**City on a Hill** Alex Krieger,2019-10-29 A sweeping history of American cities and towns, and the utopian aspirations that shaped them, by one of America's leading urban planners and scholars. The first European settlers saw America as a paradise regained. The continent seemed to offer a God-given opportunity to start again and build the perfect community. Those messianic days are gone. But as Alex Krieger argues in *City on a Hill*, any attempt at deep understanding of how the country has developed must recognize the persistent and dramatic consequences of utopian dreaming. Even as ideals have changed, idealism itself has for better and worse shaped our world of bricks and mortar, macadam, parks, and farmland. As he traces this uniquely American story from the Pilgrims to the "smart city," Krieger delivers a striking new history of our built environment. The Puritans were the first utopians, seeking a New Jerusalem in the New England villages that still stand as models of small-town life. In the Age of Revolution, Thomas Jefferson dreamed of citizen farmers tending plots laid out across the continent in a grid of enlightened rationality. As industrialization brought urbanization, reformers answered emerging slums with a zealous crusade of grand civic architecture and designed the vast urban parks vital to so many cities today. The twentieth century brought cycles of suburban dreaming and urban renewal—one generation's utopia forming the next one's nightmare—and experiments as diverse as Walt Disney's EPCOT, hippie communes, and Las Vegas. Krieger's compelling and richly illustrated narrative reminds us, as we formulate new ideals today, that we chase our visions surrounded by the glories and failures of dreams gone by.

**Tree of strings** Keith Sanger,Alison Kinnaird,2015-12-14 This is the first history of the harp in Scotland to be published. It sets out to trace the development of the instrument from its earliest appearance on the Pictish stones of the 8th century, to the present day. Describing the different harps played in the Highlands and the Lowlands of Scotland, the authors examine the literary and physical evidence for their use within the Royal Courts and big houses by professional harpers and aristocratic amateurs. They vividly follow the decline of the wire-strung clarsach from its links with the hereditary bards of the Highland chieftains to its disappearance in the 18th century, and the subsequent attempts at the revival of the small harp during the 19th and 20th centuries. The music played on the harp, and its links with the great families of Scotland are described. The authors present, in this book, material which has never before been brought to light, from unpublished documents, family papers and original manuscripts. They also make suggestions, based on their research, about the development and dissemination of the early Celtic harps and their music. This book, therefore, should be of great interest, not only to harp players but to historians, to all musicians in the fields of traditional and early music, and to any reader who recognises the importance of these beautiful instruments, and their music, throughout a thousand years of Scottish culture.

**Waterloo 1815** Gregory Fremont-Barnes,2022-12 A user-friendly, key guide to one of history's most iconic battles One of the most decisive battles in military history, Waterloo saw the culmination of a generation of war to bring a definitive end to French hegemony and imperial ambitions in Europe. Both sides fought bitterly and Wellington later remarked that 'it was the nearest-run thing you ever saw in your life'. In this bloody engagement, more than 20,000 men were lost on the battlefield that day by each side, but it was the Anglo-Allies who emerged victorious. Their forces entered France and restored Louis XVIII to the throne, while Napoleon was exiled to the island of Saint Helena, where he later died. Waterloo was a resounding victory for the British Army and Allied forces, and it changed the course of European history. In this concise yet detailed account, historian Gregory Fremont-Barnes tells you everything you need to know about this critical battle.

**Saving America's Cities** Lizabeth Cohen,2019-10-01 Winner of the Bancroft Prize In twenty-first-century America, some cities are flourishing and others are struggling, but they all must contend with deteriorating infrastructure, economic inequality, and unaffordable housing. Cities have limited tools to address these problems, and many must rely on the private market to support the public good. It wasn't always this way. For almost three decades after World War II, even as national policies promoted suburban sprawl, the federal government underwrote renewal efforts for cities that had suffered during the Great Depression and the war and were now bleeding residents into the suburbs. In *Saving America's Cities*, the prizewinning historian Lizabeth Cohen follows the career of Edward J. Logue, whose shifting approach to the urban crisis tracked the changing balance between government-funded public programs and private interests that would culminate in the neoliberal rush to privatize efforts to solve entrenched social problems. A Yale-trained lawyer, rival of Robert Moses, and sometime critic of Jane Jacobs, Logue saw renewing cities as an extension of the liberal New Deal. He worked to revive a declining New Haven, became the architect of the "New Boston" of the 1960s, and, later, led New York State's Urban Development Corporation, which built entire new towns, including Roosevelt Island in New York City. Logue's era of urban renewal has a complicated legacy: Neighborhoods were demolished and residents dislocated, but there were also genuine successes and progressive goals. *Saving America's Cities* is a dramatic story of heartbreak and destruction but also of human idealism and resourcefulness, opening up possibilities for our own time.

**The Defense of the Napoleonic Kingdom of Northern Italy, 1813-1814** George F. Nafziger,Marco Gioannini,2002 A discussion of the two-year campaign in Northern Italy (1813-14) within the larger context of the Napoleonic Wars. Outnumbered by three to one, the French commander, Eugene Beauharnais fought an outstanding campaign, covering all of Napoleon's southern front.

