Not as Nature Intended Rich Hardy, 2020-01-23 Relying on a hidden camera, a bluff and a little bit of luck, award-winning investigative journalist Rich Hardy finds imaginative ways to meet the people and industries responsible for the lives and deaths of the billions of animals used to feed, clothe and entertain us. What he discovers will shock, but it may just inspire you to re-evaluate your relationship with all animals and what role you let them play in your life. Sometimes dangerous, often emotional and occasionally surreal, this one-of-a-kind perspective examines what it's like to live and work amongst your adversaries and what you can achieve if you feel strongly enough about something. 'Cruelty to animals goes on daily behind the closed doors of factory farms or deep in the forests where wild animals are trapped for their fur. Rich's book exposes us to the raw truth behind these animal trades. Whilst it's a deeply personal story, it

has the potential to change, not just your own life, but the lives of millions of animals. I urge you to read it!’ Joanna Lumley, Actress, author and activist ‘An incredible and moving exposé of the horror that animals go through to create a product that destroys the environment & keeps people sick and miserable.’ Moby, Musician and activist ‘It is beautifully and lucidly written...it avoids gratuitous expression but delivers the truth in a compelling and penetrating narrative. Not As Nature Intended is a must read.’ Peter Egan, Actor and animal advocate ‘A 007 of the animal world.’ Rhian Lubin, The Daily Mirror ‘As you read this book, if you have a heart and a soul, you too won’t fail to be bowled over by Rich’s courage.’ Jane Dalton, The Independent ‘All the evidence we need to make our future a plant-based one.’ Christina Rees MP, Chair of the All-Party Parliamentary Group on Vegetarianism and Veganism ‘An eye-opening insight into the horrors endured by animals around the world - and into the minds of those who risk everything to help them.’ Maria Chiorando, Plant Based News

101 Things I Learned in Architecture School Matthew Frederick, 2007-08-31 Concise lessons in design, drawing, the creative process, and presentation, from the basics of “How to Draw a Line” to the complexities of color theory. This is a book that students of architecture will want to keep in the studio and in their backpacks. It is also a book they may want to keep out of view of their professors, for it expresses in clear and simple language things that tend to be murky and abstruse in the classroom. These 101 concise lessons in design, drawing, the creative process, and presentation—from the basics of How to Draw a Line to the complexities of color theory—provide a much-needed primer in architectural literacy, making concrete what too often is left nebulous or open-ended in the architecture curriculum. Each lesson utilizes a two-

page format, with a brief explanation and an illustration that can range from diagrammatic to whimsical. The lesson on How to Draw a Line is illustrated by examples of good and bad lines; a lesson on the dangers of awkward floor level changes shows the television actor Dick Van Dyke in the midst of a pratfall; a discussion of the proportional differences between traditional and modern buildings features a drawing of a building split neatly in half between the two. Written by an architect and instructor who remembers well the fog of his own student days, *101 Things I Learned in Architecture School* provides valuable guideposts for navigating the design studio and other classes in the architecture curriculum. Architecture graduates—from young designers to experienced practitioners—will turn to the book as well, for inspiration and a guide back to basics when solving a complex design problem.

The Holocaust, Corporations, and the Law Leora Bilsky, 2017-09-12 The Holocaust, Corporations, and the Law explores the challenge posed by the Holocaust to legal and political thought by examining issues raised by the restitution class action suits brought against Swiss banks and German corporations before American federal courts in the 1990s. Although the suits were settled for unprecedented amounts of money, the defendants did not formally assume any legal responsibility. Thus, the lawsuits were bitterly criticized by lawyers for betraying justice and by historians for distorting history. Leora Bilsky argues class action litigation and settlement offer a mode of accountability well suited to addressing the bureaucratic nature of business involvement in atrocities. Prior to these lawsuits, legal treatment of the Holocaust was dominated by criminal law and its individualistic assumptions, consistently failing to relate to the structural aspects of Nazi crimes. Engaging critically with contemporary debates about corporate responsibility for human rights

violations and assumptions about “law,” she argues for the need to design processes that make multinational corporations accountable, and examines the implications for transitional justice, the relationship between law and history, and for community and representation in a post-national world. Her novel interpretation of the restitution lawsuits not only adds an important dimension to the study of Holocaust trials, but also makes an innovative contribution to broader and pressing contemporary legal and political debates. In an era when corporations are ever more powerful and international, Bilsky’s arguments will attract attention beyond those interested in the Holocaust and its long shadow.

