Black Sun Rising C.S. Friedman,1992-09-01 Over a millennium ago, Erna, a seismically active yet beautiful world was settled by colonists from far-distant Earth. But the seemingly habitable planet was fraught with perils no one could have foretold. The colonists found themselves caught in a desperate battle for survival against the fae, a terrifying natural force with the power to prey upon the human mind itself, drawing forth a person's worst nightmare images or most treasured dreams and indiscriminately giving them life. Twelve centuries after fate first stranded the colonists on Erna, mankind has achieved an uneasy stalemate, and human sorcerers manipulate the fae for their own profit, little realizing that demonic forces which feed upon such efforts are rapidly gaining in strength. Now, as the hordes of the dark fae multiply, four people—Priest, Adept, Apprentice, and Sorcerer—are about to be drawn inexorably together for a mission which will force them to confront an evil beyond their imagining, in a conflict which will put not only their own lives but the very fate of humankind in jeopardy.

The Black Jacobins C.L.R. James,2023-08-22 A powerful and impassioned historical account of the largest successful revolt by enslaved people in history: the Haitian Revolution of 1791–1803 “One of the seminal texts about the history of slavery and abolition.... Provocative and empowering.” —The New York Times Book Review *The Black Jacobins*, by Trinidadian historian C. L. R. James, was the first major analysis of the uprising that began in the wake of the storming of the Bastille in France and became the model for liberation movements from Africa to Cuba. It is the story of the French colony of San Domingo, a place where the brutality of plantation owners toward enslaved people was horrifyingly severe. And it is the story of a charismatic and barely literate enslaved person named Toussaint L'Ouverture, who successfully led the Black people of San Domingo against successive invasions by overwhelming French, Spanish, and English forces—and in the process helped form the first independent post-colonial nation in the Caribbean. With a new introduction (2023) by Professor David Scott.

Spacecraft Maximum Allowable Concentrations for Selected Airborne Contaminants National Research Council,Division on Earth and Life Studies,Board on Environmental Studies and Toxicology,Committee on Toxicology,Committee on Spacecraft Exposure Guidelines,2008-12-24 NASA is aware of the potential toxicologic hazards to crew that might be associated with prolonged spacecraft missions. Despite major engineering advances in controlling the atmosphere within spacecraft, some contamination of the air appears inevitable. NASA has measured numerous airborne contaminants during space missions. As the missions increase in duration and complexity, ensuring the health and well-being of astronauts traveling and working in this unique environment becomes increasingly difficult. As part of its efforts to promote safe conditions aboard spacecraft, NASA requested the National Research Council to develop guidelines for establishing spacecraft maximum allowable concentrations (SMACs) for contaminants and to review SMACs for various spacecraft contaminants to determine whether NASA's recommended exposure limits are consistent with the guidelines recommended by the committee. This book is the fifth volume in the series *Spacecraft Maximum Allowable Concentrations for Selected Airborne Contaminants*, and presents SMACs for acrolein, C3 to C8 aliphatic saturated aldehydes, C2 to C9 alkanes, ammonia, benzene, carbon dioxide, carbon monoxide, 1,2-dichloroethane, dimethylhydrazine, ethanol, formaldehyde, limonene, methanol, methylene dichloride, n-butanol, propylene glycol, toluene, trimethylsilanol, and xylenes.

Lincoln in the Bardo George Saunders,2017-02-14 #1 NEW YORK TIMES BESTSELLER • WINNER OF THE MAN BOOKER PRIZE The “devastatingly moving” (People) first novel from the author of *Tenth of December*: a moving and original father-son story featuring none other than Abraham Lincoln, as well as an unforgettable cast of supporting characters, living and dead, historical and invented Named One of Paste’s Best Novels of the Decade • Named One of the Ten Best Books of the Year by The Washington Post, USA Today, and Maureen Corrigan, NPR • One of Time’s Ten Best Novels of the Year • A New York Times Notable Book • One of O: The Oprah Magazine’s Best Books of the Year February 1862. The Civil War is less than one year old. The fighting has begun in earnest, and the nation has begun to realize it is in for a long, bloody struggle. Meanwhile, President Lincoln’s beloved eleven-year-old son, Willie, lies upstairs in the White House, gravely ill. In a matter of days, despite predictions of a recovery, Willie dies and is laid to rest in a Georgetown cemetery. “My poor boy, he was too good for this earth,” the president says at the time. “God has called him home.” Newspapers report that a grief-stricken Lincoln returns, alone, to the crypt several times to hold his boy’s body. From that seed of historical truth, George Saunders spins an unforgettable story of familial love and loss that breaks free of its realistic, historical framework into a supernatural realm both hilarious and terrifying. Willie Lincoln finds himself in a strange purgatory where ghosts mingle, gripe, commiserate, quarrel, and enact bizarre acts of penance. Within this transitional state—called, in the Tibetan tradition, the bardo—a monumental struggle erupts

