Max Makes a Million Maira Kalman, 2017-09-12 Max's dream is to live in Paris and be a poet—even though no one will buy his poems and he is penniless. But living in New York City isn't so bad. Where else could he have friends like Bruno, who paints invisible pictures, or Marcello, who builds upside-down houses? *Max Makes a Million* is a fun, jazzy tale filled with Maira Kalman's signature bright and imaginative illustrations. Children will delight in the rhythm and sound of her poetic sentences read out loud, and root for Max the dog as he follows his bigcity dreams.

Moral Kombat 10 Carrie Marchant, Debbie Dunn, 2016-11-24 MORAL KOMBAT utilizes the nation's best practices in all the MK programs including cognitive behavioral approaches, rational emotive behavioral therapy, facilitation, coaching and

mentoring, experiential and service learning, collaborative groups and many more. In order to be effective, facilitators must have, at a very minimum, a basic knowledge of these pedagogical methodologies. Also, at the training, facilitators will get an insight on the MK10's Tobacco Intervention curriculum for teens called MK10 Tobacco Deterrence SMOKE FREE 4 ME and this program's experiential learning activities. The purchase of a facilitator manual is mandatory for anyone who plans to utilize, in a group setting, the MK10 curriculum. It is expected that all those who want certification in MORAL KOMBAT attend training in these approaches. Training in the pedagogy and methodologies of MK is strongly recommended and certification in MK will not occur unless training is obtained through FLP.

Atlas of Imagined Places Matt Brown, Rhys B. Davies, 2021-09-28 WINNER, Edward Stanford Travel Writing Awards 2022: Illustrated Travel Book of the Year. HIGHLY COMMENDED, British Cartographic Society Awards 2022. From Stephen King's Salem's Lot to the superhero land of Wakanda, from Lilliput of Gulliver's Travels to Springfield in The Simpsons, this is a wondrous atlas of imagined places around the world. Locations from film, tv, literature, myths, comics and video games are plotted in a series of beautiful vintage-looking maps. The maps feature fictional buildings, towns, cities and countries plus mountains and rivers, oceans and seas. Ever wondered where the Bates Motel was based? Or Bedford Falls in It's a Wonderful Life? The authors have taken years to research the likely geography of thousands of

popular culture locations that have become almost real to us. Sometimes these are easy to work out, but other times a bit of detective work is needed and the authors have been those detectives. By looking at the maps, you'll find that the revolution at Animal Farm happened next to Winnie the Pooh's home. Each location has an extended index entry plus coordinates so you can find it on the maps. Illuminating essays accompanying the maps give a great insight into the stories behind the imaginary places, from Harry Potter's wizardry to Stone Age Bedrock in the Flintstones. A stunning map collection of invented geography and topography drawn from the world's imagination. Fascinating and beautiful, this is an essential book for any popular culture fan and map enthusiast.

Allard Alan Allard, Lance Cole, 2020-03-24 The remarkable story of everything Sydney Herbert Allard achieved in motor sport and motor car manufacture is framed in an up-to-date commentary co-authored by his own son. This is a tribute unswayed by legend, but based on the facts and achievements of his eponymous company. With contributions from the Allard Owners' Club and Allard Register, this book contains painstaking research of Allard history from 1929 to present day.

Aston Martin Ulster Stephen Archer, 2018-10-16 CMC 614 is the registration number of an historic Aston Martin Ulster which has, without doubt, competed in more races than any other Aston. Built in 1935 to the same specification as the factory team cars, it took part in the Le Mans 24 Hour

race, the Mille Miglia, and the Tourist Trophy in 1935. Eddie Hall and Count Johnny Lurani were among the celebrated drivers who raced it in its first season. The 1.5 litre Ulster model marked the peak of Aston's pre-war achievements and marque enthusiasts recognize CMC 614 as one of the finest examples of the 28 made – as well as the most raced Aston of all time.

VW GTI, Golf, Jetta, MK III & IV Kevin Clemens, Volkswagen's GTI, Golf, and Jetta are long-time favorites among sport-compact performance enthusiasts. With engines ranging from the 2.0 liter naturally-aspirated four-cylinder to the 1.8 liter turbo 4 to the VR6, the Mk III and Mk IV generations (1993-2004) offer tuners a wealth of opportunities. This book turns these opportunities into realities, from deciding which vehicle to buy, to keeping it running in tip-top condition, to enhancing the performance and appearance of your VW. Focusing on the engine, wheels and tires, suspension, body kits, interiors, and more, each project includes straightforward instruction along with details about the necessary parts, cost, time, and skill. If you want to get the biggest bang for your VW buck, this book is your road map.

