Surviving Raine Shay Savage,2013-06-20 As the captain of a schooner catering to the elite on the Caribbean Seas, Sebastian Stark does his best to avoid any human encounters. Interacting with people isn't his thing, and he prefers the company of a bottle of vodka, a shot glass, and maybe a whore. There's no doubt he's hiding from a checkered past, but he does well keeping everything to himself ... until the night his schooner capsizes, and he's stuck on a life raft with one of the passengers. Raine's young, she's cute, and Bastian would probably be into her if he wasn't suffering from alcohol withdrawal. As the days pass, DTs, starvation, and dehydration become the norm. Even the most closed person starts to open up when he thinks he's going to die, but when she realizes their traumatic pasts are connected, it's no longer the elements that have Bastian concerned. He has no idea how he's going to survive Raine.

Let's Pretend This Never Happened Jenny Lawson,2013-03-05 The #1 New York Times bestselling (mostly true) memoir from the hilarious author of *Furiously Happy*. “Gaspingly funny and wonderfully inappropriate.”—O, The Oprah Magazine When Jenny Lawson

was little, all she ever wanted was to fit in. That dream was cut short by her fantastically unbalanced father and a morbidly eccentric childhood. It did, however, open up an opportunity for Lawson to find the humor in the strange shame-spiral that is her life, and we are all the better for it. In the irreverent *Let's Pretend This Never Happened*, Lawson's long-suffering husband and sweet daughter help her uncover the surprising discovery that the most terribly human moments—the ones we want to pretend never happened—are the very same moments that make us the people we are today. For every intellectual misfit who thought they were the only ones to think the things that Lawson dares to say out loud, this is a poignant and hysterical look at the dark, disturbing, yet wonderful moments of our lives. The Comprehension Toolkit Stephanie Harvey, Anne Goudvis, 2005 Grades 3-6 Active literacy is the means to deeper understanding and diverse, flexible thinking, and is the hallmark of our approach to teaching and learning. Reading, writing, talking, listening, and investigating are the cornerstones of active literacy. The Toolkit captures the language of thinking we use to explicitly teach kids to comprehend the wide variety of informational text they encounter. Through the Toolkit lessons, we demonstrate how the kids adopt and adapt our teaching language as their learning language. - Stephanie Harvey and Anne Goudvis In *The Comprehension Toolkit*, Stephanie Harvey and Anne Goudvis have created an intensive curricular resource designed to help students understand, respond to, and learn from nonfiction text. By actively engaging students in reading, talking, and writing about information and ideas, *The Comprehension Toolkit* provides a foundation for developing independent readers and learners across the curriculum and throughout the school year. Framed around the Gradual Release of Responsibility approach, *The Comprehension Toolkit* provides scaffolded comprehension strategy instruction. First through modeling and guided practice, then releasing responsibility to students through collaborative practice, independent practice, and application, the Toolkit's lessons teach students to use comprehension strategies flexibly in a variety of texts, topics, and subject areas. Professional Support A series of resources introduce, support, and extend the Toolkit's core lessons. The Teacher's Guide outlines the thinking behind the Toolkit and describes its components, instructional design, and assessment options. The Resources for *The Comprehension Toolkit* CD-ROM provides an array of print and video resources including a photographic overview of an Active Literacy Classroom, downloadable research articles, templates, assessment masters, and full-colour lesson text. Extend and Investigate helps you extend the Toolkit's comprehension strategies across the curriculum and throughout the year. It provides strategies for content area reading and research, textbook reading, test reading, and a variety of practical bibliographies. 6 Strategy Clusters The 26 strategy lessons in *The Comprehension Toolkit* are organized into six Strategy Cluster books. Informational Text A series of short, engaging, real-world informational texts provide an effective context for using and practising the Toolkit's comprehension strategies. The Source Book of Short Text provides two kinds of nonfiction text: Lesson Text, 24 articles from children's magazines; and Nonfiction Short Text, 43 short informational articles specially written for the Toolkit.

Resilience Project, The Hugh van Cuylenburg,2019-11 THE NATIONAL BESTSELLER *1 in 4 adolescents have a mental illness *1 in 7 primary school kids have a mental illness *1 in 5 adults will experience mental ill-health throughout the year *65% of adolescents do not seek help for mental illness Hugh van Cuylenburg was a primary school teacher volunteering in northern India when he had a life-changing realisation- despite the underprivileged community the children were from, they were remarkably positive. By contrast, back in Australia Hugh knew that all too many people found it hard to be happy, or suffered from mental illnesses such as depression and anxiety. His own little sister had been ravaged by anorexia nervosa. How was it that young people he knew at home, who had food, shelter, friends and a loving family, struggled with their mental health, while these kids seemed so contented and resilient? He set about finding the answer and in time came to recognise the key traits and behaviours these children possessed were gratitude, empathy and mindfulness. In the ensuing years Hugh threw himself into studying and sharing this revelation with the world through The Resilience Project, with his playful and unorthodox presentations which both entertain and inform. Now, with the same blend of humour, poignancy and clear-eyed insight that The Resilience Project has become renowned for, Hugh explains how we can all get the tools we need to live a happier and more fulfilling life. In this book you will discover- * Powerful and touching stories from people Hugh has met and helped during his years on the road spreading the message of resilience. * An exploration of the neuroscience of 'resilience' and how we can address it. * The crucial role of parents in helping raise happier children (and how to do it). 'Hilarious, inspiring and heartbreakingly vulnerable, this book has the potential to be life-changing' Missy Higgins