over young Willie's soul. Lincoln in the Bardo is an astonishing feat of imagination and a bold step forward from one of the most important and influential writers of his generation. Formally daring, generous in spirit, deeply concerned with matters of the heart, it is a testament to fiction's ability to speak honestly and powerfully to the things that really matter to us. Saunders has invented a thrilling new form that deploys a kaleidoscopic, theatrical panorama of voices to ask a timeless, profound question: How do we live and love when we know that everything we love must end? "A luminous feat of generosity and humanism."—Colson Whitehead, The New York Times Book Review "A masterpiece."—Zadie Smith

Laptop from Hell Miranda Devine, 2021-11-30 As seen on Tucker Carlson Tonight! USA Today and Wall Street Journal Bestseller! The inside story of the laptop that exposed the president's dirtiest secret. When a drug-addled Hunter Biden abandoned his waterlogged computer at a Mac repair shop in Delaware in the spring of 2019, just six days before his father announced his candidacy for the United States presidency, it became the ticking time bomb in the shadows of Joe Biden's campaign. The dirty secrets contained in Hunter's laptop almost derailed his father's presidential campaign and ignited one of the greatest media coverups in American history. This is the unvarnished story of what's really inside the laptop and what China knows about the Bidens, by the New York Post journalist who brought it into the open. It exposes the coordinated censorship operation by Big Tech, the media establishment, and former intelligence operatives to stifle the New York Post's coverage, in a chilling exercise of raw political power three weeks before the 2020 election. A treasure trove of corporate documents, emails, text messages, photographs, and voice recordings, spanning a decade, the laptop provided the first evidence that President Joe Biden was involved in his son's ventures in China, Ukraine, and beyond, despite his repeated denials. This intimate insight into Hunter's dissolute lifestyle shows he was incapable of holding down a job, let alone being paid tens of millions of dollars in high-powered international business deals by foreign interests, unless he had something else of value to sell—which of course he did. He was the son of the vice president who would go on to become the leader of the free world.

Start-up Nation Dan Senor, Saul Singer, 2011-09-07 What the world can learn from Israel's meteoric economic success. Start-Up Nation addresses the trillion dollar question: How is it that Israel -- a country of 7.1 million, only 60 years old, surrounded by enemies, in a constant state of war since its founding, with no natural resources-- produces more start-up companies than large, peaceful, and stable nations like Japan, China, India, Korea, Canada and the UK? With the savvy of foreign policy insiders, Senor and Singer examine the lessons of the country's adversity-driven culture, which flattens hierarchy and elevates informality-- all backed up by government policies focused on innovation. In a world where economies as diverse as Ireland, Singapore and Dubai have tried to re-create the Israel effect, there are entrepreneurial lessons well worth noting. As America reboots its own economy and can-do spirit, there's never been a better time to look at this remarkable and resilient nation for some impressive, surprising clues.

Wastelands Corban Addison, 2023-09-19 Beautifully written, impeccably researched, and told with the air of suspense that few writers can handle, *Wastelands* is a story I wish I had written. —From the Foreword by John Grisham The once idyllic coastal plain of North Carolina is home to a close-knit, rural community that for more than a generation has battled the polluting practices of large-scale farming taking place in its own backyard. After years of frustration and futility, an impassioned cadre of local residents, led by a team of intrepid and dedicated lawyers, filed a lawsuit against one of the world's most powerful companies—and, miraculously, they won. As vivid and fast-paced as a thriller, *Wastelands* takes us into the heart of a legal battle over the future of America's farmland and into the lives of the people who found the courage to fight. There is Elsie Herring, the most outspoken of the neighbors, who has endured racial slurs and the threat of a restraining order to tell the story of the waste raining down on her rooftop from the hog operation next door. There is Don Webb, a larger-than-life hog farmer turned grassroots crusader, and Rick Dove, a riverkeeper and erstwhile military judge who has pioneered the use of aerial photography to document the scale of the pollution. There is Woodell McGowan, a quiet man whose quest to redeem his family's ancestral land encourages him to become a better neighbor, and Dr. Steve Wing, a groundbreaking epidemiologist whose work on the health effects of hog waste exposure translates the neighbors' stories into the argot of science. And there is Tom Butler, an environmental savant and hog industry insider whose whistleblowing testimony electrifies the jury. Fighting alongside them in the courtroom is Mona Lisa Wallace, who broke the gender barrier in her small southern town and built a storied legal career out of vanquishing corporate giants, and Mike Kaeske, whose trial skills are second to none. With journalistic rigor and a novelist's instinct for story, Corban Addison's *Wastelands* captures the inspiring struggle to bring a modern-day monopoly to its knees, to force a once-invincible corporation to change, and to preserve the rights—and restore the heritage—of a long-suffering community.

