Leveled Books (K-8) Irene C. Fountas,Gay Su Pinnell,2006 For ten years and in two classic books, Irene Fountas and Gay Su Pinnell have described how to analyze the characteristics of texts and select just-right books to use for guided reading instruction. Now, for the first time, all of their thinking and research has been updated and brought together into *Leveled Books, K-8* to form the ultimate guide to choosing and using books from kindergarten through middle school. Fountas and Pinnell take you through every aspect of leveled books, describing how to select and use them for different purposes in your literacy program and offering prototype descriptions of fiction and nonfiction books at each level. They share advice on: the role of leveled books in reading instruction, analyzing the characteristics of fiction and nonfiction texts, using benchmark books to assess instructional levels for guided reading, selecting books for both guided and independent reading, organizing high-quality classroom libraries, acquiring books and writing proposals to fund classroom-library purchases, creating a school book room. In addition, Fountas and Pinnell explain the leveling process in detail so that you can tentatively level any appropriate book that you want to use in your instruction. Best of all, *Leveled Books, K-8* is one half of a new duo of resources that will change how you look at leveled books. Its companion-[www.FountasandPinnellLeveledBooks.com](http://www.FountasandPinnellLeveledBooks.com)-is a searchable and frequently updated website that includes more than 18,000 titles. With *Leveled Books, K-8* you'll know how and why to choose books for your readers, and with [www.FountasandPinnellLeveledBooks.com](http://www.FountasandPinnellLeveledBooks.com), you'll have the ideal tool at your fingertips for finding appropriate books for guided reading. Before the First Word Lorna Crozier,2006-01-01 Lorna Crozier's radical imagination, and the finely tuned emotional intelligence that is revealed in the clarity of her poetry, have made her one of Canada's most popular poets. *Before the First Word: The Poetry of Lorna Crozier* is a collection of thirty-five of her best poems, selected and introduced by Catherine Hunter, and includes an afterword by Crozier herself. Representing her work from 1985 to 2002, the collection reveals the wide range of Lorna Crozier's voice in its most lyrical, contemplative, ironic, and witty moments. Hunter's introduction discusses the poet's major themes, with particular attention to her feminist approach to biblical myth and her fascination with absence and silence as sites for imaginative revision. Crozier's afterword, "See How Many Ends This Stick Has: A Reflection on Poetry," is a lyrical meditation that provides an inspirational glimpse into the philosophy of a writer who prizes the intensity of awareness that poetry demands, and is tantalized by what predates speaking and all that cant be named. An engaging volume that will appeal to undergraduate students as well as general readers of poetry. Lorna Crozier's work has won many awards, including the Governor Generals Award in 1992 (for *Inventing the Hawk*), the first prize for poetry in the CBC Literary Competition, the Canadian Authors Association Award for Poetry in 1992, a National Magazine Award in 1995, and two Pat Lowther Memorial Awards (1993 and 1996) for the best book of poetry by a Canadian woman. She has published fourteen books of poetry, most recently, *Whetstone*. Born in Swift Current, Saskatchewan, she now lives in British Columbia, where she is a Distinguished Professor at the University of Victoria.

*Ellie in Concert* Mike Wu,2018-05-29 Since Ellie saved her home with her wonderful paintings, the zoo is back in business and the animals are more energetic than ever. All except for Lucy the giraffe, who hasn't been able to sleep with all the noise. Determined to help her friend, Ellie tries to tone down the ruckus and organizes the animals into an orchestra. But is it possible to conduct the cacophony of the zoo into beautiful music? Praise for Ellie [Wu's] visual storytelling, rendered in sweet, throwback-style watercolors, shows creativity and poise. . . .

