**Dinosaur Odyssey** Scott D. Sampson, 2011-06-28 The best general-audience dinosaur book since the Dinosaur Renaissance began in the 1970s.—Philip J. Currie, coeditor of *Encyclopedia of Dinosaurs*, from the foreword “Dinosaur Odyssey is not only a personable and highly accessible tour of the up-to-date discoveries about the gigantic and famous. It also builds on dinosaur paleontology to far-ranging topics like extinction, climate change, and the possibility of life on Mars. The gift to the reader is both fascination and enlightenment.”—Michael Novacek, author of *Terra and Dinosaurs of the Flaming Cliffs* An odyssey indeed! One of the world's leading dinosaur paleontologists, Sampson draws on a wide variety of sciences, from astronomy and cosmology to microbiology and ecology, in order to portray dinosaurs as living animals. The reader is in for a treat and will emerge with fresh and valuable insights.—Peter Dodson, author of *The Horned Dinosaurs*

**Mistakes Were Made** , 2013-08-27 Resolving to earn so much money that his mother will no longer stress out over the bills, eleven-year-old Timmy Failure launches a detective business with a lazy polar bear partner named Total but finds their enterprise Total Failure, Inc. challenged by a college-bound spy and a four-

foot-tall girl whom Timmy refuses to acknowledge.

*The Place of Stunted Ironwood Trees* David P.

Crandall,2000-01-01 This is an account of the lives of a small band of cattle herders, the Himba, who live in and around the settlement of Otutati in northwestern Namibia. The narrative chronicles the events of a single year, though within that year are found the events of a lifetime: birth, maturation, aging, death; generosity, meanness, accomplishment, failure. The author draws the reader into a human world that appears so utterly different from our own in the first decade of the twenty-first century. However, as the leading characters' lives and personal qualities, their joys, hopes, and anxieties unfold, the exoticism of their world fades and the experience of life rings strangely familiar.--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. Roadside MBA Michael Mazzeo,Paul Oyer,Scott

Schaefer,2014-06-10 While playing hooky from a conference in Boston a few years back, three former colleagues from Northwestern's Kellogg School of Management hopped in a car and headed on a road trip. They pulled into a shoe store in Maine and noticed that the sales help was unusually pushy. After a few

questions, they discovered the store had a secret shopper program, in which employees would be marked down if they were not sufficiently aggressive with customers. A lightbulb went off. Instead of teaching the tried-and-true case studies involving GE and Microsoft, these three wise men decided to pull their heads out of their ivory towers and go in search of insights about product differentiation, pricing, brand management, building a team, and a host of other topics. Why take your cues on employee compensation from Wall Street when you can learn from a Main Street company like Couer D'Alene's best crime-scene cleaner? Want to learn about scaling a business? Come meet Dr. Burris, the flying orthodontist, who operates multiple, profitable practices in rural Arkansas. The book isn't all egghead; the chapters are spiced with the type of vehicular mishaps and Maalox moments that are common on any road trip.

**Development Management** Justice Nyigmah Bawole, Farhad Hossain, Asad K. Ghalib, Christopher J. Rees, Aminu

Mamman,2016-10-04 Despite significant financial investments, the rate of development and pace of poverty reduction in developing and transitional countries has not always matched expectations. Development management typically involves complex interactions between governmental and non-governmental organisations, donors and members of the public, and can be difficult to navigate. This volume brings together a group of international contributors to explore the theoretical and empirical underpinnings of development management, and to consider the prospects and challenges associated with it in the context of both developing and transitional countries. Referring to dominant norms and values in public and developmental organisations, development management is tied up with the attitudes and perceptions of various stakeholders including: government officials, public sector managers, aid workers, donors and members of the public. Attempting to make sense of complex interactions between these actors is highly problematic and calls for new approaches, models and insights. Based on cutting-edge research, the chapters challenge much of the previous discourse on the subject and evaluate the challenges and opportunities that it presents. Development Management offers academics, researchers and practitioners of public administration,

business and management, international development and political science a comprehensive and state-of-the-art review of current research on development management in the context of developing and transitional countries.

