Super Mario Jeff Ryan, 2012-09-25 The definitive story of the rise of Nintendo. In 1981, Nintendo of America was a one-year-old business already on the brink of failure. Its president, Mino Arakawa, was stuck with two thousand unsold arcade cabinets for a dud of a game (Radar Scope). So he hatched a plan. Back in Japan, a boyish, shaggy-haired staff artist named Shigeru Miyamoto designed a new game for the unsold cabinets featuring an angry gorilla and a small jumping man. Donkey Kong brought in \$180 million in its first year alone and launched the career of a short, chubby plumber named Mario. Since then, Mario has starred in over two hundred games, generating profits in the billions. He is more recognizable than Mickey Mouse, yet he's little more than a mustache in bib overalls. How did a mere smear of pixels gain such huge popularity? Super Mario tells the story behind the Nintendo games millions of us grew up with, explaining how a Japanese trading card company rose to dominate the fiercely competitive video-game industry.

Frieda's Song Ellen Prentiss Campbell, 2021-05-25 Frieda's Song, a novel, is inspired by renowned psychiatrist Frieda Fromm-Reichmann. Fleeing Nazi Germany in 1935, she came to the Chestnut Lodge Sanatorium in Rockville, Maryland. Frieda worked there for the rest of her life, establishing the Lodge's reputation for innovative treatment of mental illness, dying in her custom-built cottage on the grounds under mysterious circumstances in 1957. Decades later, psychotherapist Eliza Kline and her teenage son Nick live in Frieda's Cottage, next door to the closed and abandoned hospital. As told by Frieda, Eliza, and Nick, the novel explores the tension between love and work, the strength and limits of relationship, and what healers must do to heal themselves. Frieda's Song is a tale of the way history and chance, and the work and people we love,

shape our lives-and how the past is always present, haunting us.

Love, Lucas Chantele Sedgwick, 2015-05-05 A 2015 Whitney Award Nominee! A powerful story of loss, second chances, and first love, reminiscent of Sarah Dessen and John Green. When Oakley Nelson loses her older brother, Lucas, to cancer, she thinks she'll never recover. Between her parents' arguing and the battle she's fighting with depression, she feels nothing inside but a hollow emptiness. When Mom suggests they spend a few months in California with Aunt Jo, Oakley isn't sure a change of scenery will alter anything, but she's willing to give it a try. In California, Oakley discovers a sort of safety and freedom in Aunt Jo's beach house. Once they're settled, Mom hands her a notebook full of letters addressed to her—from Lucas. As Oakley reads one each day, she realizes how much he loved her, and each letter challenges her to be better and to continue to enjoy her life. He wants her to move on. If only it were that easy. But then a surfer named Carson comes into her life, and Oakley is blindsided. He makes her feel again. As she lets him in, she is surprised by how much she cares for him, and that's when things get complicated. How can she fall in love and be happy when Lucas never got the chance to do those very same things? With her brother's dying words as guidance, Oakley knows she must learn to listen and trust again. But will she have to leave the past behind to find happiness in the future? Heavy Ground Norris Hundley, Donald C. Jackson, Jean Patterson, 2016-01-26 Minutes
before midnight on March 12, 1928, the St. Francis Dam collapsed, sending more than 12 billion gallons of water surging through California's Santa Clara Valley and killing some 400 people, causing the greatest civil engineering disaster in twentieth-century American history. This extensively illustrated volume gives an account of how the St. Francis Dam came to be built, the reasons for its collapse, the terror and heartbreak brought by the flood, the efforts to restore the Santa Clara Valley, the political factors influencing investigations of the failure, and the effect of the disaster on dam safety regulation. Underlying all is a consideration of how the dam and the disaster were inextricably intertwined with the life and career of William Mulholland.

Night Siege Joseph Allen Hynek, Philip J. Imbrogno, Bob Pratt, 1998 In 1983, a few miles north of New York City, hundreds of people were startled to see a UFO - a series of flashing lights that formed a V as big as a football field, moving slowly and silently. This text explores all the evidence and over 7000 sightings, including those recorded up to 1995.

Resisting Postmodern Architecture Stylianos Giamarellos, 2022-01-10 Since its first appearance in 1981, critical regionalism has enjoyed a celebrated worldwide reception. The 1990s increased its pertinence as an architectural theory that defends the cultural identity of a place resisting the homogenising onslaught of globalisation. Today, its main principles (such as acknowledging the climate, history, materials, culture and topography of a specific place) are integrated in architects' education across the globe. But at the same time, the richer cross-cultural history of critical regionalism has been reduced to schematic juxtapositions of 'the global' with 'the local'. Retrieving both the globalising branches and the overlooked cross-cultural roots of critical regionalism, *Resisting Postmodern Architecture* resituates critical regionalism within the wider

framework of debates around postmodern architecture, the diverse contexts from which it emerged, and the cultural media complex that conditioned its reception. In so doing, it explores the intersection of three areas of growing historical and theoretical interest: postmodernism, critical regionalism and globalisation. Based on more than 50 interviews and previously unpublished archival material from six countries, the book transgresses existing barriers to integrate sources in other languages into anglophone architectural scholarship. In so doing, it shows how the 'periphery' was not just a passive recipient, but also an active generator of architectural theory and practice. Stylianos Giamarelos challenges long-held 'central' notions of supposedly 'international' discourses of the recent past, and outlines critical regionalism as an unfinished project apposite for the 21st century on the fronts of architectural theory, history and historiography.

The Luminous Novel Mario Levrero, 2021

Super Mario Bros. 3 Bob Chipman, Robert Chipman, 2013-04-19

The Decline and Fall of the Lettered City Jean FRANCO, Jean Franco, 2009-06-30 The cultural Cold War in Latin America was waged as a war of values--artistic freedom versus communitarianism, Western values versus national cultures, the autonomy of art versus a commitment to liberation struggles--and at a time when the prestige of literature had never been higher. The projects of the historic avant-garde were revitalized by an anti-capitalist ethos and envisaged as the opposite of the republican state. The Decline and Fall of the Lettered City charts the conflicting universals of this period, the clash between avant-garde and political vanguard. This was also a twilight of literature at the threshold of the great cultural revolution of the seventies and eighties, a revolution to which the Cold War indirectly contributed. In the eighties, civil war and military rule, together with the rapid development of mass culture and communication empires, changed the political and cultural map. A long-awaited work by an eminent Latin Americanist widely read throughout the world, this book will prove indispensable to anyone hoping to understand Latin American literature and society. Jean Franco guides the reader across minefields of cultural debate and histories of highly polarized struggle. Focusing on literary texts by Garcia Marquez, Vargas Llosa, Roa Bastos, and Juan Carlos Onetti, conducting us through this contested history with the authority of an eyewitness, Franco gives us an engaging overview as involving as it is moving.

The United Nations and Civil Society Nora McKeon, 2009-08-01 The UN is able to recognize key global challenges, but beset by difficulties in trying to resolve them. In this, it represents the current global political balance, but is also the only international institution that could move it forward. Civil society can be a catalyst for this kind of change. In this book, Nora McKeon provides a comprehensive analysis of UN engagement with civil society. The book pays particular attention to food and agriculture, which now lie at the heart of global governance issues. McKeon shows that politically meaningful space for civil society can be introduced into UN policy dialogue. The United Nations and Civil Society also makes the case that it is only by engaging with organizations which legitimately speak for the 'poor' targeted by the Millennium Development Goals that the UN can promote equitable, sustainable development and build global democracy from the ground up. This book has strong ramifications for global governance, civil society and the contemporary debate over the future of food.
