Art History For Dummies Jesse Bryant Wilder,2011-02-14 Art history is more than just a collection of dates and foreign-sounding names, obscure movements and arcane isms. Every age, for the last 50,000 years has left its unique imprint on the world, and from the first cave paintings to the ceiling of the Sistine Chapel, from the Byzantine mosaics of the Hagia Sophia, to the graffiti-inspired paintings of Jean-Michel Basquiat, art history tells the story of our evolving notions of who and what we are and our place in the universe. Whether you're an art enthusiast who'd like to know more about the history behind your favorite works and artists, or somebody who couldn't tell a Titian and a De Kooning—but would like to—Art History For Dummies is for you. It takes you on a tour of thirty millennia of artistic expression, covering the artistic movements, major artists, and indispensable masterworks, and the world events and cultural trends that helped spawn them. With the help of stunning black-and-white photos throughout, and a sixteen-page gallery of color images, it covers: The rise and fall of classical art in Greece and Rome The differences between Renaissance art and Mannerism How the industrial revolution spawned Romanticism How and why Post-Impression branched off from Impressionism Constructivism, Dadaism, Surrealism and other 20th century isms What's up with today's eclectic art scene Art History For Dummies is an unbeatable reference for anyone who wants to understand art in its historical context.

Foundation Dreamweaver MX Craig Grannell,Jerome Turner,Matt Stephens,George McLachlan,Todd Marks,2013-11-11 Macromedia Dreamweaver MX merges the faultless visual layout tools of Dreamweaver and the powerful yet easy-to-use database integration offered by UltraDev into a product that is simply the most vital piece of software any web designer can own.

Unlike many other books, Foundation Dreamweaver MX concentrates on both sides of this alliance, looking to the future. No matter what your background, this book will give you a solid foundation in graphic design and layout issues as well as a full grounding in the powerful database integration features that Dreamweaver MX offers. The truth is that database integration is no more of an extra in today's climate than faultless visual design, and this book is here to guide you through this new world, covering dynamic scripting with PHP and the popular MySQL database. This book is suitable for both PC and Mac (OS X needed) platforms. Whether a complete novice or a past user, after reading this book, youll be fluent in the full breadth of Dreamweaver MX's powerful functionality, a unique learning curve backed up by solid real-world case studies and tutorials. What this book covers: Site design and layout principles Using templates and Cascading Style Sheets to create advanced site designs Adding interactivity to pages with script Setting up PHP and MySQL to create powerful dynamic database-driven applications Dreamweaver MX makes this all possible, and Foundation Dreamweaver MX makes it easier than you could have imagined. December 2002: Macromedia has released an update, available for download, which addresses a number of issues in Dreamweaver MX, including compatibity with Macromedia Contribute.

The Adobe Photoshop Lightroom Classic Book Scott Kelby,2021-12-16 Since Lightroom first launched 15 years ago, Scott Kelby's The Adobe Photoshop Lightroom Book for Digital

Photographers has been the world's #1 top-selling Lightroom book (it has been translated into dozens of different languages), and in this latest version, Scott did his biggest update ever, sharing all his newest techniques, insights, and invaluable tips using his award-winning, plain-English style that makes learning Lightroom easy and fun. Scott doesn't just show you which sliders do what (every Lightroom book does that, right?). Instead, he shares his own personal settings, his time-tested techniques, and his proven step-by-step method of learning Lightroom, so you can begin using it like a pro from the start. Each year, he trains thousands of Lightroom users at his live seminars, online conferences, and through his blog at LightroomKillerTips.com, and he has learned firsthand what really works and what doesn't. He tells you flat-out which techniques work best, which ones to avoid, and why. You'll learn: His famous SLIM (Simplified Lightroom Image Management) system that will teach you, step by step, how to organize your images, back them up, and be able to find them quickly and easily. Scott's SLIM system is taught at colleges and universities around the world, because it's so simple, straightforward, and it works. How to make your images look like the pros, and how to take advantage of the camera, creative, and B&W profiles—you'll finally get the whole image editing thing, and you'll know exactly what to do, which sliders to move (and which to avoid) in what order, and why. How to unlock the power of Lightroom's Masking tools and how to paint with light to take your images to another level. How to use Lightroom along with Photoshop, and how to make the two work together absolutely seamlessly. You'll be surprised at what you'll be able to do, even if you've never used Photoshop before. How to expand Lightroom's power to your phone or tablet, so you can organize and edit your images from anywhere. How to share your images in print and in gorgeous coffee table books, or online, including how to do online client proofing or share images with a group. Download most of the same images used in the book to follow right along

with. You'll get a killer collection of custom Lightroom Develop and Print presets to give you some of the most sought-after looks and effects, all with just one click. This is the first and only book to bring the whole process together in such a clear, concise, and visual way. There is no faster, more straight-to-the-point, or more fun way to learn Lightroom.

Sinophone Southeast Asia ,2021-09-06 This volume explores the diverse linguistic landscape of Southeast Asia's Chinese communities. Based on archival research and previously unpublished linguistic fieldwork, it unearths a wide variety of language histories, linguistic practices, and trajectories of words. The localized and often marginalized voices we bring to the spotlight are quickly disappearing in the wake of standardization and homogenization, yet they tell a story that is uniquely Southeast Asian in its rich hybridity. Our comparative scope and focus on language, analysed in tandem with history and culture, adds a refreshing dimension to the broader field of Sino-Southeast Asian Studies.

Image Processing and Capsule Networks Joy Iong-Zong Chen,João Manuel R. S. Tavares,Subarna Shakya,Abdullah M. Iliyasu,2020-07-23 This book emphasizes the emerging building block of image processing domain, which is known as capsule networks for performing deep image recognition and processing for next-generation imaging science. Recent years have witnessed the continuous development of technologies and methodologies related to image processing, analysis and 3D modeling which have been implemented in the field of computer and image vision. The significant development of these technologies has led to an efficient solution called capsule networks [CapsNet] to solve the intricate challenges in recognizing complex image poses, visual tasks, and object deformation. Moreover, the breakneck growth of computation complexities and computing efficiency has initiated the significant developments of the effective and sophisticated capsule network algorithms and artificial intelligence [AI] tools into existence. The main contribution of this book is to explain and summarize the significant state-of-the-art research advances in the areas of capsule network [CapsNet] algorithms and architectures with real-time implications in the areas of image detection, remote sensing, biomedical image analysis, computer communications, machine vision,

Internet of things, and data analytics techniques.

Madame Saqui Lisa Robinson,2020-03-24 A stunning picture book biography about the tightrope walker who dazzled Paris as she danced across the sky with impeccable balance and unparalleled skill during the French Revolution. In revolutionary France, a girl named Marguerite Lalanne longed to perform above large crowds on a tightrope, just like her acrobatic parents. Sneaking off to the fairgrounds for secret tightrope walking lessons, Marguerite finessed her performance skills, ultimately performing for crowds as a young rope dancer. And eventually, Marguerite would perform as Madame Saqui, waltzing and pirouetting across- and never falling off- countless ropes above adoring crowds. A nouvelle chérie de Paris, Madame Saqui cemented her place in circus history, winning the adoration of the French people and royalty alike, including Emperor Napoleon Bonaparte. This remarkable biography unveils the inspiring story of a trailblazing woman who revolutionized the circus world-- without ever missing a step.
