Concepts of Biology Samantha Fowler, Rebecca

Roush, James Wise, 2018-01-07 Concepts of Biology is designed for the single-semester introduction to biology course for non-science majors, which for many students is their only college-level science course. As such, this course represents an important opportunity for students to develop the necessary knowledge, tools, and skills to make informed decisions as they continue with their lives. Rather than being mired down with facts and vocabulary, the typical non-science major student needs information presented in a way that is easy to read and understand. Even more importantly, the content should be meaningful. Students do much better when they understand why biology is relevant to their everyday lives. For these reasons, Concepts of Biology is grounded on an evolutionary basis and includes exciting features that highlight careers in the biological sciences and everyday applications of the concepts at hand. We also strive to show the interconnectedness of topics within this extremely broad discipline. In order to meet the needs of today's instructors and students, we maintain the overall organization and coverage found in most syllabi for this course. A strength of Concepts of Biology is that instructors can customize the book, adapting it to the approach that works best in their classroom. Concepts of Biology also includes an innovative art program that incorporates critical thinking and clicker questions to help students understand--and apply--key concepts.

Copperplate Script Paul Antonio, 2018-05-15

Copperplate Script - A Yin & Yang Approach by Paul Antonio, is an innovative, new technology applied to an historical script. The script presented in this manual is not an historical hand, but a geometric construct to aid in a more exacting understanding of the script. This construct assists with writing a cleaner and more beautiful copperplate script. The Technology reintroduces a comprehensive terminology for the parts of the letters - words used by the English Writing Masters in their Copybooks, in the 16th, 17th and 18th centuries, as well as additional names augmented from the historical record. Geometry and physics are used to explain how a curve works and where it sits in relation to the baseline. This concept, then compares how a car or a bicycle tackles a roundabout. Learning the skeletal forms, similar to learning Roman Capitals, is a key part of the manual. The process begins with using a pencil first, followed by the nib. The over-arching concept of the technology utilises 4Fold Symmetry. There are four facets in the 4Fold Symmetry, all of which have 2 aspects; simple and complex. Angular Confinement is the first facet. It shows how confining the curves, inside a plane sided figure (in this case a parallelogram), is like drawing a square to plot a circle. Additional pages of study include an extensive list of difficult-to-write practise words, exemplars of numbers and variations, ligatures of double letters and ampersands. Sections on Brush Copperplate, Flourishing and its rules, as well as a glossary, augment this fine body of work. This manual offers an extensive, in-depth study of Copperplate Script suitable for any level of ability and an

extraordinary resource for the beginner, intermediate or advanced calligrapher.

How It Feels to Float Helena Fox, 2019-05-07 A Kirkus Reviews Best Book of the Year A Chicago Public Library Best of the Best of the Year Profoundly moving . . . Will take your breath away. —Kathleen Glasgow, author of *Girl in Pieces* A stunningly gorgeous and deeply hopeful portrayal of living with mental illness and grief, from an exceptional new voice. Biz knows how to float. She has her people, her posse, her mom and the twins. She has Grace. And she has her dad, who tells her about the little kid she was, and who shouldn't be here but is. So Biz doesn't tell anyone anything. Not about her dark, runaway thoughts, not about kissing Grace or noticing Jasper, the new boy. And she doesn't tell anyone about her dad. Because her dad died when she was seven. And Biz knows how to float, right there on the surface—normal okay regular fine. But after what happens on the beach—first in the ocean, and then in the sand—the tethers that hold Biz steady come undone. Dad disappears and, with him, all comfort. It might be easier, better, sweeter to float all the way away? Or maybe stay a little longer, find her father, bring him back to her. Or maybe—maybe maybe maybe—there's a third way Biz just can't see yet. Debut author Helena Fox tells a story about love and grief, about inter-generational mental illness, and how living with it is both a bridge to someone loved and lost and, also, a chasm. She explores the hard and beautiful places loss can take us, and honors those who hold us tightly when the current wants to tug us out to sea. The Cape Doctor E. J. Levy, 2021-06-15 A gorgeous, thoughtful, heartbreaking historical novel, *The Cape Doctor* is the story of one man's journey from penniless Irish girl to one of most celebrated and accomplished figures of his time (Lauren Fox, New York Times bestselling author of *Send for Me*). Beginning in Cork, Ireland, the novel recounts Jonathan Mirandus Perry's journey from daughter to son in order to enter medical school and provide for family, but Perry soon embraced the new-found freedom of living life as a man. From brilliant medical student in Edinburgh and London to eligible bachelor and quick-tempered physician in Cape Town, Dr. Perry thrived. When he befriended the aristocratic Cape Governor, the doctor rose to the pinnacle of society, before the two were publicly accused of a homosexual affair that scandalized the colonies and nearly cost them their lives. E. J. Levy's enthralling novel, inspired by the life of Dr. James Miranda Barry, brings this

