A Dog's Purpose W. Bruce Cameron,2010-07-06 A Dog's Purpose—the #1 New York Times bestseller and major motion picture—is a perfect gift to introduce dog lovers to this wonderful series. Based on the beloved bestselling novel by W. Bruce Cameron, A Dog's Purpose, from director Lasse Hallström (The Cider House Rules, Dear John, The 100-Foot Journey), shares the soulful and surprising story of one devoted dog (voiced by Josh Gad) who finds the meaning of his own existence through the lives of the humans he teaches to laugh and love. The family film told from the dog's perspective also stars Britt Robertson, KJ Apa, John Ortiz, Peggy Lipton, Juliet Rylance, Luke Kirby, Pooch Hall and Dennis Quaid. A Dog's Purpose is produced by Gavin Polone (Zombieland, TV's Gilmore Girls). The film from Amblin Entertainment and Walden Media will be distributed by Universal Pictures. Screenplay by W. Bruce Cameron & Cathryn Michon and Audrey Wells and Maya Forbes & Wally Wolodarsky. Heartwarming, insightful, and often laugh-out-loud funny, A Dog's Purpose is not only the emotional and hilarious story of a dog's many lives, but also a dog's-eye commentary on human relationships and the unbreakable bonds between man and man's best friend. This moving and beautifully crafted story teaches us that love never dies, that our true friends are always with us, and that every creature on earth is born with a purpose. Human Chemistry (Volume One) Libb Thims,2007-09-01 Human chemistry is the study of bond-forming and bond-breaking reactions between people and the structures they form. People often speak of having either good or bad chemistry together: whereby, according to consensus, the phenomenon of love is a chemical reaction. The new science of human chemistry is the study of these reactions. Historically, human chemistry was founded with the 1809 publication of the classic novella Elective Affinities, by German polymath Johann von Goethe, a chemical treatise on the origin of love. Goethe based his human chemistry on Swedish chemist Torbern Bergman's 1775 chemistry textbook A Dissertation on Elective Attractions, which itself was founded on Isaac Newton's 1687

supposition that the cause of chemical phenomena may 'all depend upon certain forces by which the particles of bodies, by some causes hitherto unknown, are either mutually impelled towards each other, and cohere in regular figures, or are repelled and recede from one another'; which thus defines life.

Materials and Processes of Contemporary Sculpture Mahmoud Farag, 2020-01-17 Creating a successful sculpture requires an imaginative concept and a sound design that utilize the potential and avoid the limitations of the material and the process used in making it. Prior to a few decades ago, most sculptors were restricted to carving stone and wood or casting plaster, ceramics and bronze for their creations. Contemporary sculptors, however, are no longer bound by the limitations of these traditional materials and processes, and can now create works in sizes, forms and textures that could not have been achieved previously. Many modern sculptures are now made from materials ranging from steel and aluminum to plastics and composites using processes ranging from welding and adhesive bonding to molding and 3D printing. To fully utilize the full potential of such new materials, the sculptor needs to understand their points of strength, their limitations, and the most effective way of shaping them to achieve a given design. Although this book is written by a materials engineer, the subject matter is presented from the point of view of the sculptor with emphasis on the strengths and weaknesses of different materials, their resistance to weather conditions, natural color and possible surface textures, possible methods of shaping and joining, tools and equipment needed, and safety measures to take. Whenever possible, case studies are used to illustrate the sequence of processes and the cost elements involved in shaping a given material to create an actual work of sculpture.

Let's Talk About Love Claire Kann, 2018-01-23 Striking a perfect balance between heartfelt emotions and spot-on humor, this debut features a pop-culture enthusiast protagonist with an unforgettable voice sure to resonate with readers. Alice had her whole summer planned. Nonstop all-you-can-eat buffets while marathoning her favorite TV shows (best friends totally included) with the smallest dash of adulting—working at the library to pay her share of the rent. The only thing missing from her perfect plan? Her girlfriend (who ended things when Alice confessed she's asexual). Alice is done with dating—no thank you, do not pass go, stick a fork in her, done. But then Alice meets Takumi and she can't stop thinking about him or the rom com-grade romance feels she did not ask for (uncertainty, butterflies, and swoons, oh my!). When her blissful summer takes an unexpected turn and Takumi becomes her knight with a shiny library-employee badge (close enough), Alice has to decide if she's willing to risk their friendship for a love that might not be reciprocated—or understood. Claire Kann's debut novel *Let's Talk About Love*, chosen by readers like you for Macmillan's young adult imprint Swoon Reads, gracefully explores the struggle with emerging adulthood and the complicated line between friendship and what it might mean to be something more. Praise for *Let's Talk About Love* from the Swoon Reads community: "A sweet and beautiful journey about self-discovery and identity!" —Macy Filia, reader on SwoonReads.com "There aren't many novels that have asexual characters and it's something people need more of." —Alice, reader on SwoonReads.com "I want this on my

shelf where I can admire it every day.” –Kiara, reader on SwoonReads.com

Books I–III Ludger Hovestadt, 2022-12-19 Treatise on digital architecture Hovestadt's treatise strictly follows the model of the famous treatises by Vitruvius (*De architectura*) and Alberti (*De re aedificatoria*), based on the supposition that we find ourselves in a comparable situation today. Vitruvius and Alberti expressed the meaning of architecture in their eras: Roman antiquity and the Renaissance. Hovestadt has done the same for the present day, incorporating considerations of physics, mathematics, technology, literature, and philosophy. Books I to III deal with the role of the architect and the objectivity of architecture. Books IV to VI address the modalities of speaking about and encoding architecture: the secret, the public, and the private. Books VII to X are dedicated to actual digital mechanisms: artificial intelligence, natural communication, gnomonics, and cultural heritage. Second Temple Songs of Zion Ruth Henderson, 2014-07-28 Although in Second Temple literature we find a variety of songs concerned with the future of Jerusalem, little attempt has been made to analyse these comparatively as a generic group. In this study, three songs have been selected on the basis of their similarity in style, ideas and their apparent original composition in Hebrew. The texts have been subjected to a literary analysis both individually and then comparatively.

The First Star Trek Movie Sherilyn Connelly, 2019-10-11 The story of Star Trek's resurrection between the 1969 cancellation of the original series and the 1979 release of Robert Wise's Star Trek--The Motion Picture, has become legend and like so many other legends, it tends to get printed instead of the facts. Drawing on hundreds of contemporary news articles and primary sources not seen in decades, this book tells the true story of the first successful Star Trek revival. After several attempts to relaunch the franchise, ST--TMP was released on a wave of prestige promotion, hype, and public frenzy unheard of for a film based on a television show. Controversy surrounded its troubled production and \$44M budget, earning it a reputation at the time as the most expensive movie ever made. After a black-tie premiere in Washington, D.C., its opening in 856 North American theaters broke multiple box-office records--a harbinger of the modern blockbuster era. Despite immediate financial success, the film was panned by both critics and the public, leaving this enterprise nowhere to boldly go but down.
