Flying Across America Daniel L. Rust, 2012-11-20 Americans who now endure the inconveniences of crowded airports, packed airplanes, and missed connections might not realize that flying was once an elegant, exhilarating adventure. In this colorful history, Daniel L. Rust traces the evolution of commercial air travel from the first transcontinental expeditions of the 1920s, through the luxurious airline environments of the 1960s, to the more hectic, fatiguing experiences of flying in the post-9/11 era. In the beginning, flying coast-to-coast was an exciting yet uncomfortable journey of nearly forty-eight hours that required numerous stops and overnight travel by train. With time and technical innovation, passengers became increasingly removed both physically and psychologically from the raw experience of flying. Faster planes, pressurized cabins, onboard amenities, and stronger safety precautions made flying more convenient and predictable—but also less evocative and sensational. Prior to the 1980s, Americans dressed for air travel in their formal best and enjoyed such luxurious onboard amenities as delicious meals and ample cabin space. What made air travel glamorous, however, also made it more expensive. With deregulation in 1978, cost reductions

reduced flying to a more tedious and, after 9/11, more regimented experience. Rust's narrative brims with firsthand accounts from such celebrities as Will Rogers and from ordinary Americans. Enlivened by more than 100 illustrations, including vintage brochures, posters, and photographs, *Flying Across America* reminds today's airline passengers of what they have gained—and what they have lost—in the transcontinental flying experience.

More Than a Ticket Argie Ella Hoskins, 2014-08-07 Cover: The new Boeing 707 Jet. This book welcomes the reader with snapshots during the golden age of flying from carrying mail to a time when excited passengers were treated as guests and everyone dressed in their Sunday best to board American Airlines. It is engaging and appreciated. We served the flying public with much, much *More Than a Ticket*. We had time to hang coats, learn names, have a conversation, serve a delicious meal and hold babies. You will feel the excitement of times gone by and get a glimpse of how the atmosphere of air travel has changed through the years. The drama of time has created a different picture. Part one: *My Life as a Stewardess*, takes the reader on a journey with a shy country girl to the city, but she is still a country girl as she becomes a confident stewardess serving all passengers, including

the rich and famous, making everyone feel at home. How did she do it? Part two: On Wings of Time, features short stories from AA stewardesses, pilots, flight engineers, and passengers. The young and old, casual readers and aviation enthusiasts will be delighted with memoirs. Stewardess Argie, Am I cut out for this job? They say I am Dyslexic. Make friends with your cognitive gifts.

(Stewardess on Boeing 707 jet inaugural flight and also did public relations for AA.) Jon, son of pilot Heath Proctor, My father was a pioneer airmail pilot, Dad's AA retiree ID card, with employee number 02 on it! (Father deceased.) Curt, son of AA mechanic and later a Flight Engineer Roy Jacobson, I'll never forget the smell of jet fuel. We would go through the hangars and look at the planes. (Father deceased.) Stewardess MaryLou, A secretarial job opened a few miles from home with AA engineering office. I never wanted to leave. (MaryLou was on the Electra team and subsequently became an AA stewardess.) Stewardess Audrey, Once a stewardess, always a stewardess. (Flew as a stewardess and then flight attendant.) Stewardess Gerry, I was really nervous when I arrived because the other girls waiting to be interviewed were wearing business suits, high heels, gloves, and some were wearing hats. I was wearing a broomstick skirt and sandals. (Friend who

flew on Boeing 707s with me.) Stewardess Polly, Interviews are over, and besides, you aren't the type. (Polly became an outstanding Stewardess.) Stewardess Joan, Important faces stood out in the crowd. (Face in the crowd was a younger man who become her husband.) Passenger Margaret, now age 97, I thought he was getting a little too friendly (Taxi cab driver.) Passenger Bob, I don't know what I mumbled, but when the plane started to roll forward to take off, she sat down beside me, smiled, and one of her soft hands covered my gripping knuckles, and we were off and flying. (Bob had been a passenger in two near misses before this flight.) Stewardess Diane, I told him that I would meet him at the gate. After we finished deplaning, I thought to myself, 'Did I do the right thing?' (Passenger without a ride to his home near where Diane lived.) Stewardess Judi, ... meeting President Kennedy and then my husband are hard to top! (Husband was a famous singer/actor.) Engineer to Captain Tony, There were no real flight simulators in those Pleistocene days, so all of the flight training was done in the airplane. (Tony was responsible for training AA jet pilots.) License to Orbit Joseph N. Pelton, Peter P. Marshall, 2009 This
is an up-to-date investigation of the emerging commercial space

business. It explores who are the players, the celebrities and technical innovators that are making this important new industry a reality. It is the most comprehensive look at the industry in terms of covering the companies, the role of NASA and other space agencies, as well as the strategic implications of private space systems. It examines the business risks and other possible show-stoppers that might inhibit the growth of commercial spaceflight systems. Space tourism is seen as more than a fad but a crucial next step in the evolution of humankind. The book is unique in terms of exploring new technologies of the future, and reviewing the regulatory and legal ramifications of private space now and into the next decade.