Deluxe World War Robot Ashley Wood, T P Louise, 2013-08-13 It's total robot war! In development to be a major motion picture, Ashley Wood's World War Robot tells the tale of a dwindling band of humans and robots who face off in a battle that will likely end humanity as we know it -- on Earth, on the Moon, and on Mars,

too! Badass battles, really intense human/robot drama, and even a little black humor and political intrigue are the order of the day in this oversize epic that collects both previous books in one deluxe hardcover volume along with nearly 50 pages of new material.

Digital Image Capture and File Storage Steve Cole (Photographer), Paul Backhouse, 2015 The silver-based emulsion and chemical process used successfully for many years for the capture and storage of images has now largely been superseded by the introduction of digital technology. The widespread use of digital cameras among imaging professionals, archaeologists and the general public has created a vast array of digital information. If this information is to be of use now and for future generations, it requires the application of a systematic approach to how it is captured and stored. Digital technology is still in its infancy compared with the long-established technique of using silver-based emulsions on glass plate or film to produce images that have, with suitable development and storage, proven to be stable and enduring. Some would argue that our records should still be made in this way, but film is becoming more difficult to source. In addition, film-processing laboratories are disappearing from our high streets, making local processing a thing of the past in all but the largest cities. The tide has turned in favour of digital image capture, which offers many benefits that offset its unproven longevity. However, part of the problem with the digital environment is that its boundaries and possibilities are constantly

changing. This publication offers guidance on digital image capture and storage to assist those involved with the making and keeping of images of the historic environment. It does not provide definitive answers regarding the problems of taking and storing digital images but does provide an overview of current recommendations.

Badami, Aihole, Pattadakal George Michell, 2016
The town of Badami, the nearby villages of Aihole and Pattadakal, and the pilgrimage site of Mahakuta, in the Malprabha valley of central Karnataka, are celebrated for their magnificent rock-cut shrines and structural temples. These Hindu and Jain monuments are associated with the Early Chalukyas who reigned over this part of the Deccan during the 6th-8th centuries. Together with a profusion of magnificent sculptures, mostly found in situ, these shrines and temples may be considered among the earliest, best preserved vestiges of temple art in India. This guidebook, the first ever for the Badami region, is authored by a scholar whose PhD was on Early Chalukya architecture. The text is illustrated with regional and town maps, building plans, and more than 130 splendid color photographs.

Photography with Tilt and Shift Lenses Keith Cooper, 2020-11-23
Tilt and shift lenses offer tremendous creative possibilities for users of digital SLR and mirrorless cameras. This practical book explains the techniques that will help you

take better photos - photos that don't distort or lose focus. Assessing the benefits and pitfalls of a range of lenses, adapters, software and editing techniques, it guides you through the practicalities of working with these lenses and gives you the skills to use them to best effect. With stunning examples throughout, this book gives an overview of the different lenses available, and tips on how adapters can give tilt/shift options when using old medium-format lenses. It gives advice on how simple lens shift can change the entire look of your photos, and techniques for using lens tilt for focus control and close-up working. Stunning examples show the use of tilt and shift lenses across a range of available focal lengths, both tripod-mounted and handheld.

The Red Knight John Charles Corrigan, 2023-08-01
The Red Knight is the product of 25 years of meticulous research. It is, arguably, the most comprehensive account ever written about the Canadian Air Force's legendary solo jet-aerobatics performer. An important part of Canadian aviation history, the Red Knight is third in longevity and total number of performances among RCAF display teams. In recognition of the program's importance, Canada's Aviation Hall of Fame honoured the Red Knight with its Belt of Orion Award for Excellence in 2020 and the Royal Canadian Mint issued a commemorative coin in 2022. The Red Knight chronicles the history of the program, from its origins in 1957 to its cancellation in 1970. Everyone who has enjoyed watching the precision, grace and beauty of aerobatic flight will enjoy this insight into the "behind the scenes" aspect

of aerial displays. A fine addition to any aviation reference library, The Red Knight will be of particular interest to anyone who remembers the program or saw a performance of this uniquely Canadian display. Printed in colour, The Red Knight - Second Edition is illustrated with many rare photographs never published before. The book is further enhanced by specially commissioned works of art from noted Canadian Aviation Artist, Don Connolly. Details of the various Red Knight paint schemes are provided through aircraft profiles, also specifically created for this publication. Together, this unique pictorial collection vividly portrays the legacy of the Red Knight. <https://www.facebook.com/rcafredknight> www.johncharlescorrigan.com It's hard to imagine a more comprehensive look at the Red Knight program - and at aerobatics in general. – Kirkus Reviews
