Framing China Ariane Knüsel,2016-04-15 Framing China sheds new light on Western relations with and perceptions of China in the first half of the twentieth century. In this ground-breaking book, Ariane Knüsel examines how China was portrayed in political debates and the media in Britain, the USA and Switzerland between 1900 and 1950. By focusing on the political, economic, cultural and social context that led to the construction of the particular images of China in each country, the author demonstrates that national interests, anxieties and issues influenced the way China was framed and resulted in different portrayals of China in each country. The author's meticulous analysis of a vast amount of newspaper and magazine articles, commentaries, editorials, cartoons and newsreels that have previously not been studied before also focuses on the transnational circulation of images of China. While previous publications have dealt with the occurrence of the Yellow Peril and Red Menace in particular countries, Framing China reveals that these images were interpreted differently in every nation because they both reflected and contributed to the discursive construction of nationhood in each country and were influenced by domestic issues, cultural values, pre-existing stereotypes, pressure groups and geopolitical aspirations.

She would never have guessed those books were about to change everything. They led her to Orion. Tall, dark, with eyes only for her. The rest of the world ceased to exist when Orion was around. But during a fateful ash moon, he shifted into a wolf. Ari thought she was dreaming, but she'd recognize those eyes anywhere. Fiction became reality. Fantasy was actually history. And soon, Ari would learn her role in it. A pack war was on the horizon, and she was the only one who could stop it. Nothing would ever be as it once was, because Ariane was now part of the Avynwood Pack.

Free to Make Dale Dougherty,2016-09-27 A fascinating study of the global Maker Movement that explores how ‘making’ impacts our personal and social development—perfect for enthusiastic DIY-ers Dale Dougherty, creator of MAKE: magazine and the Maker Faire, provides a guided tour of the international phenomenon known as the Maker Movement, a social revolution that is changing what gets made, how it’s made, where it’s made, and who makes it. Free to Make is a call to join what Dougherty calls the “renaissance of making,” an invitation to see ourselves as creators and shapers of the world around us. As the internet thrives and world-changing technologies—like 3D printers and tiny microcontrollers—become increasingly affordable, people around the world are moving away from the passivity of one-size-fits-all consumption and command-and-control models of education and business. Free to Make explores how making revives abandoned and neglected urban areas, reinvigorates community spaces like libraries and museums, and even impacts our personal and social development—fostering a mindset that is engaged, playful, and resourceful. Free to Make asks us to imagine a world where making is an everyday occurrence in our schools, workplaces, and local communities, grounding us in the physical world and empowering us to solve the challenges we face.
