**My Kind of City** Hank Dittmar, 2019-08-20 Hank lived by the credo, 'first listen, then design'. --Scott Bernstein, Founder and Chief Strategy + Innovation Officer, Center for Neighborhood Technology Hank Dittmar was a globally recognized urban planner, advocate, and policy advisor. He wrote extensively on a wide range of topics, including architectural criticism, community planning, and transportation policy over his long and storied career. In My Kind of City, Dittmar has organized his selected writings into ten sections with original introductions. His observations range on scale from local (My Favorite Street: Seven Dials, Covent Garden, London) to national (Post Truth Architecture in the Age of Trump) and global (Architects are Critical to Adapting our Cities to Climate Change). Andrés Duany writes of Hank in the book foreword, He has continued to search for ways to engage place, community and history in order to avoid the tempting formalism of plans. The range of topics covered in My Kind of City reflects the breadth of Dittmar's experience in working for better cities for people. Common themes emerge in the engaging prose including Dittmar's belief that improving our cities should not be left to the experts; his appreciation for the beautiful and the messy; and his rare combination of deep expertise and modesty. As Lynn Richards, CEO of Congress for the New Urbanism expresses in the preface, Hank's writing is smart without being elitist, witty and poetic, succinct and often surprising. My Kind of City captures a visionary planner's spirit, eye for beauty, and love for the places where we live.

**Derelict London: All New Edition** Paul Talling, 2019-07-11 \_\_\_\_\_ The huge word-of-mouth bestseller – completely updated for 2019 THE LONDON THAT TOURISTS DON'T SEE Look beyond Big Ben and past the skyscrapers of the Square Mile, and you will find another London. This is the land of long-forgotten tube stations, burnt-out mansions and gently decaying factories. Welcome to DERELICT LONDON: a realm whose secrets are all around us, visible to anyone who cares to look . . . Paul Talling – our best-loved investigator of London's underbelly – has spent over fifteen years uncovering the stories of this hidden world. Now, he brings together 100 of his favourite abandoned places from across the capital: many of them more magnificent, more beautiful and more evocative than you can imagine. Covering everything from the overgrown stands of Leyton Stadium to the windswept alleys of the Aylesbury Estate, DERELICT LONDON reveals a side of the city you never knew existed. It will change the way you see London. \_\_\_\_\_ PRAISE FOR THE DERELICT LONDON PROJECT 'Fascinating images showing some of London's eeriest derelict sites show another side to the busy, built-up capital.' Daily Mail 'Talling has managed to show another side to the capital, one of abandoned buildings that somehow retain a sense of beauty.' Metro 'Excellent . . . As much as it is an inadvertent vision of how London might look after a catastrophe, DERELICT LONDON is valuable as a document of the one going on right in front of us.' New Statesman 'From the iconic empty shell of Battersea Power Station to the buried 'ghost' stations of the London Underground, the city is peppered with decaying buildings. Paul Talling knows these places better than anyone in the capital.' Daily Express '[London has an] unusual (and deplorable) number of abandoned buildings. Paul Talling's surprise bestseller, DERELICT LONDON, is their shabby Pevsner.' Daily Telegraph \_\_\_\_\_

Perhaps this is the key to their enduring appeal. This beautifully illustrated book will delight lovers of mazes, acting as a guide, directory, and puzzle book combined. Specially commissioned illustrations by Thibaud Hérem represent 60 real and imagined mazes from around the world, with a bird's eye view of each maze so that readers can make their own journey. Each maze is also accompanied by a fascinating and witty short history.

**London's Lost Rivers** Paul Talling, 2020-04-02 Packed with surprising and fascinating information, London's Lost Rivers uncovers a very different side to London - showing how waterways shaped our principal city and exploring the legacy they leave today. With individual maps to show the course of each river and over 100 colour photographs, it's essential browsing for any Londoner and the perfect gift for anyone who loves exploring the past... 'An amazing book' -- BBC Radio London 'Talling's highly visual, fact-packed, waffle-free account is the freshest take we've yet seen. A must-buy for anyone who enjoys the hidden side of London -- Londonist 'A fascinating and stylish guide to exploring the capital's forgotten brooks, waterways, canals and ditches ... it's a terrific book' - Walk 'Pocket-sized, beautifully designed, illustrated and informative - in short a joy to read, handle and use' -- \*\*\*\*\* Reader review 'Delightful, informative and beautifully produced' -- \*\*\*\*\* Reader review

