The Legend of the Poinsettia Tomie dePaola,1997-10-06 In Mexico, the poinsettia is called flor de la Nochebuenao flower of the Holy Night. At Christmastime, the flower blooms and flourishes, the quite exquisite red stars lighting up the countryside. This Mexican legend tells how the poinsettia came to be, through a little girl's unselfish gift to the Christ Child. Beloved Newbery honor-winning author and Caldecott honor-winning illustrator Tomie dePaola has embraced the legend using his own special feeling for Christmas. His glorious paintings capture not only the brilliant colors of Mexico and its art, but also the excitement of the children preparing for Christmas and the hope of Lucida, who comes to see what makes a gift truly beautiful.

Papertoy Monsters Brian Castleforte,2010-12-29 A breakthrough paper-folding book for kids—paper airplanes meet Origami meets Pokemon. Papertoys, the Internet phenomenon that's hot among graphic designers and illustrators around the world, now comes to kids in the coolest new book. Created and curated by Brian Castleforte, a graphic designer and papertoy pioneer who rounded up 25 of the hottest papertoy designers from around the world (Indonesia, Japan, Australia, Italy, Croatia, Chile, even Jackson, Tennessee), Papertoy Monsters offers 50 fiendishly original die-cut designs that are ready to pop out, fold, and glue. The book interleaves card stock with paper stock for a unique craft package; the graphics are colorful and hip, combining the edginess of anime with the goofy fun of Uglydolls and other collectibles. Plus each character comes with its own back-story. And the results are delicious: meet Pharaoh Thoth Amon, who once ruled Egypt but is now a mummy who practices dark magic in his sarcophagus. Or Zumbie the Zombie, who loves nothing more than a nice plate of brains and yams. NotSoScary, a little monster so useless at frightening people that he has to wear a scary mask. Yucky Chuck, the lunchbox creature born in the deepest depths of your school bag. Plus Zeke, the monster under your bed, Nom Nom, eater of cities, and Grumpy Gramps, the hairy grandpa monster with his very own moustache collection.

Designing for Digital Reading Jennifer Pearson,George Buchanan,Harold Thimbleby,2022-05-31 Reading is a complex human activity that has evolved, and co-evolved, with technology over thousands of years. Mass printing in the fifteenth century firmly established what we know as the modern book, with its physical format of covers and paper pages, and now-standard features such as page numbers, footnotes, and diagrams. Today, electronic documents are enabling paperless reading supported by eReading technologies such as Kindles and Nooks, yet a high proportion of users still opt to print on paper before reading. This persistent habit of printing to read is one sign of the shortcomings of digital documents -- although the popularity of eReaders is one sign of the shortcomings of paper. How do we get the best of both worlds? The physical properties of paper (for example, it is light, thin, and flexible) contribute to the ease with which physical documents are manipulated; but these properties have a completely different set of affordances to their digital equivalents. Paper can be folded, ripped, or scribbled on almost subconsciously -- activities that require significant cognitive attention in their digital form, if they are even possible. The nearly subliminal interaction that comes from years of learned behavior with paper has been described as lightweight interaction, which is achieved when a person actively reads an article in a way that is so easy and unselfconscious that they are not apt to remember their actions later. Reading is now in a period of rapid change, and digital text is fast becoming the predominant mode of reading. As a society, we are merely at the start of the journey of designing truly effective tools for handling digital text. This book investigates the advantages of paper, how the affordances of paper can be realized in digital form, and what forms best support lightweight interaction for active reading. To understand how to design for the future, we review the ways reading technology and reader behavior have both changed and remained constant over hundreds of years. We explore the reasoning behind reader behavior and introduce and evaluate several user interface designs that implement these lightweight properties familiar from our everyday use of paper. We start by looking back, reviewing the development of reading technology and the progress of research on reading over many years. Drawing key concepts from this review, we move forward to develop and test methods for creating new and more effective interactions for supporting digital reading. Finally, we lay down a set of lightweight attributes which can be used as evidence-based guidelines to improve the usability of future digital reading technologies. By the

end of this book, then, we hope you will be equipped to critique the present state of digital reading, and to better design and evaluate new interaction styles and technologies.

Dear Elio Franco Marabelli, 2021-03-16 The world and creativity of Elio Fiorucci seen from the inside and recounted by those who took part in his fashion adventure. The fashion and stores created by Elio Fiorucci in the late 1960s were a great creative hotbed for the following decades, anticipating many of the trends that emerged later and the ideas of the next generation of designers. Elio Fiorucci's innate curiosity led him to explore the unknown, to broaden his vision towards new currents of freedom of expression, beyond the borders of his country, in search of other energies. This book recalls his new, joyful, mocking, free realm, and the conception of unconventional clothing that upset the rules of the bourgeois,

conformist world of the 1960s. It is a choral fresco, told through the letters of those who worked with him, including absolute beginners, professionals who knew him and shared his passions, family, and friends: architects such as Antonio Citterio and Michele De Lucchi, photographers, artists (Andy Warhol and Keith Haring, who decorated the entire Milan store in 1983), singers, and actors who attended his stores and parties. Direct testimonials come from the likes of Biba (Barbara Hulanicki), Oliviero Toscani, Donna Jordan, Terry Jones, Italo Lupi, Alessandro Mendini, Paul Caranicas and Joey Arias. The book also features a preface by Janie and Stephen Schaeffer, the current brand owners.

Somewhere Along the Line Joshua Dudley Greer, Ginger Strand, Tim Davis, 2019 Greer's series updates and extends the genre of the road trip in American photography: The old and new American Dream along the Interstate Highway System.
