A Field Guide to Tropical Reef Fishes of the Indo-Pacific Gerald R. Allen, 2020-08-04 Now available in the US, this is the revised and expanded fifth edition of a book that has been the standard reference work for divers, anglers and scientists for over 30 years. The new edition covers 1,670 fish species found in the seas of tropical Southeast Asia, the Southern Pacific islands and Australia--including the Great Barrier Reef, Malaysia, Indonesia, Thailand, Vietnam and the Philippines. A must-have reference for divers, marine biologists, ecologists, commercial fisheries and sports anglers, this book includes a comprehensive identification guide to the families of reef fishes, with a definitive index. An informative and detailed Introduction includes area coverage; faunal composition; biology, behavior and ecology of reef fishes; classification of fishes, and much more. Originally published as *Marine Fishes of South-East Asia*, this edition contains numerous revisions in nomenclature affecting both the scientific Latin names and common names of the region's fishes. In all cases these have been made to reflect the current universally-accepted terminology. The common names in this book are the result of a recent initiative undertaken by the Australian Government and Seafood Services Australia. Each species is depicted in detailed, full-color illustrations by noted marine artists Roger Swainston and Jill Ruse, including over 35 new species. In many cases, the illustrations show both male and female examples. With more than 2,000 illustrations and 29 color photographs, this definitive field guide will continue to be an invaluable resource for professionals and hobbyists alike.

Tropical Reef Fishes Gerald Allen, Gerald R. Allen, Roger C. Steene, 1997 A feast of colors, shapes, and sizes, this book contains descriptions and photos of over 50 aquatic species found in tropical waters. With authoritative text by a noted marine biologist, and fabulous color photographs by some of the world's leading underwater photographers, this is a handy field guide for snorkellers and divers alike. *Periplus Tropical Nature Guides* are practical field guides, useful for identifying various natural objects ranging from plants and animals to gemstones and seashells. Each page of each title throughout the series is filled with clear, precise photographs and informative text. Scientific and local language names are given. *Periplus Nature Guides* provide an introduction to some of the more common natural phenomena that occur in Southeast Asia. Each title is comprised of an introduction, followed by an in-depth look at 50 to 60 species, each illustrated in full-color.

Sturgeon Fishes Tatiana A. Dettlaff, Anna S. Ginsburg, Olga I. Schmalhausen, 2012-12-06 This book is the first comprehensive description of development of the Acipenserid fish published in the English language. It contains the results of more than 40 years of studies by the authors and their colleagues. My own life in science has been intimately related both with the authors and the fish, which are the subject of this book. Therefore, it gives me a great pleasure to present to the English reader an expanded version of the book. Those interested in the history of biology must be well aware of the fact that genetics in the USSR was practically demolished by Lysenko at the session of the Lenin All-Union Academy of Agricultural Sciences in 1948. However, it is much less well known that other fundamental branches of biology were also persecuted at that time, experimental embryology (developmental mechanics) among them. As a result, many embryologists, including the authors of this book, were forced to turn to more applied problems, this being the only way to continue research. They had to abandon amphibians and concentrate their efforts on sturgeon.

Burmese Dominoes David C. Dagley, 2020-09-10 A plane crash in the jungle of eastern Myanmar unites a father who never knew he had a daughter, and a daughter who never knew who her father was. After trekking the Tibetan border with Nepal, Reed Dempsey hops a plane bound for Delhi and a connecting flight to Chiang Mai, Thailand. Three lifelong girlfriends on college break fly from Goa to Delhi. Catching a connecting flight to Chiang Mai, they sit next to Reed in an exit row. Flying through monsoon conditions, the plane loses power and crashes in the northeastern mountains of the Golden Triangle. Only seven survive. One of the college girls sustains serious internal bleeding. The survivors build a stretcher for the young woman and head down the mountain for help. The local military is pillaging the countryside and executing villagers. Soldiers open fire on the plane survivors, killing all those heading down the mountain except for two of the girlfriends. Samantha videoed the murders and also finds a mass grave near a village. She and Rebecca run for their lives back up the mountain toward the crash site, where they meet Reed walking down. Knocked unconscious in the crash, he was buried under debris. Can these three survive the jungle and find safety in far-off Thailand?

