**Design of Water-Resource Systems** Arthur Maass,Maynard M. Hufschmidt,Robert Dorfman,Jr. Harold A. Thomas,Stephen A. Marglin,Gordon Maskew Fair,2013-10-01

*Estuarine Water Quality Management* Wilfried Michaelis,2012-12-06 All over the world, the awareness of the increasing pollution of rivers, estuaries and the sea with its associated impact on these ecosystems, its effect on organisms, food-chains, water supply and finally on man himself is growing. Estuaries form a link between the limnetic and marine environments, characterized by a variety of complex processes. Most of these phenomena are not yet sufficiently understood, making efficient water quality management a difficult task. The volume has two main objectives: to present the latest information on current estuarine research and to elaborate fundamentals and criteria for planners and decision-makers in water quality management.