The Black Jacobins C.L.R. James, 2023-08-22 A powerful and impassioned historical account of the largest successful revolt by

enslaved people in history: the Haitian Revolution of 1791–1803

“One of the seminal texts about the history of slavery and abolition.... Provocative and empowering.” —The New York Times Book Review

The Black Jacobins, by Trinidadian historian C. L. R. James, was the first major analysis of the uprising that began in the wake of the storming of the Bastille in France and became the model for liberation movements from Africa to Cuba. It is the story of the French colony of San Domingo, a place where the brutality of plantation owners toward enslaved people was horrifyingly severe. And it is the story of a charismatic and barely literate enslaved person named Toussaint L’Ouverture, who successfully led the Black people of San Domingo against successive invasions by overwhelming French, Spanish, and English forces—and in the process helped form the first independent post-colonial nation in the Caribbean. With a new introduction (2023) by Professor David Scott.

Endometriosis in Adolescents Ceana H. Nezhat,2020-11-13 Adolescent endometriosis is a previously overlooked disease in children, the true prevalence of which is still unknown but has been estimated between 19-73%. There are numerous initial challenges faced by adolescents suffering from delayed or undiagnosed endometriosis apart from experiencing chronic pain, such as: school/work absenteeism, false diagnoses/treatments, erroneous physician referrals, unnecessary radiological studies, radiation exposure, and emergency room visits as well as early exposure to

narcotic pain medications and subsequent drug tolerance, resistance or even addiction. This text presents a clear history of physician and patient understanding and awareness of endometriosis in adolescents. It lays the groundwork for this condition with background information on endometriosis in general followed by a more focused look at endometriosis in adolescents. Leading experts in the field provide chapters on the different locations where endometriotic lesions can present in adolescents as well as identified risk factors and concomitant diseases of which it is important to be aware. In addition to the clinical presentation, this book also provides information on breaking down existing barriers, such as stigma, and current activism and awareness of this condition. Adolescent Endometriosis is a first-of-its-kind text that focuses exclusively on endometriosis in the adolescent population. Written by experts in the field, this book is a comprehensive resource for clinicians in all medical disciplines that treat adolescent age girls.

Frozen in Time Mitchell Zuckoff,2013-04-23 NEW YORK TIMES BESTSELLER A gripping true story of survival, bravery, and honor in the vast Arctic wilderness during World War II, from Mitchell Zuckoff, the author of New York Times bestseller *Lost in Shangri-La* On November 5, 1942, a US cargo plane slammed into the Greenland Ice Cap. Four days later, the B-17 assigned to the search-and-rescue mission became lost in a blinding storm and also crashed. Miraculously, all nine men on board survived, and the US military launched a daring rescue operation. But after picking up one man, the Grumman Duck amphibious plane flew into a severe storm and vanished. *Frozen in Time* tells the story of these crashes and the fate of the survivors, bringing vividly to life their battle to endure 148 days of the brutal Arctic winter, until an expedition headed by famed Arctic explorer Bernt Balchen brought them to safety. Mitchell Zuckoff takes the reader deep into the most hostile environment on earth, through hurricane-force winds, vicious blizzards, and subzero temperatures. Moving forward to today, he recounts the efforts of the Coast Guard and North South

Polar Inc.—led by indefatigable dreamer Lou Sapienza—who worked for years to solve the mystery of the Duck’s last flight and recover the remains of its crew. A breathtaking blend of mystery and adventure Mitchell Zuckoff’s *Frozen in Time: An Epic Story of Survival and a Modern Quest for Lost Heroes of World War II* is also a poignant reminder of the sacrifices of our military personnel and a tribute to the everyday heroism of the US Coast Guard.

The Crown Ain't Worth Much Hanif Abdurraqib, 2017-05-15 The Crown Ain't Worth Much, Hanif Willis-Abdurraqib's first full-length collection, is a sharp and vulnerable portrayal of city life in the United States. A regular columnist for MTV.com, Abdurraqib brings his interest in pop culture to these poems, analyzing race, gender, family, and the love that finally holds us together even as it threatens to break us. Terrance Hayes writes that Abdurraqib bridges the bravado and bling of praise with the blood and tears of elegy. The poems in this collection are challenging and accessible at once, as they seek to render real human voices in moments of tragedy and celebration.