**The Tibetan Yoga of Breath** Anyen Rinpoche, Allison Choying Zangmo, 2013-11-12 Modern science and classic spiritual traditions agree: regulating the breath leads to radiance and wellness of body, mind, and spirit. With the simple teachings and cutting-edge research offered in *The Tibetan Yoga of Breath*, you can start thriving just by integrating breathwork into your daily practice. Basic Yantra Yoga techniques—also called wind energy training—are the key to achieving this kind of vitality, down to the cellular level. Anyen Rinpoche and Allison Choying Zangmo skillfully examine the teachings of Yantra Yoga and Buddhism through the lens of Western medical science. Their wise and accessible instruction reveals practices that are nourishing and transformative, delivering dramatic results—no experience with yoga or Buddhist meditation necessary.

**Introduction to Philosophy** Guy Axtell, 2022-01-26 Introduction to Philosophy: Epistemology engages first-time philosophy readers on a guided tour through the core concepts, questions, methods, arguments, and theories of epistemology—the branch of philosophy devoted to the study of knowledge. After a brief overview of the field, the book progresses systematically while placing central ideas and thinkers in historical and contemporary context. The chapters cover the analysis of knowledge, the nature of epistemic justification, rationalism vs. empiricism, skepticism, the value of knowledge, the ethics of belief, Bayesian epistemology, social epistemology, and feminist epistemologies. Along the way, instructors and students will encounter a wealth of additional resources and tools: Chapter learning outcomes Key terms Images of philosophers and related art Useful diagrams and tables Boxes containing excerpts and other supplementary material Questions for reflection Suggestions for further reading A glossary For an

The Practice of Lojong Traleg Kyabgon,2007-04-10 For many centuries Indian and Tibetan Buddhists have employed this

collection of pithy, penetrating Dharma slogans to develop compassion, equanimity, lovingkindness, and joy for others. Known as the lojong—or mind-training—teachings, these slogans have been the subject of deep study, contemplation, and commentary by many great masters. In this volume, Traleg Kyabgon offers a fresh translation of the slogans as well as in-depth new commentary of each. After living among and teaching Westerners for over twenty years, his approach is uniquely insightful into the ways that the slogans could be misunderstood or misinterpreted within our culture. Here, he presents a refreshing and clarifying view, which seeks to correct points of confusion.

**Cloth Lullaby** Amy Novesky, 2016-03-01 Award-winning creators, Amy Novesky and Isabelle Arsenault, present a picture book biography of a beloved artist in *Cloth Lullaby: The Woven Life of Louise Bourgeois*. Louise Bourgeois (1911–2010) was a world-renowned modern artist noted for her sculptures made of wood, steel, stone, and cast rubber. Her most famous spider sculpture, *Maman*, stands more than 30 feet high. Just as spiders spin and repair their webs, Louise’s own mother was a weaver of tapestries. Louise spent her childhood in France as an apprentice to her mother before she became a tapestry artist herself. She worked

with fabric throughout her career, and this biographical picture book shows how Bourgeois's childhood experiences weaving with her loving, nurturing mother provided the inspiration for her most famous works. With a beautifully nuanced and poetic story, this book stunningly captures the relationship between mother and daughter and illuminates how memories are woven into us all. "With evocative, gorgeous illustrations and an inspirational story of an artist not often covered in children's literature, this arresting volume is an excellent addition to nonfiction picture book collections, particularly those lacking titles about women artists." —Booklist, starred review

**A Brief History of Earth** Andrew H. Knoll, 2021-04-27 Harvard's acclaimed geologist "charts Earth's history in accessible style" (AP) "A sublime chronicle of our planet. —Booklist, STARRED review How well do you know the ground beneath your feet? Odds are, where you're standing was once cooking under a roiling sea of lava, crushed by a towering sheet of ice, rocked by a nearby meteor strike, or perhaps choked by poison gases, drowned beneath ocean, perched atop a mountain range, or roamed by fearsome monsters. Probably most or even all of the above. The story of our home planet and the organisms spread across its

surface is far more spectacular than any Hollywood blockbuster, filled with enough plot twists to rival a bestselling thriller. But only recently have we begun to piece together the whole mystery into a coherent narrative. Drawing on his decades of field research and up-to-the-minute understanding of the latest science, renowned geologist Andrew H. Knoll delivers a rigorous yet accessible biography of Earth, charting our home planet's epic 4.6 billion-year story. Placing twenty first-century climate change in deep context, *A Brief History of Earth* is an indispensable look at where we've been and where we're going. Features original illustrations depicting Earth history and nearly 50 figures (maps, tables, photographs, graphs).

