Species Diversity of Animals in Japan Masaharu Motokawa, Hiroshi Kajihara, 2016-11-26 This book summarizes the status quo of the knowledge about the biodiversity in terrestrial, freshwater, and marine animals that live in Japan. Consisting of some 6,800 islands that are

arrayed for approximately 3,500 km from north to south, the Japanese archipelago has a complex history in a paleogeographic formation process over time and harbors rich flora and fauna. This work will contribute to establishing a general biogeographic theory in archipelagoes around continental shelves. Facing the ongoing extinction crisis, one of the most important tasks for our generation is to bequeath this precious natural heritage to future generations. As the first step toward this goal, a species list has been compiled through solid, steady alpha-taxonomic work in each taxon. Furthermore, the phylogeography and population genetic structure for each species is elucidated for deeper understanding of the local fauna, the scientific results of which should be the basis for establishing conservation policies and strategies. Also the problem of alien or introduced species is investigated as another threat to the native fauna. Each of the 27 chapters is written by the most active specialist leading the field, thus readers can acquire up-to-date knowledge of the animal species diversity and their formation process of Japanese animals in the most comprehensive form available. This book is recommended for researchers and students who are interested in species diversity, biogeography, and phylogeography.

Sulfur Chemistry Xuefeng Jiang, 2019-08-28 The series Topics in Current Chemistry Collections presents critical reviews from the journal Topics in Current Chemistry organized in topical volumes. The scope of coverage is all areas of chemical science including the interfaces with related disciplines such as biology, medicine and materials science. The goal of each thematic volume is to give the non-specialist reader, whether in academia or industry, a comprehensive insight into an area where new research is emerging which is of interest to a

larger scientific audience. Each review within the volume critically surveys one aspect of that topic and places it within the context of the volume as a whole. The most significant developments of the last 5 to 10 years are presented using selected examples to illustrate the principles discussed. The coverage is not intended to be an exhaustive summary of the field or include large quantities of data, but should rather be conceptual, concentrating on the methodological thinking that will allow the non-specialist reader to understand the information presented. Contributions also offer an outlook on potential future developments in the field.

Introduction to Japanese Horror Film Colette

Balmain, 2008-10-14 This book is a major historical and cultural overview of an increasingly popular genre. Starting with the cultural phenomenon of Godzilla, it explores the evolution of Japanese horror from the 1950s

through to contemporary classics of Japanese horror cinema such as *Ringu* and *Ju-On: The Grudge*. Divided thematically, the book explores key motifs such as the vengeful virgin, the demonic child, the doomed lovers and the supernatural serial killer, situating them within traditional Japanese mythology and folk-tales. The book also considers the aesthetics of the Japanese horror film, and the mechanisms through which horror is expressed at a visceral level through the use of setting, lighting, music and mise-en-scene. It concludes by considering the impact of Japanese horror on contemporary American cinema by examining the remakes of *Ringu*, *Dark Water* and *Ju-On: The Grudge*. The emphasis is on accessibility, and whilst the book is primarily marketed towards film and media students, it will also be of interest to anyone interested in Japanese horror film, cultural mythology and folk-tales, cinematic aesthetics and film theory.

Mizoguchi and Japan Mark Le Fanu, 2019-07-25 For a majority of filmgoers, the names most usually associated

with classic Japanese cinema are those of Kurosawa and Ozu. Yet during the early 1950s, at the same time that Kurosawa was becoming known to the public through the release of classics like *Rashomon* and *The Seven Samurai*, another Japanese director, Kenji Mizoguchi, quietly came out with a trilogy of films - *The Life of Oharu*, *Ugetsu Monogatari* and *Sansho the Bailiff* - that are the equal of Kurosawa's in mastery, and which by any account rank among the greatest and most enduring masterpieces of world cinema. As a storyteller, Mizoguchi was drawn to the plight and oppression of women throughout the ages - it was, for him, the 'subject of subjects'. So in addition to the movies just mentioned, he is remembered for a string of masterly contemporary films that examined, with unprecedented candour and ferocity, the conditions of life in Japanese brothels and geisha houses. Yet, as well as being a moralist. Mizoguchi was a stylist. His films are considered by critics to be among the most beautiful ever made, from a purely pictorial point of view. Filmgoers who have responded enthusiastically in recent years to Chinese classics like *Farewell My Concubine* or to the colourful works of Zhang Yimou will be delighted to discover 'pre-echoes' of this cinema in such late films by this Japanese master as *The Empress Yang Kwei Fei* and *Tales of the Taira Clan* (both released in 1955) works in which colour, costume and decor are deployed with compelling refinement. Despite his extraordinary qualities as a filmmaker, Mizoguchi and Japan is the first full-length study in English for over 20 years of a director whose work is as vibrant now as it ever was in its heyday, and whom the French film review *Cahiers du Cinema* recently hailed 'the greatest of all cineastes.'