Globalisation, Markets and Healthcare Policy Jonathan Tritter, Meri Koivusalo, Eeva Ollila, Paul

Dorfman,2009-09-10 Although the last two decades have seen the healthcare systems of most developed countries face pressure for major reform, the impact of this reform on the relationship between empowerment, consumerism and citizen's rights has received limited research attention. Globalisation, Markets and Healthcare Policy sets out to redress this imbalance. This book explores the extent to which globalisation and commercialisation relate to current and emerging health policies. It also looks at the implications for citizens, patients and social rights, as well as how policy making interacts with the interests of global and European trade and economic policies. Topics discussed include: How the impact of globalisation on health systems is apparent in the influence of international actors and European policies. How the impact of globalisation is mediated by national priorities and policies and is therefore reflected in diverse influences. How commercialisation of health is presented as benefiting citizens and patients but has the potential to undermine the aims and values inherent in health systems. How the role of citizens' interests, social rights, patient's rights and priorities of patient and public involvement need to be separated from commercialisation, choice and consumerism in health care. Essential reading for policy makers and students of public policy, politics, law and health services, Globalisation, Markets and Healthcare Policy will also appeal to those interested in patient involvement international healthcare, international relations, trans-national organisations and the EU.

In order to have long-lasting impact on readers, I believe in making things as simple as possible, boiling everything down to the essence, going straight to the point, and, most importantly, writing in an informal and hopefully entertaining way. The objective is for the reader to open this book with anticipation of having a good educational time.

All the Lives We Ever Lived Katharine Smyth, 2019-01-29 A wise, lyrical memoir about the power of literature to help us read our own lives—and see clearly the people we love most. “Transcendent.”—The Washington Post • “You’d be hard put to find a more moving appreciation of Woolf’s work.”—The Wall Street Journal NAMED ONE OF THE BEST BOOKS OF THE YEAR BY TOWN & COUNTRY

Katharine Smyth was a student at Oxford when she first read Virginia Woolf’s modernist masterpiece *To the Lighthouse* in the comfort of an English sitting room, and in the companionable silence she shared with her father. After his death—a calamity that claimed her favorite person—she returned to that beloved novel as a way of wrestling with his memory and understanding her own grief. Smyth’s story moves between the New England of her childhood and Woolf’s Cornish shores and Bloomsbury squares, exploring universal questions about family, loss, and homecoming. Through her inventive, highly personal reading of *To the Lighthouse*, and her artful adaptation of its groundbreaking structure, Smyth guides us toward a new vision of Woolf’s most demanding and rewarding novel—and crafts an elegant reminder of literature’s ability to clarify and console. Braiding memoir, literary criticism, and biography, *All the Lives We Ever Lived* is a wholly original debut: a love letter from a daughter to her father, and from a reader to her most cherished author. Praise for *All the Lives We Ever Lived* “This searching memoir pays homage to *To the Lighthouse*, while recounting the author’s fraught relationship with her beloved father, a vibrant figure afflicted with alcoholism and cancer. . . . Smyth’s writing is evocative and incisive.”—The New Yorker “Like *H Is for Hawk*, Smyth’s book is a memoir that’s not quite a memoir, using Woolf, and her obsession with Woolf, as a springboard to tell the story of her father’s vivid life and sad demise due to alcoholism and

cancer. . . . An experiment in twenty-first century introspection that feels rooted in a modernist tradition and bracingly fresh.”—Vogue “Deeply moving – part memoir, part literary criticism, part outpouring of longing and grief... This is a beautiful book about the wildness of mortal life, and the tenuous consolations of art.”—The Times Literary Supplement “Blending analysis of a deeply literary novel with a personal story... gently entwining observations from Woolf’s classic with her own layered experience. Smyth tells us of her love for her father, his profound alcoholism and the unpredictable course of the cancer that ultimately claimed his life.”—Time

Skyscraper of a Man Michael Bowe, 2017-02-17 Skyscraper of a Man is a truly American story. Rooted in the homogenous suburbs of the 1970s, the novel explores the American propensity to pursue great ambitions, regardless of upbringing, that can result in lives that are larger than life. The four main characters live such lives, achieving great success in their chosen pursuits while dealing with the personal challenges and choices that come with success. The main character, Ben Matthews, the son of an avid Revolutionary War buff, believes deeply in America, its founding principles, and -by the people, for the people- government. Inspired by the grand ideals of the Founding Fathers, Ben starts a newspaper and runs for political office, efforts aimed at righting a nation he perceives as falling short of its potential and promise. His three closest friends, a writer who is also his business partner, a television news anchorwoman who was his lover, and a former college football star, play contributing roles in his rise to national prominence. In the end, Ben learns that grand ideals are elusive, difficult to maintain, and better left to the perfect among us. The San Francisco Book Review awarded Skyscraper of a Man 5 out of 5 stars and provided the following review: -Bowe pens a poignant tale... [He] fashions a fictional, yet realistic, setting with a well-defined cast that mimics American life... Unique to Bowe's plot is how he parallels the growth of the four [main characters] to the evolution of skyscrapers... A balanced combination of fact, fiction, engaging dialogue, and a flurry of twists and turns, Skyscraper of a Man is a stunning and inimitable debut with Silver Screen potential.-