**Flibbertigibbety Words** Donna Guthrie, 2020-09-01 With quotes and sly references to the famous works of William Shakespeare

and the words he invented, this adventurous ode to language will delight readers young and old. It all starts one morning when words fly into William's window. He wants to catch them, but they are flibbertigibbety and quick and slip right through his fingers. Soon whole lines of verse are leading him on a wild goose chase as they tumble, dip, flip and skip all through town, past a host of colorful characters the observant reader may find as familiar as the quotes. William remains persistent, and with time and the proper tools he finds a way to keep the words with him.

**Lady Pancake & Sir French Toast** Josh Funk, 2020-02-28 A thoroughly delicious rhyming story about the funniest food fight ever—perfect for fans of The Food Group series. And could working together be better than tearing each other apart? Praise for the Lady Pancake and Sir French Toast Series: “[R]eaders will giggle their way through this refrigerated fantasyland.”—Publishers Weekly “A must purchase.”—School Library Journal, starred review Don't miss the

**Stop Biting the Tail You're Chasing** Anyen Rinpoche, Allison Choying Zangmo, 2018-07-10 How to be free from bondage to your emotions: a practical and powerful Buddhist teaching for training the mind to be content in any circumstance. Are emotions our friends or our enemies? Is it possible to free ourselves from emotional conflict? The Buddhist practice of lojong is a way of letting go of attachment to both “positive” and “negative” emotions and leads to profound insight and compassion, unbounded by our habitual reactions. This book provides a set of tools that you can apply in daily life to gradually relieve your own suffering and extend that relief to everyone you encounter.

**Offline Matters** Jess Henderson, 2021-02-08 *Offline Matters* is a handbook for anybody experiencing digital overload in their lives

and creative work. When did creative work become so boring? How did 'digital-first' come to dominate everything? ...and why is nobody talking about it? Part insider expose, part worker-manual, this book is for any creative seeking help on: navigating the possibility of offline alternatives, countering overwork culture, exploitation, and dulled-down ideas, recovering what you loved about your creative calling...away from the confines of our screens. We are dreaming of offline. Not as a romanticised past, a punishment, a quick detox, or a WiFi-free cafe. Offline is not a lifestyle. It's a space of opportunity. BA. KU. Anthony Tafuro, Deer Man of Dark Woods, Depth Leviathan Dweller, 2015-06-02 Within the city of Vancouver, and amongst the deep wilderness of B.C. dwells the Barrier Kult. They're an assembly of incognito professional skateboarders that ritualize their skill on concrete barriers. The team was created ten years ago by Deer Man of Dark Woods and Depth Leviathan Dweller, who decided to adorn a mask of anonymity after growing tired of the repetition of the professional skate world. One would argue that the Barrier Kult's entire way of skating is repetitive, but

the team takes this as a challenge to land big tricks... on stone cold concrete. BA. KU. resembles a religious cult and is likewise intricate and timeless. The skaters' ages range from early twenties, to mid-forties, with members spread around the world and meet up in Vancouver, (or wherever there is a proper barrier) when it comes time to collect footage for a video/film. Though alchemy and other ritual practices interest the Barrier Kult, their true roots lie in music and nature. The team is promoted by and has worked with countless bands in the black metal/noise community and feels that the genre has been able to loan the group its face and image. By connecting with these heavy musical influences, BA. KU. has been able to grow a loyal fan base that is not concerned with who may be behind the balaclava mask. While watching the team perform, the vast nature of B.C. creates the atmosphere, and war metal amplifies the experience. Most of skateboarding culture has been linked to punk, rap, metal and other similar genres, so the rookie members of BA. KU. are all proud to sport the musical inspirations of the organization.
