The Bride Test Helen Hoang, 2019-05-07 From the USA Today bestselling author of *The Kiss Quotient* comes a romantic novel about love that crosses international borders and all boundaries of the heart... Khai Diep has no feelings. Well, he feels irritation when people move his things or contentment when ledgers balance down to the penny, but not big, important emotions—like grief. And love. He thinks he's defective. His family knows better—that his autism means he just processes emotions differently. When he steadfastly avoids relationships, his mother takes matters into her own hands and returns to Vietnam to find him the perfect bride. As a mixed-race girl living in the slums of Ho Chi Minh City, Esme Tran has always felt out of place. When the opportunity arises to come to America and meet a potential

husband, she can't turn it down, thinking this could be the break her family needs. Seducing Khai, however, doesn't go as planned. Esme's lessons in love seem to be working...but only on herself. She's hopelessly smitten with a man who's convinced he can never return her affection. With Esme's time in the United States dwindling, Khai is forced to understand he's been wrong all along. And there's more than one way to love.

The Kiss Quotient Helen Hoang, 2018-06-13 A heartwarming and refreshing debut novel that proves one thing: there's not enough data in the world to predict what will make your heart tick Stella Lane thinks mathematics is the only thing that unites the universe. She comes up with algorithms to predict customer purchases - a job that has given her more money than she knows what to do with and far less experience in the dating department than the average thirty-year-old. It doesn't help that Stella has Asperger's and French kissing reminds her of a shark getting its teeth cleaned by pilot fish. Her conclusion: she needs lots of practice - with a professional. Which is why she hires escort Michael Phan. Gorgeous and conflicted, Michael can't afford to turn down Stella's offer and agrees to help her check off all the boxes on her lesson plan, from foreplay to more-than-missionary position. Before long, Stella not only learns to appreciate his kisses but to crave all of the other things he's making her feel. Their no-nonsense partnership starts making a strange kind of sense. And the pattern that emerges will convince Stella that love is the best kind of logic...

Imagery in the 21st Century Oliver Grau, Thomas Veigl, 2011 We are surrounded by images as never before: on Flickr, Facebook, and YouTube; on thousands of television channels; in digital games and virtual worlds; in media art and science. Without new efforts to visualize complex ideas, structures, and systems, today's information explosion would be unmanageable. The digital image represents endless options for manipulation; images seem capable of changing interactively or even autonomously. This volume offers systematic and interdisciplinary reflections on these new image worlds and new analytical approaches to the visual--Book jacket.

Exposure to Microbiological Agents in Indoor and Occupational Environments Carla Viegas, Susana Viegas, Anita Gomes, Martin Täubel, Raquel Sabino, 2017-10-05 This book intends to provide information about detection and health effects due to bacteria, fungi and viruses in indoor environments. The book will cover also information about preventive and protective measures to avoid health-hazardous. Case studies will be also addressed to enrich the book with the expertise of each invited author. The book also intends to fill a gap regarding information about all biologic agents, since most of the books available are dedicated to only one type of microorganisms. Several problems regarding the exposure of biologic agents will be presented through case studies, and also the implementation of preventive and protective measures to avoid/minimize exposure. Besides, all the book will focus on occupational health and/or public health point of view.

But with Mildred's history of mistakes and mishaps, even her best friends are skeptical. Besides, Mildred's rival, Ethel Hallow, is sure to win. Still, the new term is going well until Ethel finds out that Mildred's beloved stray dog, Star, actually comes from a traveling circus, and Mildred is forced to return him. When Mildred realizes just how unhappy Star and the other circus animals are, she's determined to get Star back and give his companions a better life, even if it means the headmistress won't pick her for Head Girl. The God Code Gregg Braden, 2005-01-01 "One of our great visionaries." -Dr. Wayne W. Dyer "A rare blend of scientist, visionary, and scholar." -Deepak Chopra A scholar and New York Times-bestselling author shares his shocking theory of an ancient language-found in the decoded elements of our DNA-that

shines new light on the mysteries of existence. What would it mean to discover an ancient language—a literal message—hidden within the DNA of life itself? What we once believed of our past is about to change. A coded message has been found within the molecules of life, deep within the DNA in each cell of our bodies. Through a remarkable discovery linking Biblical alphabets to our genetic code, the “language of life” may now be read as the ancient letters of a timeless message. Regardless of race, religion, heritage, or lifestyle, the message is the same in each cell of every woman, child, and man, past and present. Sharing all-new, fascinating research, Gregg Braden discusses the life-changing discovery that led him from a successful career in the aerospace and defense industries to an extensive 12-year study of the most sacred and honored traditions of humankind.

This volume provides fully illustrated and up-to-date keys for all dragonfly genera with descriptive text for each genus, accompanied by distribution maps and 1,595 diagnostic illustrations, including wing patterns and characteristics of the genitalia.