**Ultimate Weekends: Australia** Emma Shaw,2021-11-17 A stunning, inspirational and practical guide to 60 of the best weekends away across Australia.

**On Freud's Mourning and Melancholia** Thierry Bokanowski,2018-05-08 Both melancholia and mourning are triggered by the same thing, that is, by loss. The distinction often made is that mourning occurs after the death of a loved one while in melancholia the object of love does not qualify as irretrievably lost.

**Dark Ages** Dan Abnett,2015-04-07 New York Times best-selling novelist, graphic novelist, and all-around character, Dan Abnett (*Horus Rising*, *Guardians of the Galaxy*, *The New Deadwardians*) turns his skewed vision to the year 1333. The known world is locked in a holy war. As a godless mercenary company slogs across Europe in search of sustenance and coin, they encounter a demonic force born not of hell, but from beyond the stars! As evil comes forth from the skies above, the heathen warband seeks refuge and redemption in a fortified monastery. But inside lies a dark secret that could ensure their salvation--or seal their fate!

**American Educational History Journal** Shirley Marie McCarther,2020-10-01 The American Educational History Journal is a peer-reviewed, national research journal devoted to the examination of educational topics using perspectives from a variety of disciplines. The editors of AEHJ encourage communication between scholars from numerous disciplines, nationalities, institutions, and backgrounds. Authors come from a variety of disciplines including political science, curriculum, history, philosophy, teacher education, and educational leadership. Acceptance for publication in AEHJ requires that each author present a well articulated argument that deals substantively with questions of educational history. AEHJ accepts original papers of two types. The first consists of papers that are presented each year at our annual meeting. The second type consists of general submission papers received throughout the year. General submission papers may be submitted at any time. They will not, however, undergo the review process until January when papers presented at the annual conference are also due for review and potential publication. For more information about the Organization of Educational Historians (OEH) and its annual conference, visit the OEH web site at: [www.edhistorians.org](http://www.edhistorians.org).

**Mapping Boston** Alex Krieger,David Cobb,2001-08-24 An informative—and beautiful—exploration of the life and history of a city through its maps. To the attentive user even the simplest map can reveal not only where things are but how people perceive and imagine the spaces they occupy. *Mapping Boston* is an exemplar of such creative attentiveness—bringing the history of one of America's oldest and most beautiful cities alive through the maps that have depicted it over the centuries. The book includes both historical maps of the city and maps showing the gradual emergence of the New England region from the imaginations of explorers to a form that we would recognize today. Each map is accompanied by a full description and by a short essay offering an insight into its context. The topics of these essays by Anne Mackin include people both familiar and unknown, landmarks, and

events that were significant in shaping the landscape or life of the city. A highlight of the book is a series of new maps detailing Boston's growth. The book also contains seven essays that explore the intertwining of maps and history. Urban historian Sam Bass Warner, Jr., starts with a capsule history of Boston. Barbara McCorkle, David Bosse, and David Cobb discuss the making and trading of maps from the sixteenth to the nineteenth century. Historian Nancy S. Seasholes reviews the city's remarkable topographic history as reflected in maps, and planner Alex Krieger explores the relation between maps and the physical reality of the city as experienced by residents and visitors. In an epilogue, novelist James Carroll ponders the place of Boston in contemporary culture and the interior maps we carry of a city.

*The Invention of Rivers* Dilip da Cunha,2018 Featuring more than 150 illustrations, many in color, *The Invention of Rivers* integrates history, art, cultural studies, hydrology, and geography to tell the story of how rivers have been culturally constructed as lines granted special roles in defining human habitation and everyday practice.

*Ballpark* Paul Goldberger,2019-05-14 An exhilarating, splendidly illustrated, entirely new look at the history of baseball: told through the stories of the vibrant and ever-changing ballparks where the game was and is staged, by the Pulitzer Prize-winning architectural critic. From the earliest corrals of the mid-1800s (Union Grounds in Brooklyn was a saloon in the open air), to the much mourned parks of the early 1900s (Detroit's Tiger Stadium, Cincinnati's Palace of the Fans), to the stadiums we fill today, Paul Goldberger makes clear the inextricable bond between the American city and America's favorite pastime. In the changing locations and architecture of our ballparks, Goldberger reveals the manifestations of a changing society: the earliest ballparks evoked the Victorian age in their accommodations--bleachers for the riffraff, grandstands for the middle-class; the concrete donuts of the 1950s and '60s made plain television's grip on the public's attention; and more recent ballparks, like Baltimore's Camden Yards, signal a new way forward for stadium design and for baseball's role in urban development. Throughout, Goldberger shows us the way in which baseball's history is concurrent with our cultural history: the rise of urban parks and public transportation; the development of new building materials and engineering and design skills. And how the site details and the requirements of the game--the diamond, the outfield, the walls, the grandstands--shaped our most beloved ballparks. A fascinating, exuberant ode to the Edens at the heart of our cities--where dreams are as limitless as the outfield.