A South Korean man, the oldest son of the Won family, is found with a mouthful of Moguk rubies and stabbed in the back with an Un Jang do knife that has been discretely passed down through generations of the Cho dynasty women. Cale has nothing to go on so he travels on a scheduled vacation but alters course to Burma to learn about the Moguk Ruby. He, by chance, falls in the right hands and meets up with a major Mandalay jewelry family. While the jewelers do some black market research for Cale, he tours the Burmese countryside somewhere between hiding from the secret police and running from them. After traveling through the repressed land, he returns to the states and gets more turns and twists than he bargains for.

Marine Fishes of South-East Asia Gerry Allen, 1999-06-10 This beautifully illustrated marine fish guide encompasses the singularly diverse and rich oceans from southeast Asia to Australia. *Marine Fishes of Southeast Asia* contains nearly 2,000 hand-painted illustrations featuring 1,635 individual species. The paintings were completed over a 3-year period and are primarily based on photographs or color transparencies of either live fishes taken underwater or freshly caught specimens. In many cases preserved specimens at the Western Australian Museum have been consulted to ensure accuracy of detail and proportions. The end result is a colorful and highly comprehensive guide to the sea fishes of northern Australia and the adjacent Southeast Asian region.

The Last Dive Bernie Chowdhury,2012-01-03 “Superbly written and action-packed, The Last Dive ranks with such adventure classics as The Perfect Storm and Into Thin Air.”–Tampa Tribune Spurred on by a fatal combination of obsession and ambition, Chris and Chrisy Rouse, an experienced father-son scuba diving team, hoped to achieve wide-spread recognition for their outstanding and controversial diving skills by solving the secrets of a mysterious, undocumented, World War II German U-boat that lay only a half day’s mission from New York Harbor. The Rouses found the ultimate cost of chasing their personal challenge: death from what divers dread the most–decompression sickness, or “the bends.” In this gripping recounting of their tragedy, author Bernie Chowdhury, himself an expert diver, explores the thrill-seeking, high-risk world of deep sea diving, its legendary figures, most celebrated triumphs, and notorious tragedies.

This little spruce asks the same two questions of every creature he meets: What is Christmas? What is a Christmas tree? The little tree hears no response until one day he shelters a white dove from a storm. Through this friendship, the little tree learns the meaning of love, sacrifice and Christmas. Since its first publication in 1990, the book has become a Christmas favourite. The new edition features a sparkly foil cover, redesigned artwork and an extended page count. A must-have for the holidays!

Taronga Victor Kelleher,2013 The great dome of the sky, black, star-sprinkled, arched above him, appearing at that moment so limitless, so vast and free, that the fences and cages of Taronga were dwarfed, reduced to the point where they barely seemed to exist . . . Every so often, there comes a story so brilliant and lively and moving that it cannot be left in the past. A Story of Karma Michael Schauch,2020-09-29 A deeply personal travel memoir that combines alpine adventure, family connections, and spiritual encounters in two very different worlds: a Himalayan village and Vancouver, Canada. In 2012, Michael Schauch and his wife, Chantal, undertook an expedition deep in the Himalaya of northern Nepal, into a remote valley that had been closed off to outsiders for decades. They led a team of artists (a photographer, a musician, and a painter), with the objective of capturing a moment in time through their unique lenses. As a mountaineering fanatic, Michael had a second (and less conspicuous) goal to climb an unknown mountain he had only identified through a photograph. What unfolded in the mountains forced him to question his values and his own identity, and eventually resulted in meeting a little girl, which was the most profound encounter of his life. Little did either know that from that moment they would completely change the trajectory of each other's life. A Story of Karma recounts this journey, and the years that follow as Karma (the little girl), and Michael and Chantal grow their lives together amidst the confusing dichotomies and backdrop of Karma's 17th-century Himalayan village; the impoverished and polluted Kathmandu; and the modern world of Vancouver, Canada.