**Concepts of Biology** Samantha Fowler,Rebecca Roush,James Wise,2018-01-07 *Concepts of Biology* is designed for the single-semester introduction to biology course for non-science majors, which for many students is their only college-level science course. As such, this course represents an important opportunity for students to develop the necessary knowledge, tools, and skills to make informed decisions as they continue with their lives. Rather than being mired down with facts and vocabulary, the typical non-science major student needs information presented in a way that is easy to read and understand. Even more importantly, the content should be meaningful. Students do much better when they understand why biology is relevant to their everyday lives. For these reasons, *Concepts of Biology* is grounded on an evolutionary basis and includes exciting features that highlight careers in the biological sciences and everyday applications of the concepts at hand. We also strive to show the interconnectedness of topics within this extremely broad discipline. In order to meet the needs of today's instructors and students, we maintain the overall organization and coverage found in most syllabi for this course. A strength of *Concepts of Biology* is that instructors can customize the book, adapting it to the approach that works best in their classroom. *Concepts of Biology* also includes an innovative art program that incorporates critical thinking and clicker questions to help students understand--and apply--key concepts.

Over the past 25 years, the brand has expanded greatly to include home and general design gifts and products. Now, for the first time ever, comes the book John Derian fans have been waiting for. Culled from the thousands of images that have appeared in his biannual collections, here is an astoundingly beautiful assortment of nearly 300 full-bleed images in their original form. **Why Would Anyone Wear That?** Celia E. Stall-Meadows, 2013-01-01 Bustles. Tight-laced Corsets. Caged crinolines that encased the hapless wearer in hoops of steel. Why would anyone want to wear such things? Yet, you can be certain that no lady of the Victorian upper class would choose to leave home without them—and she'd complete her look with a feather- and flower-festooned bonnet as befit the latest fashion. With a blend of wisdom and wit, *Why Would Anyone Wear That?* explores extreme fashions from around the world. The Victorian era was by no means alone in strange sartorial choices. Throughout history, men and women have turned to clothing and accessories to adorn and accentuate parts of the body. Some of the fashions, like bloomers, were surprisingly functional. Others, like powdered wigs and hobble skirts, were inconvenient and uncomfortable. And a few particularly painful practices could even permanently disfigure the wearer, like brass coils worn in Burma to lengthen the neck and the custom of binding of women's feet to fit tiny lotus slippers in Song dynasty China. Presenting dozens of the most peculiar fashions, including shoes, hats, jewelry, undergarments, and outerwear, the book provides insightful commentary, placing the garments and accessories in the proper historical, social, and cultural context. If you've ever wondered why the codpiece was created or the leisure suit went out of style, this book will answer that question and many more. Fully illustrated and packed with fun facts, *Why Would Anyone Wear That?* introduces readers to the fascinating stories behind some of the world's weirdest fashions.

All Yesterdays John Conway, C. M. Kosemen, Darren Naish, 2013 *All Yesterdays* is a book about the way we see dinosaurs and other prehistoric animals. Lavishly illustrated with over sixty original artworks, *All Yesterdays* aims to challenge our notions of how prehistoric animals looked and behaved. As a critical exploration of palaeontological art, *All Yesterdays* asks questions about what is probable, what is possible, and what is commonly ignored. Written by palaeozoologist Darren Naish, and palaeontological artists John Conway and C.M. Kosemen, *All Yesterdays* is scientifically rigorous and artistically imaginative in its approach to fossils of the past - and those of the future.

*Pursuing Giraffe* Anne Innis Dagg, 2009-08-04 In the 1950s, Anne Innis Dagg was a young zoologist with a lifelong love of giraffe and a dream to study them in Africa. Based on extensive journals and letters home, *Pursuing Giraffe* vividly chronicles the realization of that dream and the year that she spent studying and documenting giraffe behaviour. Dagg was one of the first zoologists to study wild animals in Africa (before Jane Goodall and Dian Fossey); her memoir captures her youthful enthusiasm for her journey, as well as her naïveté about the complex social and political issues in Africa. Once in the field, she recorded the complexities of giraffe social relationships but also learned about human relationships in the context of apartheid in South Africa and colonialism in Tanganyika (Tanzania) and Kenya. Hospitality and friendship were readily extended to her as a white woman, but she was shocked by the racism of the colonial whites in Africa. Reflecting the twenty-three-year-old author's response to an "exotic" world far removed from the Toronto where she grew up, the book records her visits to Zanzibar and Victoria Falls and her climb of Mount Kilimanjaro. *Pursuing Giraffe* is a fascinating account that has much to say about the status of women in the mid-twentieth century. The book's foreword by South African novelist Mark Behr (author of *The Smell of Apples* and *Embrace*) provides further context for and insights into Dagg's narrative.