captivating character vividly alive.

The Music of Bees Eileen Garvin, 2022-04-26 A NATIONAL BESTSELLER! "An exquisite debut that combines a moving tale of friendship with a fascinating primer on bees."--People "This heartwarming, uplifting story will make you want to call your own friends, not to mention grab some honey."--Good Housekeeping Three lonely strangers in a rural Oregon town, each working through grief and life's curveballs, are brought together by happenstance on a local honeybee farm where they find surprising friendship, healing--and maybe even a second chance--just when they least expect it. Forty-four-year-old Alice Holtzman is stuck in a dead-end job, bereft of family, and now reeling from the unexpected death of her husband. Alice has begun having panic attacks whenever she thinks about how her life hasn't turned out the way she dreamed. Even the beloved honeybees she raises in her spare time aren't helping her feel better these days. In the grip of a panic attack, she nearly collides with Jake--a troubled, paraplegic teenager with the tallest mohawk in Hood River County--while carrying 120,000 honeybees in the back of her pickup truck. Charmed by Jake's sincere interest in her bees and seeking to rescue him from his toxic home life, Alice surprises herself by inviting Jake to her farm. And then there's Harry, a twenty-four-year-old with debilitating social anxiety who is

desperate for work. When he applies to Alice's ad for part-time farm help, he's shocked to find himself hired. As an unexpected friendship blossoms among Alice, Jake, and Harry, a nefarious pesticide company moves to town, threatening the local honeybee population and illuminating deep-seated corruption in the community. The unlikely trio must unite for the sake of the bees--and in the process, they just might forge a new future for themselves.

Beautifully moving, warm, and uplifting, *The Music of Bees* is about the power of friendship, compassion in the face of loss, and finding the courage to start over (at any age) when things don't turn out the way you expect. "A hopeful, uplifting story about the power of chosen family and newfound home and beginning again . . . but it's the bees, with all their wonder and intricacy and intrigue, that make this story sing." --Laurie Frankel, New York Times bestselling author of *This Is How It Always Is*

Cat and Nat's Mom Truths Catherine Belknap, Natalie Telfer, 2019-03-12 THE NATIONAL BESTSELLER Hilarious best friends Cat and Nat created a massive online community of moms by sharing their ultra-real and just a bit R-rated dispatches from the mom trenches. From what not to eat a few days after giving birth (chicken wings) to the most effective ways to dodge post-partum sex, *Cat & Nat's Mom Truths* shares everything no one will tell you about having kids. Mixing memoir, humor, and advice, Cat and Nat tell never-before-told stories about the stress, guilt, joy, and laundry (oh the laundry!) of being a mom in their first book. With seven kids between them and millions of fans on social media, they get real about the parts of parenting that somehow don't make the Instagram feed. Sharing their

outrageous humor, fearless myth-busting, and genuine comfort on every page, they walk you from pregnancy to the toddler years and beyond. And they dole out ridiculously honest advice, like what you think you need at the hospital when you have your first baby (lip gloss) versus what you actually need (hemorrhoid pillow), and how worried you should really be about germs (less than you are). Fearless crusaders against the perfection myth and all the gluten-free, sugar-free baking it entails, Cat and Nat assure you that you're already doing a great job, making this an essential companion for moms everywhere.

