Llan Starkweather

All-That-Is Waving in Resonance with the Vibes Llan Starkweather,2007-08 The vibrational energies of earth harmonically support the electromagnetic force of all living things and the game we play of reality. Holographic and quantum theory affirm that the observer and the observed are one: the body is actually blinking on and off and is sensitive to the entire range of electromagnetic frequencies. While technology in the hands of a secret government, with its overt and covert hold on minds and bodies, is careening down the telescoping aisle of time, it is accompanied by a tremendous acceleration of possible consciousness toward Knowing that the reality that we intend for ourselves is indeed tentatively located in but a few grids within the holographic infinity that Matters, the All-That-Is: by our pranic energy there manifest we yet create our own reality. This book is a piece of the ever-growing network of dissent urgently seeking a window denied by all media to a consciousness of compassion for All-That-Is. Global agony comes to dominate a book about earth and human energies.
