In Southern Skies John Illsley, 2003 2003 marked the centenary of flight in South Africa and John Illsley has compiled a pictorial history of early flight in this country, from its humble beginnings to the aeroplanes that were used at the beginning of World War I. Each chapter has an introductory article, to set the scene for its subject, and the rest of the chapter is made up of pictures with comprehensive explanatory captions. Among of the topics featured are: First flights on man-made wings; Siege balloons in two colonial wars; Balloons on imperial service; Box kites; The first aeroplanes; South Africa's first true aviator; The brief genesis of South African military aviation; South Africans on the Western Front; First to the Cape and back; An airline for the Union; Aviatrices; War planes; Air shows; Air races; Aviation history in envelopes and stamps.

Aerodynamics of Wings and Bodies Holt

Ashley, Mårten Landahl, Marten T. Landahl, 1965-01-01 This excellent, innovative reference offers a wealth of useful information and a solid background in the fundamentals of aerodynamics. Fluid mechanics, constant density inviscid flow, singular perturbation problems, viscosity, thin-wing and slender body theories, drag minimalization, and other essentials are addressed in a lively, literate manner and accompanied by diagrams.

Grilled Leah Garcés, 2019-09-05 'An animal activist's journey to the other side' Joanna Lumley This is the story of what happens when we cross enemy lines to look for solutions. Leah Garcés has dedicated her career to fighting for the rights of the animals that end up on our plates. As the former US Executive Director of Compassion in World Farming and the current President of the non-profit group Mercy for Animals, she has led the fight against the sprawling chicken industry that raises billions of birds in

cruel conditions – all to satisfy our appetite for meat. Grilled is Leah's story of working alongside the food and farming industry for animal welfare and ethical food. Instead of fighting and protesting and shaming – approaches that simply haven't worked previously – Garcés has instead tried to find common ground with producers. She has worked alongside owners of the megafarms, befriending them, having frank conversations with them, and ultimately encouraging change through dialogue and discussion. Leah is helping to directly improve the lives of millions of farm animals, and pushing alternatives such as plant-based substitutes and lab-grown meats to the top of the agenda, with some of the mega-farm conglomerates joining forces with her to explore these avenues. When she started her journey, Leah Garcés did not have much empathy to spare for the contract chicken farmer –until she actually met one and tried to understand the difficulties they faced. This is the story of giving in to discomfort for the sake of progress. It's a story of the power of human connection, and what happens when we practice empathy toward our enemies.

Journal of the Fortean Research Center Paperbound Ray Boeche, 2012-07-01 The Fortean Research Center was founded in Lincoln, Nebraska in 1982. During the two decades of its existence, this volunteer group of researchers and investigators delved deep into the unexplained. Exploring events in Nebraska - and far beyond -that included ghosts, UFOs, Bigfoot encounters, animal mutilations, government cover-ups, alleged alien abductions, psychic phenomena, cult activity, and even a sighting of a blob-like mystery creature the Fortean Research Center became recognized among members of the Fortean, paranormal, and UFO research communities around the world, as a reliable and trusted source of information. Here is the entire collection of the Journal of

the Fortean Research Center, 23 issues in all. These publications are a reflection of their time, and demonstrate in many cases the beginning steps into subjects familiar to the public today: alleged UFO crashes and landings at government installations, alien abductions, cryptozoology and more.

Japanese Aircraft of the Pacific War René J. Francillon, 1987-02 The most significant types of aircraft operated by the Army and the Navy immediately before and during the Pacific War are described in the two main sections of this book, while a series of appendices provides information on less important Japanese military aircraft, foreign-designed aircraft operated by Japanese forces, aircraft carriers and tenders, aero-engines and aircraft armament.

The Itinerary of Benjamin of Tudela Benjamin (of Tudela), Marcus Nathan Adler, 1907

Flight Without Formulae Alfred Cotterill Kermode, 1970 How and why an aeroplane flies explained in simple language|. First published over 50 years ago, the aim of this classic book has always been to explain the principles of flight in a simple yet informative way, without need for complex mathematical formulae. Illustrated with diagrams and photographs throughout, this book does not claim to teach the reader how to fly, but will continue to be a clear and vivid account of how and why an aeroplane flies. As such it will be a valuable introduction for all trainee pilots, aeronautical engineers and the interested aircraft enthusiast.

The "Berlin Chronicle" Notices Walter

Benjamin, 2015 A companion volume to Walter Benjamin's (1892-1940) memoir *Berlin Childhood circa 1900*, *The Berlin Chronicle Notices* is now in a new translation by Carl Skoggard. The German-Jewish philosopher, theorist and critic Walter Benjamin began to ruminate on his comfortable Berlin childhood in 1932, not long before he would flee Germany for good to escape the Nazis. The resulting *Berlin Chronicle notices--40* in all--do not result in a linear narrative but instead remain fragmentary recollections of Benjamin's young years, from his early childhood to the threshold of adulthood. More generally, they are a series of profound explorations of memory and of the ways memory relates to place. Rich in and of themselves, these notices greatly illuminate *Berlin Childhood circa 1900*, written by Benjamin months later. This translation, in a charming pocket-sized format, comes with an extensive commentary, a historical map of Berlin and numerous illustrations.

Railway Ribaldry W. Heath Robinson, 2014-06-10 First published for the centenary of the Great Western Railway in 1935, 'Railway Ribaldry' is an affectionate and humorous look at life on board the company's famous trains, incorporating some of William Heath Robinson's own trademark madcap contraptions. Featuring almost 100 cartoons - including amusing takes on the varied duties of railway police, the first 'ladies only' carriage and countless 'ingenious plans' and inventions - it is the perfect gift for any railway enthusiast.

Ellis Island to Ebbets Field Peter Levine,1993-09-09 In Ellis Island to Ebbets Field, Peter Levine vividly recounts the stories of Red Auerbach, Hank Greenberg, Moe Berg, Sid Luckman, Nat Holman, Benny Leonard, Barney Ross, Marty Glickman, and a host of others who became Jewish heroes and symbols of the difficult struggle for American success. From settlement houses and street corners, to Madison Square and Fenway Park, their experiences recall a time when Jewish males dominated sports like boxing and basketball, helping to smash stereotypes about Jewish weakness while instilling American Jews with a fierce pride in their strength and ability in the face of Nazi aggression, domestic anti-Semitism, and economic depression. Full of marvelous stories, anecdotes, and personalities, Ellis Island to Ebbets Field enhances our understanding of the Jewish-American experience as well as the struggles of other American minority groups.
