The Black Jacobins C.L.R. James,2023-08-22 A powerful and impassioned historical account of the largest successful revolt by enslaved people in history: the Haitian Revolution of 1791-1803 “One of the seminal texts about the history of slavery and abolition.... Provocative and empowering.” –The New York Times Book Review The Black Jacobins, by Trinidadian historian C. L. R. James, was the first major analysis of the uprising that began in the wake of the storming of the Bastille in France and became the model for liberation movements from Africa to Cuba. It is the story of the French colony of San Domingo, a place where the brutality of plantation owners toward enslaved people was horrifyingly severe. And it is the story of a charismatic and barely literate enslaved person named Toussaint L’Ouverture, who successfully led the Black people of San Domingo against successive invasions by overwhelming French, Spanish, and English forces—and in the process helped form the first independent post-colonial nation in the Caribbean. With a new introduction (2023) by Professor David Scott.

Integration of the Armed Forces, 1940-1965 Morris J. MacGregor,2020-06-18 In the quarter century that followed American entry into World War II, the nation's armed forces moved from the reluctant inclusion of a few segregated Negroes to their routine acceptance in a racially integrated military establishment. Nor was this change confined to military installations. By the time it was over, the armed forces had redefined their traditional obligation for the welfare of their members to include a promise of equal treatment for black servicemen wherever they might be. In the name of equality of treatment and opportunity, the Department of Defense began to challenge racial injustices deeply rooted in American society. For all its sweeping implications, equality in the armed forces obviously had its pragmatic aspects. In one sense it was a practical answer to pressing political problems that had plagued several national administrations. In another, it was the services' expression of those liberalizing tendencies that were permeating American society during the era of civil rights activism. But to a considerable extent the policy of racial equality that evolved in this quarter century was also a response to the need for military efficiency. So easy did it become to demonstrate the connection between inefficiency and discrimination that, even when other reasons existed, military efficiency was the one most often evoked by defense officials to justify a change in racial policy._x000D_ Morris J. MacGregor, Jr., received the A.B. and M.A. degrees in history from the Catholic University of America. He continued his graduate studies at the Johns Hopkins University and the University of Paris on a Fulbright grant. Before joining the staff of the U.S. Army Center of Military History in 1968 he served for ten years in the Historical Division of the Joint Chiefs of Staff.

Orbis Scott Mackay,2019-01-27 The award-winning author of Phytosphere delivers an “intriguing alternate history” (Booklist) of conquest, rebellion and the destiny of humanity . . . Two thousand years ago, as the Roman Empire beat back the rise of Christianity, the saviors of mankind arrived. And they weren’t Jesus of Nazareth or his Disciples. They were the Benefactors. They appeared as heavenly beings on a mission of hope, convincing the people of Earth to accept their kindly dominion by hijacking the insurgent Christian Movement and turning it into an instrument of control. When the mighty Roman Empire refused to bow down, it was destroyed. Ever since, the Benefactors have guided and led, and humankind has followed and prospered, but at a price. In an alternate 1947, the truth behind the Benefactors’ origins and motives are about to be discovered. And unless three ordinary people can find the courage to fight against everything they’ve been taught to believe and obey, the end of humanity may already be inevitable . . . With this “riveting drama,” Scott Mackay once again proves himself a writer of rare talent and captivating imagination in the realm of science fiction (Locus). “Real-world history veers off-track just after the death of Christ . . . well-written and entertaining . . . read this book. You’ll enjoy it.” –SF Site “Scott Mackay can always be counted on to create a work that is original in design, yet absorbing and populated with a cast of characters that unite for a common goal.” –AllReaders.com

The Penguin Book of Victorian Verse ,1998-10-19 Daniel Karlin has selected poetry written and published during the reign of Queen Victoria, (1837-1901). Giving pride of place to Tennyson, Robert Browning, and Christina Rossetti, the volume offers generous selections from other major poets such asArnold, Emily Bronte, Hardy and Hopkins, and makes room for several poem-sequences in their entirety. It is wonderful, too, in its discovery and inclusion of eccentric, dissenting, un-Victorian voices, poets who squarely refuse to 'represent' their period. It also includes the work of Elizabeth Barrett Browning, George Meredith, James Thomson and Augusta Webster.

The Love Revolution Joyce Meyer,2009-09-22 Joyce Meyer is not satisfied with the status quo. She believes that we each need to become a revolutionary and practice love every day. And if Joyce has her way, the revolution will spread -- person by person, house by house, town by town, until the old culture of selfishness and greed gives way to a new culture of concern for others. The book is a revolutionaries' manual, a hands-on primer for bringing the Golden Rule to life in the twenty-first century. Meyer starts out by giving some stunning statistics. Right now. . .210,000 children will die this week because of poverty; 640 million children do not have adequate shelter; every day, 3,000 children are abducted into the sex-trafficking industry; every day, 16,000 children die from hunger-related causes. She goes on to say that although crisis is global, the solution is local. We can't solve the world's problems, but that isn't a reason to remain idle. Love Revolution focuses on personal behavior on the local scale. It's not just a call to action; it is a call to being: being the person who goes out of your way to encourage someone who's out of hope; being the one who smiles at a stranger; being the one who is willing to do something for nothing. The paradox: when we do something for nothing, what we often get is something far greater.

