**Fishes of Australia** Roger Swainston,2010 Roger Swainston's breathtaking artwork provides a fascinating overview of the extraordinary diversity of Australia's marine and freshwater fishes. Here, more than 1500 remarkable illustrations portray every family of fishes ever recorded from Australian waters. The names of all known species are listed alongside detailed information on the taxonomy and biology of each family. 'A culmination of more than 25 years of work, this is a fish-Identification lover's bible!' **The Physiology of Fishes, Second Edition** David H. Evans,James B. Claiborne,1997-10-10 As in the bestselling first edition, The Physiology of Fishes, Second Edition is a comprehensive, state-of-the-art review of the major areas of research in modern fish physiology. This Second Edition is entirely revised, with 17 of the 18 chapters written by new authors. It also includes four entirely new chapters:

**What a Fish Knows** Jonathan Balcombe,2016-06-07 A New York Times Bestseller Do fishes think? Do they really have three-second memories? And can they recognize the humans who peer back at them from above the surface of the water? In What a Fish Knows, the myth-busting ethologist Jonathan Balcombe addresses these questions and more, taking us under the sea, through streams and estuaries, and to the other side of the aquarium glass to reveal the surprising capabilities of fishes. Although there are more than thirty thousand species of fish—more than all mammals, birds, reptiles, and amphibians combined—we rarely consider how individual fishes think, feel, and behave. Balcombe upends our assumptions about fishes, portraying them not as unfeeling, dead-eyed feeding machines but as sentient, aware, social, and even Machiavellian—in other words, much like us. What a Fish Knows draws on the latest science to present a fresh look at these remarkable creatures in all their breathtaking diversity and beauty. Fishes conduct elaborate courtship rituals and develop lifelong bonds with shoalmates. They also plan, hunt cooperatively, use tools, curry favor, deceive one another, and punish wrongdoers. We may imagine that fishes lead simple, fleeting lives—a mode of existence that boils down to a place on the food chain, rote spawning, and lots of aimless swimming. But, as Balcombe demonstrates, the truth is far richer and more complex, worthy of the grandest social novel. Highlighting breakthrough discoveries from fish enthusiasts and scientists around the world and pondering his own encounters with fishes, Balcombe examines the fascinating means by which fishes gain knowledge of the places they inhabit, from shallow tide pools to the deepest reaches of the ocean. Teeming with insights and exciting discoveries, What a Fish Knows offers a thoughtful appraisal of our relationships with fishes and inspires us to take a more enlightened view of the planet’s increasingly imperiled marine life. What a Fish Knows will forever change how we see our aquatic cousins—the pet goldfish included.

Kumba Africa Sampson Ejike Odum,2020-11-03 ‘KUMBA AFRICA’, is a compilation of African Short Stories written as fiction by Sampson Ejike Odum, nostalgically taking our memory back several thousands of years ago in Africa, reminding us about our past heritage. It digs deep into the traditional life style of the Africans of old, their beliefs, their leadership, their courage, their culture, their wars, their defeat and their victories long before the emergence of the white man on the soil of Africa. As a talented writer of rich resource and superior creativity, armed with in-depth knowledge of different cultures and traditions in Africa, the Author throws light on the rich cultural heritage of the people of Africa when civilization was yet unknown to the people. The book reminds the readers that the Africans of old kept their pride and still enjoyed their own lives. They celebrated victories when wars were won, enjoyed their New yam festivals and villages engaged themselves in seasonal wrestling contest etc; Early morning during harmattan season, they gathered firewood and made fire inside their small huts to hit up their bodies from the chilling cold of the harmattan. That was the Africa of old we will always remember. In Africa today, the story have changed. The people now enjoy civilized cultures made possible by the influence of the white man through his scientific and technological process. Yet there are some uncivilized places in Africa whose people haven’t tested or felt the impact of civilization. These people still maintain their ancient traditions and culture. In everything, we believe that days when people paraded barefooted in Africa to the swamp to tap palm wine and fetch firewood from there farms are almost fading away. The huts are now gradually been replaced with houses built of blocks and beautiful roofs. Thanks to modern civilization. Donkeys and camels are no longer used for carrying heavy loads for merchants. They are now been replaced by heavy trucks and lorries. African traditional methods of healing are now been substituted by hospitals. In all these, I will always love and remember Africa, the home of my birth and must respect her cultures and traditions as an AFRICAN AUTHOR.

*Underwater Dogs* Seth Casteel,2012-10-23 The exuberant, exhilarating photographs of dogs underwater that have become a sensation From the water's surface, it's a simple exercise: a dog's leap, a splash, and then a wet head surfacing with a ball, triumphant. But beneath the water is a chaotic ballet of bared teeth and bubbles, paddling paws, fur and ears billowing in the currents. From leaping Lab to diving Dachshund, the water is where a dog's distinct personality shines through; some lounge in the current, paddling slowly, but others arch their bodies to cut through the water with the focus and determination of a shark. In more than eighty portraits, award-winning pet photographer and animal rights activist Seth Casteel captures new sides of our old friends with vibrant underwater photography that makes it impossible to look away. Each image bubbles with exuberance and life, a striking reminder that even in the most loveable and domesticated dog, there are more primal forces at work. In Underwater Dogs, Seth Casteel gives playful and energetic testament to the rough-and-tumble joy that our dogs bring into our lives.

**Jaunten** Honor Raconteur,2018-08-28 There was a time when magic was welcome in the country of Chahir, but that was nearly two centuries ago. Now, all forms of magic are strictly forbidden. Anyone caught using

magic, or possessing magical abilities, are immediately imprisoned and executed. For Garth, that policy is a problem.As Garth approaches his sixteenth birthday, he realizes that he definitely has magical abilities. What's worse, he has no control over them. In order to stay alive, he only has one choice-he must leave his homeland, Chahir, and flee into the neighboring country, Hain. The journey isn't an easy one; he still has to make it out of Chahir without alerting anyone as to his abilities. What Garth doesn't know is that getting to Hain, and the Academy for All Magic, is going to be the easy part. Garth goes into Hain for one reason only; he wants training for his out-of-control magical powers. So how does he become a member of an exclusive magical clan known as the Jaunten; adopted by a magically enhanced colt; best friends with a gifted Witch; and foster brother of a four year old Mage? Let's just say he has a gift for finding trouble.

**I Like Him, He Likes Her** Phyllis Reynolds Naylor,2010-05-18 Find a Penny pick it up and all day long you’ll have good luck...except, of course, if that Penny is charming and pretty and funny, and the person picking her up just happens to be your boyfriend. Alice McKinley’s freshman year is not as “lucky” as she was hoping it would be. But she’s is trying to look on the bright side. There are worse things than being single for a semester... for a school year...for the whole summer.... At least Alice can count on her best friends for support—in theory, anyway. Lately they haven’t been all that there-for-her. In fact, it seems like Pam and Liz are suddenly involved in intense, secret conversations whenever Alice is around. Single is starting to feel a whole lot like solo.
