The Bright Side Sanctuary for Animals Becky Mandelbaum, 2021-08-10 2016. The Bright Side Sanctuary for Animals is in trouble. Ariel discovers that her mother Mona's animal sanctuary in Western Kansas has not only been the target of anti-Semitic hate crimes, it is also for sale, due to hidden financial ruin. Ariel, living a new life in progressive Lawrence, and estranged from her mother for six years, returns to her childhood home - and finds her first love, a ranch hand named Gideon, still working at the Bright Side. Back in Lawrence, Ariel's fiancé, Dex, sets out to confront Ariel and finds her questioning the meaning of her life in Lawrence--and whether she belongs with Dex or with someone else, somewhere else.

Introductory Grammar of Amharic Wolf Leslau, 2000 This book closes the gap for beginners who want to study the Amharic language and had difficulties in finding the right grammar for this purpose: The first grammar of Amharic, the national language of Ethiopia, was published by Hiob Ludolf in 1698. The Amharic grammar published by Praetorius in 1879 is based on Amharic religious texts and on scattered material, usually composed by missionaries. A milestone in the study of Amharic is Marcel Cohen's *Traite de langue amharique* (1936), but this grammar, too is not completely suited for beginners since the author's generalizations are at times aimed at linguists. The grammar that comes closest to the concept of a beginner's grammar is that of C.H. Dawkin (1960), yet this grammar is extremely short, does not give examples and does not introduce the student to the intricacies of the language. The new book gives all the grammatical forms and the sentences of the present grammar in Amharic script and in phonetic transcription. The illustrative examples have a free and a literal translation. This procedure should likewise prove to be useful for the Semitist as well as for the general linguist.

Hebrew Myths Robert Graves, Raphael Patai, 2014-05-15 The I, Claudius author's "lightning sharp interpretations and insights . . . are here brought to bear with equal effectiveness on the Book of Genesis" (Kirkus Reviews). This is a comprehensive look at the stories that make up the Old Testament and the Jewish religion, including the folk tales, apocryphal texts, midrashes, and other

little-known documents that the Old Testament and the Torah do not include. In this exhaustive study, Robert Graves provides a fascinating account of pre-Biblical texts that have been censored, suppressed, and hidden for centuries, and which now emerge to give us a clearer view of Hebrew myth and religion than ever. Venerable classicist and historian Robert Graves recounts the ancient Hebrew stories, both obscure and familiar, with a rich sense of storytelling, culture, and spirituality. This book is sure to be riveting to students of Jewish or Judeo-Christian history, culture, and religion.

Meccan Trade and the Rise of Islam Patricia Crone, 2020-03-03 Patricia Crone reassesses one of the most widely accepted dogmas in contemporary accounts of the beginnings of Islam: the supposition that Mecca was a trading center. In addition, she seeks to elucidate sources on which we should reconstruct our picture of the birth of the new religion in Arabia.

Verbs and Diachronic Syntax I.G. Roberts, 2012-12-06 This book combines several strands of my

work, both individually and in collaboration with various people, over the last couple of years. To a very large extent, I have been inspired by the many talks, classes, appointments and other interactions that took place in the exciting intellectual environment that grew up among the linguists working in Geneva in the period 1989-90. It is impossible to mention by name everyone who influenced the development of this material, but I'd particularly like to thank the students in my class 'linguistique diachronique' during that period, who had to suffer through preliminary versions of much of this book, and often seemed to understand what I was getting at better than I did. Luigi Rizzi did more than anyone else to create the unique atmosphere here in the last couple of years, and so he deserves our gratitude for that; he was also my collaborator on the synchronic work on French inversion that inspired much of this book; he also read the whole manuscript in draft form and gave detailed comments; he is also, as anyone working in current comparative syntax knows, a wellspring of knowledge, ideas and inspiration. Maria-Teresa Guasti also read the entire manuscript and gave me invaluable comments. Sten Vikner was a great help, for much more than just Danish data. Special thanks also to Adriana Belletti, Anna Cardinaletti, Liliane Haegeman and Cecilia Poletto.