Art Lab for Kids: Express Yourself Susan

Schwake, 2018-11-20 Art Lab for Kids: Express Yourself contains 52 brand new original art projects that will draw out each young artist as they discover their style, document their thoughts, and build confidence in their unique perspective. Each lesson asks questions and offers personal choices while encouraging diverse approaches and creative thinking. One of the most important gifts we can give children is to nurture their creativity and allow them to express themselves freely. There's no better way to express yourself than through creative art projects. This is especially true for children because it gives them an outlet to explore their developing interests and strengths. The Colorful Beasts project, which incorporates discussion of endangered animals with the Blue Rider art movement, asks children to use torn colored tissue paper and glue to create an expressive representation of a favorite vulnerable animal. In I Built This City, children imagine and build their own cityscape using columns of newspaper text to make buildings on top of a watercolor painted background, and detailed with marker. Many projects include varying examples and executions of the activity to illustrate and reinforce the open-ended nature of the labs, inspiring

children to embrace and share their own voice. Give children the great gift of creative self-exploration with Art Lab for Kids: Express Yourself. The popular Lab for Kids series features a growing list of books that share hands-on activities and projects on a wide host of topics, including art, astronomy, clay, geology, math, and even how to create your own circus—all authored by established experts in their fields. Each lab contains a complete materials list, clear step-by-step photographs of the process, as well as finished samples. The labs can be used as singular projects or as part of a yearlong curriculum of experiential learning. The activities are open-ended, designed to be explored over and over, often with different results. Geared toward being taught or guided by adults, they are enriching for a range of ages and skill levels. Gain firsthand knowledge on your favorite topic with Lab for Kids.

The Beekeeper of Aleppo Christy Lefteri,2020-06-23

This unforgettable novel puts human faces on the Syrian war with the immigrant story of a beekeeper, his wife, and the triumph of spirit when the world becomes unrecognizable. “A beautifully crafted novel of international significance that has the capacity to have us open our eyes and see.”—Heather Morris, author of *The Tattooist of Auschwitz* WINNER OF THE ASPEN WORDS LITERARY PRIZE

• FINALIST FOR THE DAYTON LITERARY PEACE PRIZE •

NAMED ONE OF THE BEST BOOKS OF THE YEAR BY REAL SIMPLE Nuri is a beekeeper and Afra, his wife, is an artist. Mornings, Nuri rises early to hear the call to prayer before driving to his hives in the countryside. On weekends, Afra sells her colorful landscape paintings at the open-air market. They live a simple life, rich in family and friends, in the hills of the beautiful Syrian city of Aleppo—until the unthinkable happens. When all they love is destroyed by war, Nuri knows they have no choice except to leave their home. But escaping Syria will be no easy task: Afra has lost her sight, leaving Nuri to navigate her grief as well as a perilous journey through Turkey and Greece toward an uncertain future in Britain. Nuri is sustained only by the knowledge that waiting for them is his cousin Mustafa, who has started an apiary in Yorkshire and is teaching fellow refugees beekeeping. As Nuri and Afra travel through a broken world, they must confront not only the pain of their own unspeakable loss but dangers that would overwhelm even the bravest souls. Above all, they must make the difficult journey back to each other, a path once so familiar yet rendered foreign by the heartache of displacement. Moving, intimate, and beautifully written, *The Beekeeper of Aleppo* is a book for our times: a novel that at once reminds us that the most peaceful and ordinary lives can be utterly upended in unimaginable ways and brings a journey in faraway lands close to home, never to be forgotten.
