Research Directions, Challenges and Achievements of Modern Geography Jerzy Bański,Michael Meadows,2023-12-01 This book identifies and discusses research directions, challenges and achievements in contemporary geography. It also documents the most current theoretical and methodological considerations undertaken by scientists representing various sub-disciplines of geography with particular reference to human geography. It was assumed that the thematic structure of the currently active International Geographical Union (IGU) problem commissions corresponds to the most relevant and current research directions in geography. Reflecting this assumption, the book consists of 14 chapters contributed by geographers representing 14 problem commissions of the IGU, which allows us to examine geography from different perspectives and to provide the reader with a complete overview of contemporary research issues in human geography. The first part discusses contemporary research problems and issues related to scientific methodology and achievements of selected geographical sub-disciplines, including urban geography, agricultural geography, transport geography, and political geography, among others. The second part focuses on the interdisciplinarity of geography and the topics of global dimension undertaken by geographers such as global change, GIS and geospatial technology, marginalization, and environmental change. This part also discusses the internal relations between geographical specializations and their links with other related sciences, including geology, sociology, and economics. The third part discusses the holistic approaches of geography applied to particular regions, territories, or conditions (Africa, coastal systems, geomorphology and local development).

Architectural Theories of the Environment Ariane Lourie Harrison,2013 Humans are the largest environmental force on the planet, making this a new geologic era: The Anthropocene. As architects and designers, we struggle to reconcile the ever increasing environmental, humanitarian, and technological demands placed on our projects. Here, for the first time, editor Ariane Lourie Harrison collects the essays of architects, theorists, and sustainable designers that together provide a framework to help you develop your own guidelines to approaching your work. Each introduction defines a key term, such as biopolitics, animalization, and sociotechnical model, to increase your design vocabulary and highlight themes from the readings. Nine case studies from five countries demonstrate these concepts, so that you can see theory made concrete--

Framing China Ariane Knüsel,2016-04-15 Framing China sheds new light on Western relations with and perceptions of China in the first half of the twentieth century. In this ground-breaking book, Ariane Knüsel examines how China was portrayed in political debates and the media in Britain, the USA and Switzerland between 1900 and 1950. By focusing on the political, economic, cultural and social context that led to the construction of the particular images of China in each country, the author demonstrates that national interests, anxieties and issues influenced the way China was framed and resulted in different portrayals of China in each country. The author's meticulous analysis of a vast amount of newspaper and magazine articles, commentaries, editorials, cartoons and newsreels that have previously not been studied before also focuses on the transnational circulation of images of China. While previous publications have dealt with the occurrence of the Yellow Peril and Red Menace in particular countries, Framing China reveals that these images were interpreted differently in every nation because they both reflected and contributed to the discursive construction of nationhood in each country and were influenced by domestic issues, cultural values, pre-existing stereotypes, pressure groups and geopolitical aspirations.

The Ariane Trilogy Michelle Dare,2023-06-21 Enter the world of the Avynwood Pack with this complete trilogy. A kept secret. A life altered. A new journey. Ariane lived her life one book at a time. She would never have guessed those books were about to change everything. They led her to

Orion. Tall, dark, with eyes only for her. The rest of the world ceased to exist when Orion was around. But during a fateful ash moon, he shifted into a wolf. Ari thought she was dreaming, but she'd recognize those eyes anywhere. Fiction became reality. Fantasy was actually history. And soon, Ari would learn her role in it. A pack war was on the horizon, and she was the only one who could stop it. Nothing would ever be as it once was, because Ariane was now part of the Avynwood Pack.

Ariane & Bluebeard Matthew G. Brown, Thomas Emil Homerin, 2022-11 — Matthew Brown developed this project through his founding of TableTopOpera, a group of scholars and performers committed to performing multimedia projects promoting classical music to general audiences. TableTop's production, a reductionist fantasy based on Ariane et Barbe-bleue, played an adaptation of Paul Dukas's original score while panels of P. Craig Russell's popular graphic novel Ariane and Bluebeard, Op. 26 streaked across the auditorium screen. Brown wrote the score and the show was called a miracle of collaborative creation thanks to all editing decisions made in regard not only to Brown's profound knowledge of the epoch and Russell's passion for the opera but of the demanding virtuosos who would be playing it, for the multimedia skills it would require – and for a strong commitment to the integrity of the original score. Th. Emil Homerin produced the show. This book, based off the performance project, already is being marketed through TableTopOpera. Contributors to the volume include an opera singer and instructor from the Metropolitan Opera's production of Bluebeard's Castle, the celebrated comic and graphic artist P. Craig Russell, and scholars in classics, religion, history, women and gender studies, and rare books. — Although the premier of Ariane et Barbe-bleue is frequently lauded as a landmark in operatic history, there is at present no book devoted solely to its history, structure, reception, and cultural implications. — This book will stand out on our music list and contribute to our reputation for publishing books on multimedia topics by touching on such diverse subjects as opera, comic books, and animated movies. Further, it contributes to our list of significant works on women and gender studies. — Our target audience includes students, scholars, and readers interested in musicology, particularly Paul Dukas, French music, and multimedia opera. Other related interests include histories of print, multimedia, and comic works, philosophical discussion of Plato and mysticism, and French symbolist literature.

Nightbitch Rachel Yoder, 2021-07-20 In this blazingly smart and voracious debut novel, an artist turned stay-at-home mom becomes convinced

she's turning into a dog. • A must-read for anyone who can't get enough of the ever-blurring line between the psychological and supernatural that Yellowjackets exemplifies. —Vulture One day, the mother was a mother, but then one night, she was quite suddenly something else... An ambitious mother puts her art career on hold to stay at home with her newborn son, but the experience does not match her imagination. Two years later, she steps into the bathroom for a break from her toddler's demands, only to discover a dense patch of hair on the back of her neck. In the mirror, her canines suddenly look sharper than she remembers. Her husband, who travels for work five days a week, casually dismisses her fears from faraway hotel rooms. As the mother's symptoms intensify, and her temptation to give in to her new dog impulses peak, she struggles to keep her alter-canine-identity secret. Seeking a cure at the library, she discovers the mysterious academic tome which becomes her bible, *A Field Guide to Magical Women: A Mythical Ethnography*, and meets a group of mommies involved in a multilevel-marketing scheme who may also be more than what they seem. An outrageously original novel of ideas about art, power, and womanhood wrapped in a satirical fairy tale, *Nightbitch* will make you want to howl in laughter and recognition. And you should. You should howl as much as you want.

Körperbilder der Macht in Europa: 1300-1800 Jörgen Bellin, Ulrich Pfisterer, 2022-12-05 The visualization of power takes place until today quite significantly via visualizations of the body. Expressed pointedly: there is no power without pictures of the body. This also applies in particular to the European societies of the Middle Ages and early modern period, in which the body of the ruler was both a guarantee and a preferred projection figure for the political order. In this body, not only was power legitimized, but also constituted in the first place by means of countless documents of representation — and thus through pictures of the body in actu. This volume strives for the first time to “spell out” an “iconography of the political in action”.
