Consecration of Images and Stûpas in Indo-Tibetan Tantric Buddhism Yael Bentor, 2023-08-14
The present work is an investigation of the Indo-Tibetan ritual for consecrating images, stûpas, books and temples. It is based on a thorough examination of the relevant Tibetan textual material contained in Tantras, commentaries, ritual manuals and explanatory works on consecration. As rituals are meant to be performed, this textual study is combined with observations of performances and interviews with performers. The book opens with a general discussion of certain principles of tantric rituals and the foundations of Indo-Tibetan consecration. The main part focuses on a specific performance of the ritual in a Tibetan monastery located in the Kathmandu Valley. This volume contributes to the often neglected field of Indo-Tibetan Buddhist rituals. It is concerned with the sacred nature of objects for worship as well as with the main Buddhist tantric transformation into a chosen tantric Buddha.

Bodies in Balance Theresia Hofer, 2018-01-08
Bodies in Balance: The Art of Tibetan Medicine is the first comprehensive, interdisciplinary exploration of the triangular relationship among the Tibetan art and science of healing (Sowa Rigpa), Buddhism, and arts and crafts. Generously illustrated with more than 200 images, **Bodies in Balance** includes essays on contemporary practice, pharmacology and compounding medicines, astrology

and divination, history and foundational treatises. The volume brings to life the theory and practice of this ancient healing art. 2015 Best Art Book Accolade, ICAS Book Prize in the Humanities Category *Bodies in Balance: The Art of Tibetan Medicine* is the first comprehensive, interdisciplinary exploration of the triangular relationship among the Tibetan art and science of healing (Sowa Rigpa), Buddhism, and arts and crafts. This book is dedicated to the history, theory, and practice of Tibetan medicine, a unique and complex system of understanding body and mind, treating illness, and fostering health and well-being. Sowa Rigpa has been influenced by Chinese, Indian, and Greco-Arab medical traditions but is distinct from them. Developed within the context of Buddhism, Tibetan medicine was adapted over centuries to different health needs and climates across the region encompassing the Tibetan Plateau, the Himalayas, and Mongolia. Its focus on a holistic approach to health has influenced Western medical thinking about the prevention, diagnoses, and treatment of illness. Generously illustrated with more than 200 images, *Bodies in Balance* includes essays on contemporary practice, pharmacology and compounding medicines, astrology and divination, history and foundational treatises. The volume brings to life the theory and practice of this ancient healing art.

Tibetan Astrology Philippe Cornu, 2002-12-10
Astrology is one of the traditional arts and sciences of Tibet, where it is known as the

science of calculation, used by monks and lamas in the study of the rhythms and cycles of time, for divination, for choosing auspicious times for rituals and life-cycle events such as marriages and funerals, and as an adjunct to the practice of traditional medicine. This comprehensive introduction to the topic includes: • Historical roots and influences from China and India as well as the Buddhist Kalachakra teachings and the ancient Bön religion of Tibet • The two main branches of Tibetan astrology: Nagtsi, or black astrology, based on the Chinese system, and Kartsi, or white astrology, derived from Indian astrology • The twelve- and sixty-year cycles and the twelve animals and five elements associated with them • The mewa, or magical squares, which are numerological factors used to calculate the auspiciousness of days or years • The parkha, or eight trigrams of the I Ching, representing the elements, directions, seasons, and fundamental universal forces • How to analyze the character of hours, days, months, and years, so as to determine auspicious times for various activities • How to cast and interpret a Tibetan horoscope Also included are numerous diagrams and charts that are indispensable to the practice of Tibetan astrology, including tables for converting Western dates to dates on the Tibetan calendar.

Empires Susan E. Alcock, 2001-08-09 Empires, the largest political systems of the ancient and early modern world, powerfully transformed the lives of people within and even beyond their frontiers in ways quite different from other, non-imperial societies. Appearing in all parts of the globe, and in many different epochs, empires invite comparative analysis - yet few attempts have been made to place imperial systems within such a framework. This book brings together studies by distinguished scholars from diverse academic traditions, including anthropology, archaeology, history and classics. The empires discussed

include case studies from Central and South America, the Mediterranean, Europe, the Near East, South East Asia and China, and range in time from the first millennium BC to the early modern era. The book organises these detailed studies into five thematic sections: sources, approaches and definitions; empires in a wider world; imperial integration and imperial subjects; imperial ideologies; and the afterlife of empires.