'A small gem. A really great book. I can't put it down' -- \*\*\*\*\* Reader review 'Fascinating from start to finish' -- \*\*\*\*\* Reader review

\*\*\*\*\* From the sources of the Fleet in Hampstead's ponds to the mouth of the Effra in Vauxhall, via the meander of the Westbourne through 'Knight's Bridge' and the Tyburn's curve along Marylebone Lane, London's Lost Rivers unearths the hidden waterways that flow beneath the streets of the capital. Paul Talling investigates how these rivers shaped the city - forming borough boundaries and transport networks, fashionable spas and stagnant slums - and how they all eventually gave way to railways, roads and sewers. Armed with his camera, he traces their routes and reveals their often overlooked remains: riverside pubs on the Old Kent Road, healing wells in King's Cross, 'stink pipes' in Hammersmith and gurgling gutters on streets across the city. Packed with maps and over 100 colour photographs, London's Lost Rivers uncovers the watery history of the city's most famous sights, bringing to life the very different London that lies beneath our feet.

Collective and Collaborative Drawing in Contemporary Practice Helen Gørrill, Jill Journeaux, 2018-01-23 Whilst both collective and collaborative drawing is being widely explored internationally, both within and beyond educational institutions, there is surprisingly little serious research published on the topic. This realisation led to the first international Drawing Conversations Symposium, accompanied by the Drawn Conversations Exhibition at Coventry University, UK, in December 2015. The two events drew a strong and global response, and brought together a wide range of participants, including academics, artists, researchers, designers, architects and doctoral students. This book considers what happens, and how, when people draw together either in the form of a collaboration, or through a collective process. The contributions here serve to establish the field of collective and collaborative drawing as distinct from the types of drawing undertaken by artists, designers, and architects within a professional context. The volume covers conversations through the act of drawing, collaborative drawing, drawing communities, and alternative drawing collaborations.

**Seashaken Houses** Tom Nancollas, 2019-08 Lighthouses are striking totems of our relationship to the sea. For many, they encapsulate a romantic vision of solitary homes amongst the waves, but their original purpose was much more utilitarian than that. Today we still depend upon their guiding lights for the safe passage of ships. Nowhere is this truer than in the rock lighthouses of Great Britain and Ireland which form a ring of twenty towers built between 1811 and 1904, so-called because they were constructed on desolate rock formations in the middle of the sea, and made of granite to withstand the power of its waves. *Seashaken Houses* is a lyrical exploration of these singular towers, the people who risked their lives building and rebuilding them, those that inhabited their circular rooms, and the ways in which we value emblems of our history in a changing world.

*This Other London: Adventures in the Overlooked City* John Rogers, 2014-04-22 Join John Rogers as he ventures out into an uncharted London like a redbrick Indiana Jones in search of the lost meaning of our metropolitan existence. Nursing two reluctant knees and a can of Stella, he perambulates through the seasons seeking adventure in our city's remote and forgotten reaches.

**The Art of the Bible** Scot McKendrick, Kathleen Doyle, 2016 A beautiful and informative exploration of the illuminated manuscripts of the Bible over a millennium and across the globe, shedding new light on some of the most significant, yet rarely seen, paintings of the Middle Ages

**Charles I**, 2018 During his reign, King Charles I (1600-1649) assembled one of Europe's most extraordinary art collections. Indeed, by the time of his death, it contained some 2,000 paintings and sculptures. *Charles I: King and Collector* explores the origins of the collection, the way it was assembled and what it came to represent. Authoritative essays provide a revealing historical context for the formation of the King's taste. They analyse key areas of the collection, such as the Italian Renaissance, and how the paintings that Charles collected influenced the contemporary artists he commissioned. Following Charles's execution, his collection was sold. This book, which accompanies the exhibition, reunites its most important works in sumptuous detail. Featuring paintings by such masters as Van Dyck, Rubens and Raphael, this striking publication offers a unique insight into this fabled collection. **AUTHORS:** Desmond Shawe-Taylor is Surveyor of the Queen's Pictures.
