowed. This biography examines the productive period as well as his long periods of publishing silence. In Mick: A Life of Randolph Stow, Suzanne Falkiner unravels the reasons behind Randolph Stow's quiet retreat from Australia and the wider literary world. Meticulously researched, insightful and at times deeply moving, Falkiner's biography pieces together an intriguing story from Stow's personal letters, diaries, and interviews with the people who knew him best. And many of her tales - from Stow's beginnings in idyllic rural Australia, to his critical turning point in Papua New Guinea, and his final years in Essex, England - provide us with keys to unlock the meaning of Stow's rich and introspective works. *** The overriding virtue of this book is Falkiner's steady trust in the intelligence of her readers. She spells very little out, presenting us instead with this carefully curated wealth of textual evidence. -- Kerry Goldsworthy, Australian Book Review *** Finally we have some sense of the wounds that shaped and animated Stow's poetry and fiction. -- Geordie Williamson, The Australian *** Suzanne Falkiner's prodigious biography of Randolph Stow is a book long awaited by many; not just the literati of his native Australia but those countless readers who feasted on his novels and wondered what kind of person could write with such imaginative power. Not only do we come to appreciate what led this renowned Australian writer to create his celebrated fictional works, but we are also given rare glimpses into the inner world of this most private individual, whose personal demons included a dependence on alcohol, two suicide attempts, and struggles with homosexuality. Falkiner cut her teeth on six previous biographies, which stood her in good stead to tackle this challenge. Against significant odds, she has done a masterful job in painting a portrait of one of Australia's most revered writers, somewhat akin to what compatriot David Marr did for Nobel Prize-winning author Patrick White. It will no doubt send readers scurrying back to Stow's novels, which, as Marr once said, is the best news a biographer can hear. --World Literature Today, January-February 2017 [Subject: Biography, Literary Criticism]

Canadair Ronald Arthur Pickler,Larry Milberry,1995-01 This book is a story about people and products. It tells of a company that started as a 'bucket shop' producing aircraft designed by other manufacturers and ended as a world leader in the design and manufacture of business jets and regional airliners. (Dust jacket)

Canada's Flying Heritage Frank H. Ellis,1980 This book not only records the significant events of Canadian aviation but also pays tribute to the 'forgotten flyers who flew by guess and by God or with calculating caution - for the sheer love of flying - in the early days.' The opening chapter recounts the first tentative experiments with that overgrown monster, the flying machine - at this stage, the glider. Next come the Barnstormers, the first professional airmen, trying desperately to wrest a living from the air, pioneering in the field of practical flying as little more than vaudeville performers. These were the days of daring aero-acrobatics and tense and crowded air-meets. The First World War saw a tremendous advance in technical manoeuvres and in pilot skill; the first aviation school was established in Toronto, where the War Birds learned to fly. An unparalleled boom in aviation followed the war. Public interest had been aroused by the celebrated achievement of Canada's Air Force, and many young men, the restlessness of the war still in them, were obsessed by the itch to fly again. The dollar-a-minute days marked the beginning of passenger travel and a steady increase in experimental flying, to bear its practical fruit in days to come. The next chapter is one of heroic enterprise - the conquest of the Atlantic and the spanning of the Continent. No less epic is the history of the bush pilots who tamed the Canadian North. We must be grateful to Mr. Ellis for rescuing from obscurity this important chapter in our history.

Who Killed the Avro Arrow? Chris Gainor,2007 A fascinating examination of the international politics, pressures and personalities behind one of the most controversial decisions in Canadian history, the mothballing of the incredibly sophisticated jet fighter, the Avro Arrow.

Commuter Airlines of the United States Ronald Edward George Davies,I. E. Quastler,1995 The authors provide a history of commuter aviation in the U.S. from the 1920s, but focusing on the growth of the industry since the 1960s. They also identify and profile key contributors to commuter aviation and provide a list of more than 1,000 commuter airlines, specifying home base, routes, equipment, and the salient features of each.

To the Islands Randolph Stow,2015-08-26 Behind the uneasy trees rose the hills, and beyond them again the country of the lost, huge wilderness between this last haunt of civilization and the unpeopled sea. Exhausted and losing faith, an Anglican minister flees his mission in Australia's northwest for the vast emptiness of the outback. In the soul country of the desert the old man searches for the islands of the Aboriginal dead, reflecting on past transgressions and on his life's work. A Lear-like tale of madness and destruction, published when Randolph Stow was only twenty-two, To the Islands is compelling and wise—a poetic masterpiece.
