**Failed Images** Ernst van Alphen,2018 'Failed Images' attempts to understand the divergence between photography and the reality it portrays, analysing the various ways the photograph transforms that which exists before the camera. Because the photographic medium enables very different practices, which in turn results in many kinds of images, it must also be examined from a perspective outside of the dominant approach to the medium, generally called the 'snapshot.' This book therefore explores the photographic image by focusing on practices which refuse this conventional approach, namely staged, blurred, under- and overexposed, and archival photography.

New Almaden Michael Boulland, Arthur L. Boudreault, 2006 In a rocky, wooded canyon south of San Jose lies New Almaden, a settlement that grew near the oldest and richest mine in California. Discovered in 1845, its quicksilver payload was once crucial for gold and silver processing and manufacturing munitions. It produced over \$75 million from the deepest network of quicksilver shafts on earth. Diverse laborers populated this thriving town, creating neighborhoods called Hacienda, Englishtown, and Spanishtown, along with the mine manager's stately home, Casa Grande. Although the mines are now closed and the great ore furnace cold, the Casa Grande still stands along with a residential community that was placed on the National Register of Historic Places in 1963. Angwin and Howell Mountain Katharine Van Arsdale,2021-03 Just a few miles east of St. Helena, Howell Mountain overlooks the Napa Valley. The mountain's mild Mediterranean climate and extensive forests have drawn people for thousands of years. From the Wappo people to Spanish explorers and Mexican Californios, the region has a rich history. In the 1880s, the mountain was a popular place to establish health resorts like the Rural Health Retreat, which later became St. Helena Hospital. Cornish immigrant Edwin Angwin also opened a resort that hosted visitors such as author Ambrose Bierce. When Angwin retired in 1909, he sold his land to the Seventh-day Adventist Church. That year, Pacific Union College opened on the old resort grounds; the college has been the hub of the tiny town of Angwin ever since. Today, Howell Mountain is one of the most prized wine appellations in the world, and Angwin remains a quiet, rural village in the midst of wine country. It is surrounded by conservation easements and Land Trust of Napa County preserves, making it a unique community in this setting.

Hard Cuddles James Harding, 2018-09-01 This is the graphic, authentic and often humorous autobiography of a young man's journey into Melbourne's underworld and nightclub scene in the recent past. 'The Hammer' was a feared enforcer capable of inflicting indescribable pain on anyone that stood in has way. Supreme violence and a manipulative calculating streak were tools of the trade. This story gives the reader a rare insight into addiction, the dark art of violence and ego involved in the world of a drug dealer, debt collector and stand over man in Melbourne's underworld scene. An embracing family background and unwavering ability to believe he was destined for redemption allowed 'The Hammer' to claw his way back from the darkness and use his hard-earned experience to assist men to break the cycle of addiction and crime and re-discover their own power and spirit. Nice work mate! Proud of you and glad to call you my friend. - Trevor Hendy AM

Beyond the Sixth Extinction Shawn Sheehy,2018-10-09 Elaborate pop-ups feature some wonderfully creepy creatures that just might dominate the ecosystem and be essential to our planet's survival in an eerily realistic future world. Whether or not we know it, the sixth global extinction is already under way, propelled not by a meteor but by human activity on Earth. Take a long step forward into the year 4847 with the help of stunning pop-ups portraying eight fantastical creatures, along with spreads and flaps presenting details about each one. Paper engineer Shawn Sheehy envisions the aftermath of extinction as a flourishing ecosystem centered around fictional creatures that could evolve from existing organisms. Promising high appeal for science-fiction fans of all ages — and plenty of food for discussion — this evolutionary extravaganza offers a time line of the six extinction events in Earth's history, a "field guide" to each creature, a diagram of species relationships, a habitat map of the (imagined) ruins of Chicago, and an illuminating author's note.

The Whispering Town Jennifer Elvgren, 2014-01-01 The dramatic story of neighbors in a small Danish fishing village who, during the Holocaust, shelter a Jewish family waiting to be ferried to safety in Sweden. It is 1943 in Nazi-occupied Denmark. Anett and her parents are hiding a Jewish woman and her son, Carl, in their cellar until a fishing boat can take them across the sound to neutral Sweden. The soldiers patrolling their street are growing suspicious, so Carl and his mama must make their way to the harbor despite a cloudy sky with no moon to guide them. Worried about their safety, Anett devises a clever and unusual plan for their safe passage to the harbor. Based on a true story.