Tuareg Jewelry Helene E. Hagan, Lucile C. Myers, 2006-06-06 For you, it may look like a small unimportant detail, like your thumbnail. But for me, it is the whole vast world. Look at this jewel... here is the ant, here is the hyena, the jackal, the hoof of a horse, that of a gazelle, the sun, the moon, the stars, the good eye... this triangle, this is woman, and here are the eyebrows of the Malignant One, there, laughter... it is all of our lives in one piece of silver. (Translated from the French by Helene E. Hagan, from original Tuareg words of an artisan cited by J. Gabus, 1971) An extensive study of the symbolism of Tuareg jewelry has not yet been undertaken to date. It is this simple realization that brought the authors together in a decision to collect information on the topic, from past scholarly journals and books, contemporary articles and web sites, but also from Tuareg informants whose expert knowledge was sought. Though this book is small and does not aspire to be all encompassing, it is the first work totally dedicated to the presentation of the elaborate silver jewelry of Tuareg men and women of Northern Niger in the English language, and the only one we know that is solely dedicated to providing information concerning the function, meanings, and symbols of that jewelry. The book introduces the reader to the culture of the Tuaregs, a remarkable group of African nomads of the Sahara Desert, which has fascinated the Europeans who came into contact with them in the nineteenth and twentieth centuries. In the last decade or so, as the Tuareg societies of Niger and Mali underwent major change, a number of American researchers began to document some of their ways. Research and publications in the English language are, however, lagging far behind those in the French language. Fortunately, the primary author of this book, Helene Hagan, was originally educated in the French language, and as an Amazigh (Berber) herself, is very familiar with North African scholarship in the Amazigh culture. Thus, as a bilingual anthropologist of Berber ancestry, born and raised in Morocco, and an activist for Amazigh cultural, linguistic and human rights, she benefits from a fourfold source of valuable information: French scholarship, American contemporary accounts, the latest Amazigh research emanating out of North Africa, and Northern Niger Tuareg informants she knows. This unique set of circumstances gives the book an extra dimension of depth and insight. The book recounts the myth of origin of the Kel Tamasheq of Niger, and looks at the continuity and development of symbols from archaic inscriptions and rock art of the Sahara to present-day engravings on silver jewelry and the Tifinagh alphabet. The second chapter is entirely devoted to retracing this development and showing the correspondence between Tifinagh characters of the Amazigh alphabet and the elegant, clear lines of geometric designs, which characterize the silver jewelry of the Tuareg people. The two are deeply connected. Modern Tifinagh Calligraphic Art is also featured in this chapter. The next chapter delves into the mystery of the famous Cross of Agadez and the various hypotheses that have been offered as to its meaning. It depicts the artisanal mode of production, and the functions the crosses hold for Tuareg people themselves. Nowadays, the production of crosses for the western world diminishes the role this cross, Tenghelet tan Agadez, had as a clan identifier. It has become, like other less well known pieces of Tuareg jewelry, a simple ornament or necklace devoid of any particular significance, and the markings on those crosses are losing some of their intentions of yore. The book reviews specific

masculine jewelry and feminine adornment in the next two chapters, and looks at the role various pieces of silver jewelry play in the relations

The Enigmatic Netherworld Books of the Solar-Osirian Unity John Coleman Darnell,2004 In Egypt, from the Old to the New Kingdom, enigmatic texts were created on the basis of non-standardized lists of characters and phonetic signs, the exact principles of which are still unclear to this day. For the first time, this study examines in detail the three most comprehensive known inscription texts from the New Kingdom, which were discovered in the tombs of Tutenchamun, Ramses VI and Ramses IX. Darnell shows that these three texts have a theological, iconographic and formal connection, and calls them collectively the Book of the Solar-Osirian Unity. Differentiated and lively, he presents the content and theological peculiarities of these texts that deal with the afterlife with each other and in relation to other enigmatic texts of the new as well as the Middle and Old Kingdom.
