**Tokyo on Foot** Florent Chavouet, 2012-10-23 This prize-winning book is both an illustrated tour of a Tokyo rarely seen in Japan travel guides and an artist's warm, funny, visually rich, and always entertaining graphic memoir. Florent Chavouet, a young graphic artist, spent six months exploring Tokyo while his girlfriend interned at a company there. Each day he would set forth with a pouch full of color pencils and a sketchpad, and visit different neighborhoods. This stunning book records the city that he got to know during his adventures. It isn't the Tokyo of packaged tours and glossy guidebooks, but a grittier, vibrant place, full of ordinary people going about their daily lives and the scenes and activities that unfold on the streets of a bustling metropolis. Here you find businessmen and women, hipsters, students, grandmothers, shopkeepers, policemen, and other urban types and tribes in all manner of dress and hairstyles. A temple nestles among skyscrapers; the corner grocery anchors a diverse assortment of dwellings, cafes, and shops--often tangled in electric lines. The artist mixes styles and tags his pictures with wry comments and observations. Realistically rendered advertisements or posters of pop stars contrast with cartoon sketches of iconic objects or droll vignettes, like a housewife walking her pet pig, a Godzilla statue in a local park, and an urban fishing pond that charges 400 yen per half hour. This very personal guide to Tokyo is organized by neighborhood with hand-drawn maps that provide an overview of each neighborhood, but what really defines them is what caught the artist's eye and attracted his formidable drawing talent. Florent Chavouet begins his introduction by observing that, Tokyo is said to be the most beautiful of ugly cities. With wit, a playful sense of humor, and the multicolor pencils of his kit, he sets aside the question of urban ugliness or beauty and captures the Japanese essence of a great city in this truly vital portrait.

*Media and Disaster Risk Reduction* Rajib Shaw, Suvendrini Kakuchi, Miki Yamaji, 2021-03-16 This book analyzes recent advances, trends, challenges and potentials of the role of media in disaster risk reduction. Collaboration, co-design and co-delivery with other stakeholders in science technology, private sectors, and civil society are found to be effective in reaching people and communities. The media is considered to be of utmost importance in all phases of disasters, before, during and after, with different types of media having different proactive roles to play in disaster risk reduction. Before disasters, they play essential roles not only in bringing early warning to people but also in enhancing their perception of the need to take action. At during- and post-disaster response recovery phases, community radio and social media are the key. These necessitate a resilient media infrastructure as the core of uninterrupted coverage. Media literacy has become an important issue for several stakeholders, including governments. In addition, more focus is placed on media governance to look at the priorities of disaster risk reduction initiatives within the media. All of these are considered to lead to trust in the media, which further improves people's disaster response actions based on information from the media, before and during disasters. Covering different aspects of media, this book is a valuable source for students, researchers, academics, policy-makers and development practitioners.