Godard On Godard Jean-luc Godard,1986-03-22 Jean-Luc Godard, like many of his European contemporaries, came to filmmaking through film criticism. This collection of essays and interviews, ranging from his early efforts for La Gazette du Cinéma to his later writings for Cahiers du Cinéma, reflects his dazzling intelligence, biting wit, maddening judgments, and complete unpredictability. In writing about Hitchcock, Welles, Bergman, Truffaut, Bresson, and Renoir, Godard is also writing about himself-his own experiments, obsessions, discoveries. This book offers evidence that he may be even more original as a thinker about film than as a director. Covering the period of 1950-1967, the years of Breathless, A Woman Is a Woman, My Life to Live, Alphaville, La Chinoise, and Weekend, this book of writings is an important document and a fascinating study of a vital stage in Godard's career. With commentary by Tom Milne and Richard Roud, and an extensive new foreword by Annette Michelson that reassesses Godard in light of his later films, here is an outrageous self-portrait by a director who, even now, continues to amaze and bedevil, and to chart new directions for cinema and for critical thought about its history.

Aesthetics and Politics Theodor Adorno,Walter Benjamin,Ernst Bloch,Bertolt Brecht,Georg Lukacs,2020-10-13 An intense and lively debate on literature and art between thinkers who became some of the great figures of twentieth-century philosophy and literature. With an afterword by Fredric Jameson No other country and no other period has produced a tradition of major aesthetic debate to compare with that which unfolded in German culture from the 1930s to the 1950s. In Aesthetics and Politics the

key texts of the great Marxist controversies over literature and art during these years are assembled in a single volume. They do not form a disparate collection but a continuous, interlinked debate between thinkers who have become giants of twentieth-century intellectual history.

Art and Vision in the Inca Empire Adam Herring,2015-05-22 In 1500 CE, the Inca empire covered most of South America's Andean region. The empire's leaders first met Europeans on November 15, 1532, when a large Inca army confronted Francisco Pizarro's band of adventurers in the highland Andean valley of Cajamarca, Peru. At few other times in its history would the Inca royal leadership so aggressively showcase its moral authority and political power. Glittering and truculent, what Europeans witnessed at Inca Cajamarca compels revised understandings of pre-contact Inca visual art, spatial practice, and bodily expression. This book takes a fresh look at the encounter at Cajamarca, using the episode to offer a new, art-historical interpretation of pre-contact Inca culture and power. Adam Herring's study offers close readings of Inca and Andean art in a variety of media: architecture and landscape, geoglyphs, sculpture, textiles, ceramics, featherwork and metalwork. The volume is richly illustrated with over sixty color images.

Calvin, A Biography Bernard Cottret,2003-05-22 A major new authoritative and comprehensive biography, shedding new light on the life and personality of the great Reformer – and the milieu in which he lived and worked. Cottret's Calvin is not the 'static' theologian of earlier biographies, but a man of enormous vigour, constantly on the move in his thinking as well as in his life. Professor Cottret introduces the reader to the world into which Calvin was born, and follows him from childhood to humanistic and literary pursuits in Basel, to ministry in Geneva, to the halcyon Strasbourg years and finally back to Geneva. The vital issues of the day are encountered as it were through Calvin's eyes, as the author leads the reader through the dramatic upheavals of sixteenth-century Europe. A classic biography which will be an indispensable resource for students and scholars for years to come. Praise for Calvin: 'A tour de force. . . Cottret has avoided the trap of painting a character who would have had, from the beginning, all of the traits of his later years, and endeavours to show how Calvin became Calvin. . . Brilliant.' --Le Monde 'This excellent book regards the French Reformer with new eyes. . . Cottret mixes seriousness and welcome humour. For the public interested in a history of Protestantism, this book is full of reflections of the spirit of the Reformation.' --Les Livres du Mois Bernard Cottret is an accomplished and successful writer . . . He has an idiosyncratic style that mixes narrative and professional bon mots of a cold philosophical nature . . . Cottret is also the first of recent biographers [. . .] to make extensive use of Calvin's sermons, many of which languished unpublished until recently. Calvin had grave doubts about the publication of such works and thought them fit only for a local and transitory audience; but it is here, in this less guarded medium, that Calvin's skill as a teacher and expositor shines forth with greatest clarity. --English Historical Review

Endometriosis in Adolescents Ceana H. Nezhat,2020-11-13 Adolescent endometriosis is a previously overlooked disease in children, the true prevalence of which is still unknown but has been estimated between 19-73%. There are numerous initial challenges faced by adolescents suffering from delayed or undiagnosed endometriosis apart from experiencing chronic pain, such as: school/work absenteeism, false diagnoses/treatments, erroneous physician referrals, unnecessary radiological studies, radiation exposure, and emergency room visits as well as early exposure to narcotic pain medications and subsequent drug tolerance, resistance or even addiction. This text presents a clear history of physician and patient understanding and awareness of endometriosis in adolescents. It lays the groundwork for this condition with background information on endometriosis in general followed by a more focused look at endometriosis in adolescents. Leading experts in the field provide chapters on the different locations where endometriotic lesions can present in adolescents as well as identified risk factors and concomitant diseases of which it is important to be aware. In addition to the clinical presentation, this book also provides information on breaking down existing barriers, such as stigma, and current activism and awareness of this condition. Adolescent Endometriosis is a first-of-its-kind text that focuses exclusively on endometriosis in the adolescent population. Written by experts in the field, this book is a comprehensive resource for clinicians in all medical disciplines that treat adolescent age girls.

The Extent of the Atonement David L. Allen,2016-06-01 The extent of Christ's atoning work on the cross is one of the most divisive issues in evangelical Christianity. In *The Extent of the Atonement: A Historical and Critical Review*, David L. Allen makes a biblical, historical, theological, and practical case for a universal atonement. Through a comprehensive historical survey, Allen contends that universal atonement has always been the majority view of Christians, and that even among Calvinist theologians there is a considerable range of views. Marshalling evidence from Scripture and history, and critiquing arguments for a limited atonement, Allen affirms that an unlimited atonement is the best understanding of Christ's saving work. He concludes by showing that an unlimited atonement provides the best foundation for evangelism, missions, and preaching.