The Last Summer (of You and Me) Ann Brashares, 2008-05-06 From the New York Times-bestselling author of The Sisterhood of the Traveling Pants Ann Brashares comes her first adult novel In the town of Waterby on Fire Island, the rhythms and rituals of summer are sacrosanct: the ceremonial arrivals and departures by ferry; yacht club dinners with terrible food and breathtaking views; the virtual decree against shoes; and the generational parade of sandy, sun-bleached kids, running, swimming, squealing, and coming of age on the beach. Set against this vivid backdrop, The Last Summer (of You and Me) is the enchanting, heartrending story of a beach-community friendship triangle and summertime romance among three young adults for whom summer and this place have meant everything. Sisters Riley and Alice, now in their twenties, have been returning to their parents' modest beach house every summer for their entire lives. Petite, tenacious Riley is a tomboy and a lifeguard, always ready for a midnight

swim, a gale-force sail, or a barefoot sprint down the beach. Beautiful Alice is lithe, gentle, a reader and a thinker, and worshipful of her older sister. And every summer growing up, in the big house that overshadowed their humble one, there was Paul, a friend as important to both girls as the place itself, who has now finally returned to the island after three years away. But his return marks a season of tremendous change, and when a simmering attraction, a serious illness, and a deep secret all collide, the three friends are launched into an unfamiliar adult world, a world from which their summer haven can no longer protect them. Ann Brashares has won millions of fans with her blockbuster series, The Sisterhood of the Traveling Pants, in which she so powerfully captured the emotional complexities of female friendship and young love. With The Last Summer (of You and Me), she moves on to introduce a new set of characters and adult relationships just as true, endearing, and unforgettable. With warmth, humor, and wisdom, Brashares makes us feel the excruciating joys and pangs of love—both platonic and romantic. She reminds us of the strength and sting of friendship, the great ache of loss, and the complicated weight of family loyalty. Thoughtful, lyrical, and tremendously moving, The Last Summer (of You and Me is a deeply felt celebration of summer and nostalgia for youth.

Who Killed Donna Gentile Larry S. Avrech, 2019-09-12 Donna Marie Gentile was an informant for the San Diego Police Dept. Larry Avrech, who was a young officer at the time, stumbled across Donna and the information about her 'sugar daddy' within the department. Recognizing the telltale signs of possible corruption, he befriended the prostitute to dig deeper. It would turn out to be the biggest mistake of his career. Eight months later, Avrech was terminated. His police brothers had chosen to believe a prostitute over a trusted officer because it fit the specific needs of the department at that particular time. His integrity cost everything dear to him-his career, his home, and later his children. After his termination, the vindictive department continued to threaten him; doing everything they could to preserve their coverup and destroy Larry. Only six weeks after Donna testified against Avrech, her lifeless nude body turned up making Larry an instant murder suspect. In a twist of fate, Avrech got a call from a high-ranking Deputy District Attorney who said he could prove Larry was set up. But the question remained, Who Killed Donna Marie Gentile? Larry would work tirelessly for the next seven years to uncover a serial murder and eventually reveal the details in this comprehensive book about what happened behind the sensational headlines.

Extremal Problems for Finite Sets Peter Frankl, Norihide Tokushige, 2018-08-15 One of the great appeals of Extremal Set Theory as a subject is that the statements are easily accessible without a lot of mathematical background, yet the proofs and ideas have applications in a wide range of fields including combinatorics, number theory, and probability theory. Written by two of the leading researchers in the subject, this book is aimed at mathematically mature undergraduates, and highlights the elegance and power of this field of study. The first half of the book provides classic results with some new proofs including a complete proof of the Ahlswede-Khachatrian theorem as well as some recent progress on the Erdos matching conjecture. The second half presents some combinatorial structural results and linear algebra methods including the Deza-Erdos-Frankl theorem, application of Rodl's packing theorem, application of semidefinite programming, and very recent progress (obtained in 2016) on the Erdos-Szemeredi sunflower conjecture and capset problem. The book concludes with a collection of challenging open problems.

The Year of Goodbyes Debbie Levy, 2015-04-07 Like other girls, Jutta Salzberg enjoyed playing with friends, going to school, and visiting relatives. In Germany in 1938, these everyday activities were dangerous for Jews. Jutta and her family tried to lead normal lives, but soon they knew they had to escape—if they could, before it was too late. Throughout 1938, Jutta had her friends and relatives fill her poesiealbum—her autograph book—with inscriptions. Her daughter, Debbie Levy, used these entries as a springboard for telling the story of the Salzberg family's last year in Germany. It was a year of change and chance, confusion and cruelty. It was a year of goodbyes

Soldier Song Debbie Levy,2017-02-07 Amid the fearsome battles of the Civil War, both Union and Confederate soldiers were urged onward by song. There were songs to wake them up and songs to call them to bed, Songs to ready them for battle and to signal their retreat, Songs to tell them that their side was right, and the other wrong . . And there was one song that reminded them all of what they hoped to return to after the war. Defeated in the battle of Fredericksburg, Virginia, the Union soldiers retreated across the river. There, a new battle emerged as both armies volleyed competing songs back and forth. With the Christmas season upon them, however, Federals and Confederates longed for the same thing. As the notes of Home, Sweet Home rose up from both sides, they found common ground for one night. Interwoven with soldiers' letters and journal entries, this is a true story of duty and heartbreak, of loyalty and enemies, and of the uniting power of music. Debbie Levy's moving text and Gilbert Ford's vibrant, layered illustrations come together to create an unforgettable tale of American history.
